**Dredd** Alex Garland,2012-09-07 The Future,  
America is a irradiated wasteland where, on its East Coast, lies Mega City - one vast, violent metropolis whose citizens live in perpetual fear. Imposing order on this urban chaos are the Judges - judge, jury and executioners rolled into one. Foremost among them is Dredd who is given a mission to road-rest a rookie Judge - the powerful psychic Cassandra Anderson. In the course of this training day, the two Judges head for a seemingly routine homicide in the notorious Peach Trees mega-block - a 200-story vertical slum run by the pitiless Ma-Ma clan. When the judges attempt to arrest one of Ma-Ma's chief henchmen, Ma-Ma shuts down the entire building and orders her clan to hunt the Judges down. The Judges are now caught in a vicious and relentless fight for survival.

**Science Fiction Film** Keith M.

Johnston, 2013-05-09 Science Fiction Film develops a historical and cultural approach to the genre that moves beyond close readings of iconography and formal conventions. It explores how this increasingly influential genre has been constructed from disparate elements into a hybrid genre. Science Fiction Film goes beyond a textual exploration of these films to place them within a larger network of influences that includes studio politics and promotional discourses. The book also challenges the perceived limits of the genre - it includes a wide range of films, from canonical SF, such as *Le voyage dans la lune*, *Star Wars* and *Blade Runner*, to films that stretch and reshape the definition of the genre. This expansion of generic focus offers an innovative approach for students and fans of science fiction alike.
