Classroom 102 Laura Alotaibi,2021-11 About the Book: Welcome to Classroom 102, Miss Hill's math class. Follow two students, Sam and Zeina, as they learn about real world applications of multiplication as well as identifying properties of multiplication, including: identity, zero, commutative, and distributive properties. About the Series Follow students in Miss Hill's class as they learn about all things math. Each book is a new adventure that engages while teaching math concepts in easy to learn steps. The books are perfect for school or home and can be used for: read-alouds, homework, stations, tutoring, substitute plans, small groups, and more! In addition to multiplication subject matter, future Classroom 102 titles will be about: profit and expense, area and perimeter, long division, rounding, decimals, and protractors to name a few. Each book follows both the state of Texas and Common Core curriculum and can easily be incorporated into the classroom. About the Author Laura Alotaibi is a busy mom of three, an entrepreneur, and a former 4th, 5th, and 6th grade classroom teacher. She graduated with an undergraduate education degree from Louisiana State University and her master's degree, in Curriculum and Instruction, from University of Texas at Arlington. Laura currently resides in Dallas and loves to travel, volunteer and spend time with her family. Laura created the series, Classroom 102, out of a need to have additional, focused, relevant resources in her math classroom that aligns with state and federal curriculum. Contact

BIG MATH for Little Kids Kathryn Paulk,2018-02-12 The BIG MATH for Little Kids set of workbooks adds enrichment to a young student's math learning. There are two versions of each workbook - the Solution Manual and the Workbook. The Workbook is the same as the Solution Manual, except most of the answers have been removed. This workbook (Introduction to Numbers ...) is suitable for young children in Pre-K through 2nd grade. The focus is on doing fun activities that help children to understand that numbers represent quantities of things. The worksheets in this book are very plain and simple - they do not have any extraneous pictures or distractions. The following math skills are introduced: Verbally quantifying simple numbers. Verbally adding simple numbers. Writing numbers to represent a quantity. Adding two simple numbers.

Math and Logic Puzzles That Make Kids Think! Jeffrey J. Wanko,2021-09-03 Kids love exploring new ways of solving problems, especially in fun and challenging puzzle formats. In *Math and Logic Puzzles That Make Kids Think!*, the author presents several variations on Sudoku—the most well-known type of logic puzzle—in an easy-to-use, exciting format perfect for any math classroom. These language-independent logic puzzles provide kids with great problems to stretch how they think and reason. Each puzzle variation utilizes some of the basic strategies of Sudoku puzzles, but each one also draws upon other areas of mathematics—ordering of numbers, properties of geometric shapes, basic operations, or enriched number sense. This book provides teachers with puzzles arranged by difficulty level that can be used to support and enhance students' mathematical

investigations. It also provides a new and exciting context for the development of students' deductive reasoning skills, which can lay the foundation for further mathematical exploration.

Math Fables Greg Tang, 2016-05-31 From 1 to 10, these lessons that count are math magic for learning addition and subtraction. Greg Tang has built his career as an author and math missionary on the power of creative problem solving. Now, through winsome fables about concepts that are relevant to the very youngest math learners -- sharing, teamwork, etc. -- Greg encourages kids to see the basics of addition and subtraction in entirely new ways. Fresh, fun, and most of all, inspiring, MATH FABLES is perfect for launching young readers on the road to math success!

Math Is All Around Us Gail Brown Slane, 2012-02-23 Math Is All Around Us is a collection of story problems for students and teachers that can be done independently or in a group setting. They can also be used at home for maintaining math skills. These math story problems deal with many of the traditional topics covered in 5th through 7th grades. Included are: addition, subtraction, multiplication, division, averages, decimals, fractions, measurement, percentages, time, factors, factoring, probability, rate, ratio and math vocabulary. Also included are mixed reviews dealing with such topics as holidays, field trips, and going back to school.

Math Magic for Your Kids Scott Flansburg, 1997-01-15 Learning math can be a difficult task for any child, and for many adults. But learning to work with numbers need not be a dreaded

experience; in fact, it can even be fun! Scott Flansburg, also known as the Human Calculator, can help kids learn how to add, subtract, multiply and divide without the anxiety and frustration which often accompanies learning these skills. Using techniques that make numbers easy to work with and by demonstrating how math is essential to everyday life (contrary to the lament of a great percentage of students), Math Magic for Your Kids can help maximize your child's potential to understand math and enjoy it in the process. Flansburg has helped millions of math phobic adults with his popular lectures and best-selling book, Math Magic. Now he is reaching out to help America's math phobic kids. Math Magic for Your Kids makes it easy, even for those adults who suffer from math anxiety, to help the next generation get a leg up on essential math skills. The book is specifically designed to be combined with various mathematics curricula approved by the National Council of Teachers of Mathematics. Aimed at children aged 5 through 8, it can also benefit younger children who demonstrate a readiness for advanced number concepts and for older children who need reinforcement of basic math skills. For kids who struggle with simple math skills, Flansburg provides activities to build a child's math sense and help reinforce math concepts. Math Magic for Your Kids also contains information and anecdotes that relate math concepts to everyday situations, explains principles that facilitate learning in general, and provides shortcut methods as well as challenging puzzles and riddles to keep kids interested and involved. Games and exercises are designed to be executed independently or with parents' help.

Easy Math for Kids Michelle Green, 2018-01-30 Do you want to be able to help your child understand math better? Would you like a comprehensive book, with a great teaching style that will make math easy for them? We all know that math is one of the most important subjects. It is one of the cornerstones for a successful life and without it children can face difficult challenges as adults.

But finding the right book to help is difficult. This book changes all of that, is all about basic math - numbers, for children up to the age of 7 and comes complete with: All must know word problems, no need for other books More than 300 pages of exercises Fun drawings make learning easy All pages in black and white and can be colored in afterwards Repeat exercises to reinforce lessons Increasing levels of difficulty And more... This book is also excellent as a homeschool resource or for classroom work it will boost confidence in problem-solving. Unlike other books, which are written by experts, this is one that comes from the experience of a mother who was frustrated with the available books on the market and so took matters into her own hands. Having struggled to find something suitable for her own children when they were learning, she has produced something which is suitable for starting with kindergarten children and continuing until they have a firm grasp of basic math. Encouragement and learning from mistakes are all part of the process and with this book your child will have the perfect platform to build confidence with their math. Bonus material This book includes a voucher for a free eBook, having the same exercises, that you can print as many times as you want for all of your kids as they grow.
