**Rivers and Sustainable Development** S. Nazrul Islam,2020-08-15 Rivers are a vital component of ecology-the earth's hydrological cycle depends on them. However, across the world, rivers are under stress and even in crisis. With rising populations, the demand for river water is increasing. Many rivers fail to reach the sea because of excessive withdrawal of water, and many other rivers are heading toward the same fate. Conflicts over river water are increasing, and climate change is making matters worse. River policies pursued so far are often aggravating these challenges rather than solving them. Yet, sustainable development requires healthy rivers. Urgent change in the approach and policies toward rivers is therefore required. In this book, Nazrul Islam points to the ways in which river policies need to change to ensure sustainable development. He offers a new conceptual framework, using such concepts as the Commercial and Cordon approaches to rivers and their opposite, the Ecological and Open approaches. He shows that while the former generally work against sustainability, the latter are conducive to sustainable development. The book illustrates this reality by drawing upon worldwide experience regarding rivers. Going forward, river policies therefore should be based on Ecological and Open approaches. Islam argues further that the use of the new conceptual framework offered in this book can help to connect the river related discussion of experts with that of activists. It can thus help to move the discussion of river policies from the narrow confines of experts to the wider arena of the public, who should have a greater role in formulation of river policies in order to safeguard public interests and ensure sustainability. The book serves as a valuable guide for those interested in learning about river policy changes necessary to promote sustainable development.

**Colonial Institutions and Civil War** Shivaji Mukherjee,2021-06-03 What explains the peculiar spatial variation of Maoist insurgency in India? Mukherjee develops a novel typology of colonial indirect rule and land tenure in India, showing how they can lead to land inequality, weak state and Maoist insurgency. Using a multi-method research design that combines qualitative analysis of archival data on Chhattisgarh and Andhra Pradesh states, Mukherjee demonstrates path dependence of land/ethnic inequality leading to Maoist insurgency. This is nested within a quantitative analysis of a district level dataset which uses an instrumental variable analysis to address potential selection bias in colonial choice of princely states. The author also analyses various Maoist documents, and interviews with key human rights activists, police officers, and bureaucrats, providing rich contextual understanding of the motivations of agents. Furthermore, he demonstrates the generalizability of his theory to cases of colonial frontier indirect rule causing ethnic secessionist insurgency in Burma, and the Taliban insurgency in Pakistan.

**The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933 -1945: Volume II** Geoffrey P. Megargee,Martin Dean,2012-05-04 “Stands without doubt as the definitive reference guide on this topic in the world today.” —Holocaust and Genocide Studies This volume of the extraordinary encyclopedia from the United States Holocaust Memorial Museum offers a comprehensive account of how the Nazis conducted the Holocaust throughout the scattered towns and villages of Poland and the Soviet Union. It covers more than 1,150 sites, including both open and closed ghettos. Regional essays outline the patterns of ghettoization in nineteen German administrative regions. Each entry discusses key events in the history of the ghetto; living and working conditions; activities of the Jewish Councils; Jewish responses to persecution; demographic changes; and details of the ghetto’s liquidation. Personal testimonies help convey the character of each ghetto, while source citations provide a guide to additional information. Documentation of hundreds of smaller sites—previously unknown or overlooked in the historiography of the Holocaust—make this an indispensable reference work on the destroyed Jewish communities of Eastern Europe. “A very detailed analysis and history of the events that took place in the towns, villages, and cities of German-occupied Eastern Europe . . . .A rich source of information.” —Library Journal “Focuses specifically on the ghettos of Nazi-occupied Eastern Europe . . . stands without doubt as the definitive reference guide on this topic in the world today. This is not hyperbole, but simply a recognition of the meticulous collaborative research that went into assembling such a massive collection of information.” —Holocaust and Genocide Studies “No other work provides the same level of detail and supporting material.” —Choice

**Political Change and Public Culture in Post-1990 Nepal** Michael J. Hutt,Pratyoush Onta,2016 This book explores various domains of the Nepali public sphere in which ideas about democracy and citizenship have been debated and contested since 1990. It investigates the ways in which the public meaning of the major political and sociocultural changes that occurred in Nepal between 1990 and 2013 was constructed, conveyed and consumed. These changes took place against the backdrop of an enormous growth in literacy, the proliferation of print and broadcast media, the emergence of a public discourse on human rights, and the vigorous reassertion of linguistic, ethnic and regional identities. Scholars from a range of different disciplinary locations delve into debates on rumours, ethnicity and identity, activism and gender to provide empirically grounded histories of the nation during one of its most important political transitions.

Documents Accuse Boleslovas Baranauskas,Kazys Rukšėnas,1970 A collection of documents, mostly stemming from the Nazi occupiers and their Lithuanian collaborators, dealing with the genocide in Lithuania. Deals largely with the genocide of Jews in the country. Dwells on Lithuanian collaborator organizations and groups that took part in the Holocaust, including organizations founded before the war (e.g. the Lithuanian Activists' Front and the Iron Wolf) and pro-Nazi police formations set up in German-occupied Lithuania. Contains anti-Jewish directives and orders issued by the Germans and the Lithuanian collaborationist authorities in 1941-42, as

well as documents on mass murders of Jews and Soviet sympathizers, and on the pillaging of Jewish property.

*Organometallic Chemistry* Ian J S Fairlamb, Jason M Lynam, 2008-02-01 Organometallic chemistry is an interdisciplinary science which continues to grow at a rapid pace. Although there is continued interest in synthetic and structural studies the last decade has seen a growing interest in the potential of organometallic chemistry to provide answers to problems in catalysis synthetic organic chemistry and also in the development of new materials. This Specialist Periodical Report aims to reflect these current interests reviewing progress in theoretical organometallic chemistry, main group chemistry, the lanthanides and all aspects of transition metal chemistry. Volume 34 covers literature published up to January 2006.
