Terrorist Threats in North Africa from a NATO Perspective János Tomolya,Larry D. White,2015 According to the editors of this book, North Africa has become a hotbed of terrorist activity in recent years, as demonstrated by several events in the region. Subjects covered include the changing nature of North African terrorism; the rise of Al Qaeda in North Africa; financing terrorism in North Africa; the legal framework of military operations against terrorism in North Africa and the relationship between international terrorism and terrorism in North Africa, among others. Also included in the book is the keynote address given by Prof. Yonah Alexander of the Inter-University Center for Terrorism Studies and entitled 'Terrorism in North Africa and the Sahel: Threats and Responses'The book provides insights to further the understanding of terrorism in North Africa, and will be of interest to all those involved in the development of counterterrorism policies to combat this threat.

Dreams That Can Save Your Life Larry Burk,Kathleen O'Keefe-Kanavos,2018-04-17 An exploration of dreams as a spiritual source of healing and inner guidance for your health and well-being • 2018 Nautilus Silver Award • Shares stories--confirmed by pathology reports--from subjects in medical research projects whose dreams diagnosed illness and helped heal their lives • Explores medical studies and ongoing research on the diagnostic power of precognitive dreams, including Dr. Burk's own medical research • Includes an introduction to dream journaling and interpretation techniques Your dreams can provide inner guidance filled with life-saving information. Since ancient Egypt and Greece, people have relied on the art of dreaming to diagnose illness and get answers to personal life challenges. Now, dreams are making a grand reappearance in the medical arena as recent scientific research and medical pathology reports validate the diagnostic abilities of precognitive dreams. Are we stepping back into the future as modern medical tests show dreams can be early warning signs of cancer and other diseases? Showcasing the important role of dreams and their power to detect and heal illness, Dr. Larry Burk and Kathleen O'Keefe-Kanavos share amazing research and true stories of physical and emotional healings triggered by dreams. The authors explore medical studies and ongoing research on the diagnostic power of precognitive dreams, including Dr. Burk's own research on dreams that come true and can be medically validated. They share detailed stories--all confirmed by pathology reports--from subjects in medical research projects whose dreams diagnosed illness and helped heal their lives, including Kathleen's own story as a three-time breast cancer survivor whose dreams diagnosed her cancer even when it was missed by her doctors. Alongside these stories of survival and faith, the authors also include an introduction to dream journaling and interpretation, allowing the reader to develop trust in their dreams as a spiritual source of healing and inner guidance.

The Persians Homa Katouzian,2009 In recent years, Iran has gained attention mostly for negative reasons—its authoritarian religious government, disputed nuclear program, and controversial role in the Middle East—but there is much more to the story of this ancient land than can be gleaned from the news. This authoritative and comprehensive history of Iran, written by Homa Katouzian, an acclaimed expert, covers the entire history of the area from the ancient Persian Empire to today's Iranian state. Writing from an Iranian rather than a European perspective, Katouzian integrates the significant cultural and literary history of Iran with its political and social history. Some of the greatest poets of human history wrote in Persian—among them Rumi, Omar Khayyam, and Saadi—and Katouzian discusses and occasionally quotes their work. In his thoughtful analysis of Iranian society, Katouzian argues that the absolute and arbitrary power traditionally enjoyed by Persian/Iranian rulers has resulted in an unstable society where fear and short-term thinking dominate. A magisterial history, this book also serves as an excellent background to the role of Iran in the contemporary world.
