## **Royal Heirs and the Uses of Soft Power in Nineteenth-Century**

**Europe** Frank Lorenz Müller, Heidi Mehrkens, 2016-10-15

This volume brings together a fascinating selection of studies exploring the soft power tools used by heirs to the throne in order to enhance the communication of monarchies with their audiences during the nineteenth-century. How we perceive royals and their dynasties today – as families, as celebrities, as charitable figureheads of society or as superfluous relics of a bygone age – has deep roots in the monarchical cultures of nineteenth-century Europe. By focusing on the role played by heirs to the throne, this volume offers an original perspective on the ability of monarchies to persuade sceptical audiences, nourish positive emotions and thereby strengthen the position of each dynasty within its respective nation. Using examples from Britain, Italy, Spain, the Netherlands, Austria, Greece, Sweden, Norway and Prussia, an international team of experts analyzes and explains the development of the very soft power tools which are still being used by Ruling Houses today.

**The Gender of Photography** Nicole Hudgins, 2020-09-02 It would be unthinkable now to omit early female pioneers from any survey of photography's history in the Western world. Yet for many years the gendered language of American, British and French photographic literature made it appear that women's interactions with early photography did not count as significant contributions. Using French and English photo journals, cartoons, art criticism, novels, and early career guides aimed at women, this volume will show why and how early photographic clubs, journals, exhibitions, and studios insisted on masculine values and authority, and how Victorian women engaged with photography despite that dominant trend. Focusing on the period before 1890, when women were yet to develop the self-assurance that would lead to broader recognition of the value of their work, this study probes the mechanisms by which exclusion took place and explores how women practiced photography anyway, both as amateurs and professionals. Challenging the marginalization of women's work in the early history of photography, this is essential reading for students and scholars of photography, history and gender studies.

The Heirs to the Savoia Throne and the Construction of 'Italianità', 1860-1900 Maria Christina Marchi, 2022-05-26 This book explores the evolution of the role of the heirs to the throne of Italy between 1860 and 1900. It focuses on the future kings Umberto I (1844-1900) and Vittorio Emanuele III (1869-1947), and their respective spouses, Margherita of Savoia (1851-1926) and Elena of Montenegro (1873-1952). It sheds light on the soft power the Italian royals were attempting to generate, by identifying and examining four specific areas of monarchical activity: firstly, the heirs' public role and the manner in which they attempted to craft an Italian identity through a process of self-presentation; secondly, the national, royal, linguistic and military education of the heirs; thirdly, the promotion of a family-centred dynasty deploying both male and female elements in the public realm; and finally the readiness to embrace different modes of mobility in the construction of italianità. By analysing the growing importance of the royal heirs and their performance on the public stage in post-Risorgimento Italy, this study investigates the attempted construction of a cohesive national identity through the crown and, more specifically, the heirs to the throne.

**How to Be a Spy**, 2004-04 During World War II, training in the black arts of covert operation was vital preparation for the 'ungentlemanly warfare' waged by the Special Operations Executive (SOE) against Hitler's Germany and Tojo's Japan. Reproduced here is the most comprehensive training syllabus used at SOE's Special Training Schools (STSs) showing how agents learnt to wreak maximum destruction in occupied Europe and beyond. The training took place in country houses and other secluded locations ranging

from the Highlands of Scotland to Singapore and Canada. An array of unconventional skills are covered - from burglary, close combat and silent killing through to propaganda, surveillance and disguise - giving insight into the workings of one of World War II's most intriguing organizations. Denis Rigden's introduction sets the documents in its historical context and includes stories of how these lessons were put into practice on actual wartime missions.

*Rose Royal* Nicolas Mathieu,2022-02-08 From the Goncourt Prize-winning author of *And Their Children After Them*, a devilishly smart noir novella that finds uncomfortable truths in the everyday about romance, violence, and women's desire and desirability. Nearing fifty, with a divorce and a string of other failed relationships behind her, Rose has given up on the idea of love, if not sex—though that always comes with risks. Determined not to let another man hurt her, she even ordered a .38 caliber handgun after an argument with her latest boyfriend almost turned violent. Now she carries it everywhere, just in case. As if on autopilot, Rose spends her days at work and then at the Royal, a familiar haunt where she knocks back one drink after another, sometimes with her best friend Marie-Jeanne. And then a sudden accident brings Luc into the bar, and Rose decides to give love one last chance.

*Zone One* Colson Whitehead,2011-10-18 NATIONAL

BESTSELLER • From the two-time Pulitzer Prize-winning author of *The Underground Railroad* and *The Nickel Boys*: A pandemic has devastated the planet, sorting humanity into two types: the uninfected and the infected, the living and the living dead. • One of the best books of the year. —*Esquire* After the worst of the plague is

over, armed forces stationed in Chinatown's Fort Wonton have successfully reclaimed the island south of Canal Street—aka Zone One. Mark Spitz is a member of one of the three-person civilian sweeper units tasked with clearing lower Manhattan of the remaining feral zombies. Zone One unfolds over three surreal days in which Spitz is occupied with the mundane mission of straggler removal, the rigors of Post-Apocalyptic Stress Disorder (PASD), and the impossible task of coming to terms with a fallen world. And then things start to go terribly wrong... At once a chilling horror story and a literary novel by a contemporary master, *Zone One* is a dazzling portrait of modern civilization in all its wretched, shambling glory. Look for Colson Whitehead's new novel, *Crook Manifesto*, coming soon!

Acclaimed author David Rosenfelt's first novel, was nominated for an Edgar Award, now in this new novel, the intrepid lawyer is thrust into the spotlight where he risks becoming a media victim...of the most fatal kind. Yet after turning down cases left and right, Andy Carpenter thinks he's facing a midlife crisis. When a friend, a newspaper owner, calls in a favor and asks him to protect his star reporter, Andy is less than

thrilled. His new client is Daniel Cummings, a journalist who is being used as a mouthpiece by a brutal serial killer. Things only get worse when Daniel is discovered near the body of the murderer's latest victim. And after Andy himself starts collecting anonymous death threats, he hears the news every defense lawyer dreads...and moves to within a dangerous keystroke of becoming tomorrow's obituary.

The Franco-Algerian War through a Twenty-First Century Lens

Nicole Beth Wallenbrock, 2020-02-20 The Franco-Algerian War (1954–62) remains a powerful international symbol of Third Worldism and the finality of Empire. Through its nuanced analysis of the war's depiction in film, *The Franco-Algerian War through a Twenty-First Century Lens* locates an international reckoning with history that both condemns and exonerates past generations. Algerian and French production partnerships-such as *Hors-la-loi*, (Outside the Law, Rachid Bouchareb, 2010) and *Loubia Hamra* (Bloody Beans, Narimane Mari, 2013)-are one of several ways citizens collaborate to unearth a shared history and its legacy. Nicole Beth Wallenbrock probes cinematic discourse to shed new light on topics including: the media revelation of torture and atomic bomb tests; immigration's role in the evolution of the war's meaning; and the complex relationship of the intertwined film cultures. The first chapter summarizes the Franco-Algerian War in 20th-century film, thus grounding subsequent queries with Algeria's moudjahid or freedom-fighter films and the French new wave's perceived disinterest in the conflict. This book is an invaluable resource for scholars seeking to understand cinema's role in re-evaluating war and reconstructing international memory.

100 Birds to See Before You Die David Chandler, Dominic

Couzens,2008 What is the fastest-growing outdoor activity in the North America? Snowboarding? Mountain biking? No. It's bird watching! There are currently 51.3 million dedicated birders in the U.S. with their binoculars focused on the skies. Sure to appeal to this growing flock, 100 Birds to See Before You Die is the ultimate birdwatcher's book. You won't need binoculars to spot the huge and powerful, endangered Philippine Eagle or the brightly plumed Andean Cock-of-the-Rock. Each of the 100 featured species is captured in remarkable full-colour photographs in their natural habitat. Selected by two world-renowned birding authors, the top 100 birds include avian species that are endangered, exceptional common species, and others that have achieved legendary status. This fascinating book combines hard-working detail with more unusual facts and mythological anecdotes, making it much more than a typical bird watching book. Detailed entries describe the natural history of each bird, including size, distribution, habitat, classification, population and conservation status.

The Gastronomica Reader Darra Goldstein,2010-02-21 Described in the 2008 Saveur 100 as At the top of our bedside reading pile since its inception in 2001, the award-winning Gastronomica: The Journal of Food and Culture is a quarterly feast of truly exceptional writing on food. Designed both to entertain and to provoke, The Gastronomica Reader now offers a sumptuous sampling from the journal's pages—including essays, poetry, interviews, memoirs, and an outstanding selection of the artwork that has made Gastronomica so distinctive. consumption under Islamic law. Informed throughout by a keen sense of the pleasures of eating, tasting, and sharing food, The Gastronomica Reader will inspire readers to think seriously, widely, and deeply about what goes onto their plates. Gastronomica is a winner of the Utne Reader's Independent Press Award for Social/Cultural Coverage

Politics of Interculturality Fred Dervin, Anahy Gajardo, Anne Lavanchy, 2011-09-22 Politics of Interculturality fulfills the need for a thorough and critical evaluation of the notion of interculturality. Taking institutional and educational discourses on the 'intercultural' as its main focus, the volume captures vigorous debates currently underway across four continents – the Americas, Europe, Asia and Oceania. The volume's prominent and emerging scholars all agree that change is needed in the way interculturality is used and conceived, especially at a time when the 'Other' is an increasing issue of social concerns and political debates. The authors break with tradition by teasing out the hidden assumptions and implications of interculturality – making explicit the implicit presence of the tired old notion of 'culture'. They also look to establish new ways of engaging with interculturality. The book will be of substantial interest to a wide range of readers who are interested in international communication, education, migration studies, critical race studies, cultural studies, anthropology, linguistics and business. Undergraduates and novice researchers will also find invaluable advice on how to research politics of interculturality.
