📖 📅 2010-07-07 Adventure Abounds When a Toy Comes to Life in This Classic Novel! It's Omri's birthday, but all he gets from his best friend, Patrick, is a little plastic warrior figure. Trying to hide his disappointment, Omri puts his present in a metal cupboard and locks the door with a mysterious skeleton key that once belonged to his great-grandmother. Little does Omri know that by turning the key, he will transform his ordinary plastic toy into a real live man from an altogether different time and place! Omri and the tiny warrior called Little Bear could hardly be more different, yet soon the two forge a very special friendship. Will Omri be able to keep Little Bear without anyone finding out and taking his new friend away?

📖 📅 1999-03 Based on research about after-school experiences and dilemmas conducted over a four-year period with employed parents and their children, this book draws on the stories these parents and children told--often using their actual words--to emphasize the wide variety of children's after-school arrangements, children's movement over time in and out of different arrangements, and the importance to children of multiple facets of their after-school arrangements, not simply the presence or absence of an adult caretaker. The book also emphasizes that children are not randomly assigned to after-school arrangements. Rather, parents and children struggle to reach optimal solutions to what are often difficult child care dilemmas. To understand these dilemmas, and the diverse strategies that families adopt, one must attend to the individual situations of children as family members understand them. This book was written to contribute to the development of new family and work policies and practices by illuminating the difficulties families face and their consequences for children. Written for psychologists, sociologists, and other social scientists who study families, maternal employment, child care, or child development, it will also be useful for parents, educators, community leaders, and public policymakers concerned about the well being of children whose parents are employed.

📖 📅 1991 The policies that make up children's services must be guided by imagination and insight. Mae Benne covers fully the organizational policies and patterns that accompany professional services. Her discussion of purely administrative and organizational matters is comprehensive - one that recognizes client need as motivating organizational possibilities. She translates theory before organizations meet children's needs, children's librarians must recognize them into practice.

📖 📅 2005 A first-class work of reference that will be both an essential resource for independent study as well as a useful aid in teaching: a solid but also provocative starting point for wider exploration of the city.

📖 📅 2013-02-01 Password: Senior Moment is based on Patricia Bunin's weekly Senior Moments column published in the San Gabriel Valley Tribune, Whittier Daily News, Redlands Daily Facts, Pasadena Star-News, San Bernardino Sun, and the Inland Valley Daily Bulletin. The book is a collection of personal vignettes that illustrate how aging adults design and define their lives. The stories within deal with everything from taking care of aging parents to online dating to learning the ins and outs of the Internet.

📖 📅 2018 Balancing biological, psychological, social, and cultural approaches, David Barlow and V. Mark Durand's groundbreaking integrative approach is the most modern, scientifically valid method for studying abnormal psychology. In this seventh edition of their proven Abnormal Psychology: An Integrative Approach, Barlow and Durand successfully blend sophisticated research and an accessible writing style with the most widely recognized method of discussing psychopathology. Going beyond simply describing different schools of thought on psychological disorders, the authors explore the interactions of the various forces that contribute to psychopathology. A conversational writing style, consistent pedagogical elements, integrated case studies (95 percent from the authors' own files), video clips of clients, and additional study tools make this text the most complete learning resource available.
