Understanding Sponsored Search Professor Jim Jansen, 2014-05-14 This book addresses the underlying foundational elements, both theoretical and methodological, of sponsored search. As such, the contents are less affected by the ever-changing

implementation aspects of technology. Rather than focusing on the how, this book examines what causes the how. Why do certain keywords work, while others do not? Why does that ad work well, when others that are similar do not? Why does a key phrase cost a given amount? Why do we measure what we do in keyword advertising? This book speaks to that curiosity to understand why we do what we do in sponsored search. The content flows through the major components of any sponsored search effort, regardless of the underlying technology or client or product. The book addresses keywords, ads, consumers, pricing, competitors, analytics, branding, marketing, and advertising, integrating these separate components into an incorporated whole. The focus is on the critical elements, with ample illustrations, and with enough detail to lead the interested reader to further inquiry.

STRATEGIES 2019 book describes up to date, useful, tested and effective strategies in an easy to understand way. 1. In such an environment, you cannot achieve success by targeting wide audiences and using general marketing messages. To gain their attention, you have to divide your target audience and communicate each segment with the most relevant marketing message. 2. SEARCH ENGINE OPTIMIZATION (SEO) As the competition gets fierce, you have to work more than ever in 2019. This chapter provides detailed information regarding all 5 stages of SEO: Research, Strategy & Keyword Selection, On-site SEO, Infrastructure and Usability, Link Development, and Performance on Search Engine Results Page (SERP). 3. DIGITAL ADSThis chapter focuses on the strategies that will provide the highest conversion in Google Ads (formerly AdWords) and Facebook Ads. You will find detailed information on how to structure your digital ad campaigns and discover effective strategies to achieve success. The chapter provides various examples on text, display and social ad campaigns. 4. SOCIAL MEDIA This chapter focuses on achieving high ROI from social media. Platform-specific success strategies are presented based on Facebook, Instagram, Twitter, YouTube and LinkedIn. 5. EMAIL NEWSLETTERSIn addition to the format, content, timing and frequency of email newsletters, there is a specific section regarding performance analysis. CHECKLISTS AND THE THINGS YOU NEED TO DOTo help you get results, you will find 30-item checklists at the end of each chapter. Using them, you will be able to review the topics that are covered in each chapter. You will also

find a special section at the end of each chapter, focusing on the things you need to do to implement this knowledge in your campaigns after reading this book. This will eliminate the gap between reading the book and taking action, as is the case in many other books.
