Lifelong Kindergarten Mitchel Resnick, 2018-08-28 How lessons from kindergarten can help everyone develop the creative thinking skills needed to thrive in today's society. In kindergartens these days, children spend more time with math worksheets and phonics flashcards than building blocks and finger paint. Kindergarten is becoming more like the rest of school. In *Lifelong Kindergarten*, learning expert Mitchel Resnick argues for exactly the opposite: the rest of school (even the rest of life) should be more like kindergarten. To thrive in today's fast-changing world, people of all ages must learn to think and act creatively—and the best way to do that is by focusing more on imagining, creating, playing, sharing, and reflecting, just as children do in traditional kindergartens. Drawing on experiences from more than thirty years at MIT's Media Lab, Resnick discusses new technologies and strategies for engaging young people in creative learning experiences. He tells stories of how children are programming their own games, stories, and inventions (for example, a diary security system, created by a twelve-year-old girl), and collaborating through remixing, crowdsourcing, and large-scale group projects (such as a Halloween-themed game called *Night at Dreary Castle*, produced by more than twenty kids scattered around the world). By providing young people with opportunities to work on projects, based on their passions, in collaboration with peers, in a playful spirit, we can help them prepare for a world where creative thinking is more important than ever before.

Miss Bindergarten Gets Ready for Kindergarten Joseph Slate,2001-07-09 This rhyming, brightly illustrated book is the perfect way to practice the alphabet and to introduce young children to kindergarten. It's the first day of kindergarten and Miss Bindergarten is hard at work getting the classroom ready for her twenty-six new students. Meanwhile, Adam Krupp wakes up, Brenda Heath brushes her teeth, and Christopher Beaker finds his sneaker. Miss Bindergarten puts the finishing touches on the room just in time, and the students arrive. Now the fun can begin! The Literate Kindergarten Susan L. Kempton,2007 This very important book reaffirms the beauty and uniqueness of children's developing minds and the power that is unleashed when their imaginations are nurtured. -Susan Zimmermann Kindergarten has changed, and not necessarily for the better. Once a joyful time when children grow into school gradually, today it often resembles a watered-down first grade, where academic pressures squelch creativity and play. The Literate

Kindergarten shows how carefully balancing academics with song, movement, talk, and play creates an environment where every child can grow and learn. Sue Kempton is a master teacher, and in *The Literate Kindergarten*, she shares the thinking, the structures, even the precise language she uses to help young children become motivated, engaged, and joyful learners. Kempton guides you through the three domains of learning on which she bases her lessons and actions: the cognitive, creative, and emotional. With this framework in mind, Kempton offers clues to interpreting children's talk and body language so that you know which domain they are engaged in, as well as specific questions and phrases that draw out their thinking and make learning visible. From there, *The Literate Kindergarten* offers effective suggestions for: establishing routines and creating cooperation developing oral language modeling the language of thinking teaching across content areas supporting students as they become socialized to school recognizing the vital importance of integrating music, movement, and play familiarizing children with concepts of print, comprehension strategies, and other important literacy habits. Discover thoughtful ways to create a safe, nurturing, predictable learning space for children, where their thoughts and feelings are encouraged. Read *The Literate Kindergarten* and discover a comprehensive resource that can bring joy and serious learning to your classroom.

The day will be jam-packed, but he's up to the challenge, taking new experiences in stride with his infectious enthusiasm!
