Leo van Bergen

Stop the Killing Train Michael Albert,1994 This book does not simply say no to the killing train. It says yes to justice and liberation, offering detailed glimpses of what society could be like and strategic advice for how to get there.

Before My Helpless Sight Leo van Bergen,2016-04-15 Despite the numerous vicious conflicts that scarred the twentieth century, the horrors of the Western Front continue to exercise a particularly strong hold on the modern imagination. The unprecedented scale and mechanization of the war changed forever the way suffering and dying were perceived and challenged notions of what the nations could reasonably expect of their military. Examining experiences of the Western Front, this book looks at the life of a soldier from the moment he marched into battle until he was buried. In five chapters - Battle, Body, Mind, Aid, Death - it describes and analyzes the physical and mental hardship of the men who fought on a front that stretched from the Belgian coast to the Swiss border. Beginning with a broad description of the war it then analyzes the medical aid the Tommies, Bonhommes and Frontschweine received - or all too often did not receive - revealing how this aid was often given for military and political rather than humanitarian reasons (getting the men back to the front or munitions factory and trying to spare the state as many war-pensions as possible). It concludes with a chapter on the many ways death presented itself on or around the battlefield, and sets out in detail the problems that arise when more people are killed than can possibly be buried properly. In contrast to most books in the field this study does not focus on one single issue - such as venereal disease, plastic surgery, shell-shock or the military medical service - but takes a broad view on wounds and illnesses across both sides of the conflict. Drawing on British, French, German, Belgian and Dutch sources it shows the consequences of modern warfare on the human individuals caught up in it, and the way it influences our thinking on 'humanitarian' activities.

Killing for Land in Early California Frank H. Baumgardner,2005 This is a history of the clash between the White settlers and the Native Americans in what is now an affluent county in California. The frontier wars gave land and gold to Whites and reservations to the Native Americans. Eyewitness accounts and extensive research show the conflicting roles played by the Army, State Legislature and the US Congress--Provided by publisher.

Killing Cockroaches Tony Morgan,2009 Church pastor and popular blogger Morgan offers up 142 delightfully offbeat, always on-target stories and strategies about effective church leadership. *When Women Kill* Belinda Morrissey,2003 Based on case studies from the US, UK and Australia, this book looks at the ways in which female killers are constructed in the media, in law and in feminist discourse almost invariably as victims rather than actors in the crimes they commit.

Must-Win Battles Peter Killing,Thomas Malnight,Tracey Keys,2006-03-11 Must-Win Battles shows leaders exactly how to identify the 3 to 5 critical challenges most likely to make or break their businesses -- and then mobilize people and resources to successfully execute on them. This book draws on the authors' exceptional experience as world-class consultants and leading-edge business researchers, and builds on the highly successful executive program they created for IMD, one of the world's best business schools. The authors show leaders how to cut through uncoordinated initiatives, create a short list of true must-wins, focus relentlessly on them, and infuse their organizations with renewed energy and effectiveness. Along the way, discover how to recognize which victories will make the greatest difference, avoid unwinnable battles, drive consensus when somebody's ox is inevitably being gored, make sure must-win battles are specific and measurable, and change the behavior of your top management team to lock in this laser-sharp focus for future battles.

Shared Madness - True Stories of Couples Who Kill Christopher Berry-Dee,2010-03-01 Such unfortunate unions have been behind some of the most shocking news stories of recent years. But what is it that makes couples like Myra Hindley and Ian Brady follow such a twisted path of sociopathic violence? In this, the first in-depth study of cases of the condition known as folie a deux (shared madness), bestselling crime author Christopher Berry-Dee invites the reader to look these 'killers couples' right in the eye. He offers a rare, if uncomfortable, insight into the truth behind the headlines and exposes some of the most cold-blooded killers that the world has ever seen.Included are some well-known cases, including the sickening murders committed by Fred and Rose West at their very own house of horror, 25 Cromwell Street. Other cases are more obscure, but equally fascinating: such as the story of Cynthia Coffman and James Gregory Marlow whose relationship led to three brutal murders. Every one of the 22 cases of shared madness is a uniquely revealing study, making Shared Madness a must-read for anyone with an interest in true crime and criminal psychology.
