Shoot Like the Pros Adam Filippi,2011-02-01 Shooting is the most important fundamental skill in basketball, but despite being the skill players are the most willing to practice, shooting technique is perhaps the least-taught fundamental of the game. In addition, there are very few instructional basketball books dedicated exclusively to shooting. Shoot Like the Pros is perhaps the most detailed analysis of shooting mechanics, covering every aspect of shooting, ever published. Divided into seven sections, it covers shooting mechanics, the mental aspects of shooting, free throws, game situations, strength and conditioning, teaching methods, and finally workout drills for advanced levels. Including tips from some of the NBA's biggest stars, this is a book that will give both players and coaches at all levels proper direction on how to improve shooting technique.

HoopCasters 6-Week Youth Basketball Training Journal Using Productive Struggle with Proper Shooting Mechanics and Daily Goals Anthony Reed,2021-11-22 10 years of professional basketball experience and no one taught us the science behind Productive Struggle. This may be the only journal notebook that utilizes this scientific method for 8 to 12-year-old basketball training! Learn the science behind Productive Struggle. Get tips on proper shooting mechanics. Use daily activity logs to record your shooting results. Areas to record personal goals and be accountable. Space to record your thoughts and personal plans of improvement. The Neuroscience Behind Productive It was a basic experiment, yet it altered our perceptions of learning. Two sets of eight-year-olds tossed beanbags at a three-foot-distance target. Half of the students practiced with the same target for the next 12 weeks, when the other half practiced with targets that were two and four feet away. Both groups completed a final test three feet away from the initial target at the conclusion of the experiment. Surprisingly, those who practiced with targets two and four feet away outperformed those who practiced with targets three feet away. Why did the group that never practiced at three feet outperform the group that only practiced from three feet? The additional difficulty caused by productive struggle, it turns out, is the answer. The most successful learning practices for kids may appear to be the least effective at times. Because of a white material called myelin found in children's brains, productive struggle leads to improved shooting. As we apply this method to youth basketball training, our youth are seeing major improvements! Let this be your basketball family's secret weapon.

Evolution of 180 Shooter Brian McCormick,2020-08-14 Brian McCormick's philosophy is an absolute game changer for shooting development. Evolution of 180 Shooter: A 21st Century Guide provides easy to implement ideas to evolve skill development for players and coaches at all levels. - Kenny Atkinson, NBA Head CoachIn 2009, I published 180 Shooter, which described my teaching methodology and drill progressions as a private shooting coach in the prior decade. A few players set NCAA shooting records and became All-Americans, but others struggled, and I examined the cause. I attributed some of their failings to my coaching and workouts, and I quit private coaching. Over the last decade, I worked with teams as a head coach and a consultant. I have coached very good shooters - one finished second nationally in 3-point shooting percentage and another set the college's record for 3FGs - and very good shooting teams: 3rd in 3FG/G (9.7), 6th in 3FG% (37.4%), and 9th in FT% (72.6%). Evolution of 180 Shooter: A 21st Century Guide chronicles the evolution of my thinking over the

last decade and challenges the prevalent shooting dogma. My greatest changes have been to re-define game-like shots and appreciate the environment's role in developing shooters. This is not a technique or drill book; it focuses on our culture of shooting - from our practice, to the extra shots, to the comfort and confidence - which develops shot makers. If you coach basketball at any level, read and study Brian McCormick's writing: It will re-calibrate your view of the game. You will think differently about basketball and how to teach the game to others. - Lindell Singleton, Head Coach: The Game Matters AAU
