The Art of Being Human Michael Wesch,2018-08-07 Anthropology is the study of all humans in all times in all places. But it is so much more than that. Anthropology requires strength, valor, and courage, Nancy Scheper-Hughes noted. Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a heroic profession. What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the first draft edition from 2017 and includes 7 new chapters.

Stupid to the Last Drop William Marsden,2010-05-28 A bestselling investigative journalist takes a tour of the Alberta oil and gas industry, revealing how Canada’s richest province is squandering our chance for a sustainable future. In its desperate search for oil and gas riches, Alberta is destroying itself. As the world teeters on the edge of catastrophic climate change, Alberta plunges ahead with uncontrolled development of its fossil fuels, levelling its northern Boreal forest to get at the oil sands, and carpet-bombing its southern half with tens of thousands of gas wells. In so doing, it is running out of water, destroying its range land, wiping out its forests and wildlife and spewing huge amounts of greenhouse gases into the atmosphere, adding to global warming at a rate that is unrivalled in Canada or almost anywhere else in the world. It’s digging, drilling and blasting its way to oblivion, becoming the ultimate symbol of Canada’s – and the world’s – pathological will to self-destruct. Nowhere has the world seen such colossal environmental destruction as is being wreaked on Alberta. At one point the province even went so far as to consider a scientist’s idea of nuking its underbelly to get at the tar sands. Stupid to the Last Drop looks at the increasingly violent geopolitical forces that are gathering as the world’s gas and oil dwindle and the Age of Oil begins its inevitable slide towards oblivion. As Canadians deplete their energy reserves, selling them off to Americans at bargain-basement prices, no thought is given to conservation or the long-term needs of the nation. In this powerful polemic, William Marsden journeys across the heart of a province seized by the destructive forces of greed, power and the energy business, and envisions a very bleak future.

The Tennessee Theatre Jack Neely,2015 One of the most exuberant move palaces of the South, the Tennesse Theatre is a Jazz Age spectacle, a glimmer of a briefly extravagant era, a bold architectural celebration of an astonishing and suddenly popular new form of art. The motion picture changed the way Americans experienced their world,within its broad region, the Tennesseee became the superlative venue for that experiences. Despite its reputation as the finest, the most expensive, the theater with chandeliers and original art and antiques in its lobby, the Tennessee was also the largest, the busiest, and the most popular...Exclusiveness is one of the Tennessee's most effective illusions. After almost a century, the Tennessee is still obligatory on any trip to Knoxville, one of these sights you have to witness at least at once. Designed with dozens of shapes and countless colors to awe, it is distinct in appearance from every other theater in the world. It's a complex and fascinating artifact. But the Tennessee is also a practical edifice, a modern venue for classical music, opera, rock, jazz, bluegrass, and dozens of other genres that benefit from the old theater's excellent acoutiscs, praised in the national media for the quaility of its sound.
