A Friend of the Earth T. C. Boyle, 2011-08-01 It's 2025. Tyrone O'Shaughnessy Tierwater is eking out a bleak living in southern California, managing a pop-star's private menagerie, holding some of the last surviving animals in the world. Global warming is a reality. In his youth, Ty had been so serious about environmental issues that as an ecoterrorist committed to Earth Forever! he had endangered the lives of both his daughter, Sierra, and his wife, Andrea. Now, when the past seems far behind him and he is just trying to survive in a world cursed by storm and drought, Andrea returns to his life . . . Frightening, funny, surreal and gripping, in *A FRIEND OF THE EARTH* T.C. Boyle gives us a story that is both a modern morality tale, and a provocative vision of the future.

Trickster Makes This World Lewis Hyde, 2010-08-17 In *Trickster Makes This World*, Lewis Hyde brings to life the playful and disruptive side of human imagination as it is embodied in trickster mythology. He first visits the old stories—Hermes in Greece, Eshu in West Africa, Krishna in India, Coyote in North America, among others—and then holds them up against the lives and work of more recent creators: Picasso, Duchamp, Ginsberg, John Cage, and Frederick Douglass. Twelve years after its first publication, *Trickster Makes This World*—authoritative in its scholarship, loose-limbed in its style—has taken its place among the great works of modern cultural criticism. This new edition includes an introduction by Michael Chabon.

The Phantom Tollbooth Norton Juster, 1988-10-12 With almost 5 million copies sold 60 years after its original publication, generations of readers have now journeyed with Milo to the Lands Beyond in this beloved classic. Enriched by Jules Feiffer's splendid illustrations, the wit, wisdom, and wordplay of Norton Juster's offbeat fantasy are as beguiling as ever. "Comes up bright and new every time I read it . . . it will continue to charm and delight for a very long time yet. And teach us some wisdom, too." --Phillip Pullman For Milo, everything's a bore. When a tollbooth mysteriously appears in his room, he drives through only because he's got nothing better to do. But on the other side, things seem different. Milo visits the Island of Conclusions (you get there by jumping), learns about time from a ticking watchdog named Tock, and even embarks on a quest to rescue Rhyme and Reason. Somewhere along the way, Milo realizes something astonishing. Life is far from dull. In fact, it's exciting beyond his wildest dreams!

The Clay Girl Tucker, Heather, 2016-10-11 A stunning and lyrical debut novel Vincent Appleton smiles at his daughters, raises a gun, and blows off his head. For the Appleton sisters, life had unravelled many times before. This time it explodes. Eight-year-old Harriet, known to all as Ari, is dispatched to Cape Breton and her Aunt Mary, who is purported to eat little girls. But Mary and her partner, Nia, offer an unexpected refuge to Ari and her steadfast companion, Jasper, an imaginary seahorse. Yet the respite does not last, and Ari is torn from her aunts and forced back to her twisted mother and fractured sisters. Her new stepfather, Len, and his family offer hope, but as Ari grows to adore them, she's severed violently from them too, when her mother moves in with the brutal Dick Irwin. Through the sexual revolution and drug culture of the 1960s, Ari struggles with her father's legacy and her mother's addictions, testing limits with substances that numb and men who show her kindness. Ari spins through a chaotic decade of loss and love, the devilish and divine, with wit, tenacity, and the astonishing balance unique to seahorses. *The Clay Girl* is a beautiful tour de force about a child sculpted by kindness, cruelty, and the extraordinary power of imagination, and her families „ the one she's born in to and the one she creates.

Obesity in Childhood and Adolescence Wieland Kiess, Claude Marcus, Martin Wabitsch, 2004-01-01 Obesity in childhood and adolescence has reached epidemic proportions in all industrialized countries around the world. Its impact on individual lives as well as on health economics has to be recognized by physicians and the public alike. Among the most common consequences of obesity in the adolescent are hypertension, dyslipidemia, back pain and psychosocial problems. Therapeutic strategies include psychological and family therapy, lifestyle/behavior modification and nutrition education. The role of regular exercise and exercise programs is emphasized. Surgical procedures and drugs used in adult obesity are still not generally

recommended for obese adolescents. This book aims to increase physicians knowledge and understanding of obesity in childhood and adolescence as well as to further public awareness of the health burden and economic dimension of obesity at a young age. Several chapters deliver insights into the basic understanding of which factors contribute to or prevent the development of overweight and obesity in young people. Other contributions provide tools for the clinician to manage the care of the child and adolescent with overweight/obesity. In addition, knowledge from the latest scientific studies on the molecular biology of obesity is also presented.

The Age of Surveillance Capitalism Shoshana Zuboff, 2019-01-15 The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called surveillance capitalism, and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector.

Vast wealth and power are accumulated in ominous new behavioral futures markets, where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new means of behavioral modification. The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a Big Other operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled hive of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

The Tao of Raven Ernestine Hayes, 2017-05-01 In her first book, *Blonde Indian*, Ernestine Hayes powerfully recounted the story of returning to Juneau and to her Tlingit home after many years of wandering. *The Tao of Raven* takes up the next and, in some ways, less explored question: once the exile returns, then what? Using the story of Raven and the Box of Daylight (and relating it to Sun Tzu's equally timeless *Art of War*) to deepen her narration and reflection, Hayes expresses an ongoing frustration and anger at the obstacles and prejudices still facing Alaska Natives in their own land, but also recounts her own story of attending and completing college in her fifties and becoming a professor and a writer. Hayes lyrically weaves together strands of memoir, contemplation, and fiction to articulate an Indigenous worldview in which all things are connected, in which intergenerational trauma creates many hardships but transformation is still possible. Now a grandmother and thinking very much of the generations who will come after her, Hayes speaks for herself but also has powerful things to say about the resilience and complications of her Native community.
