*Ben-Gurion Against the Knesset* Giora Goldberg, 2004-02-19 The power struggle between Ben-Gurion and the Knesset was not primarily concerned with who should hold the reins of power, but with the ideals that should lie behind government. Ben-Gurion did not think that the Knesset had the moral backbone required at a historic turning-point in Israeli history, when the character of the nation was being developed; although he conceded that it was capable of dealing with the more mundane administrative tasks. He therefore denied the Knesset the right to take part in the policy-making process, caused a decline in the support of the elite and the general public, encouraged partisanship, and endeavored to reduce competitiveness. Ben-Gurion was so dismissive of the Knesset and its members, that he would not even attend parties at which Knesset members were being given awards.

*Language Contact and Lexical Enrichment in Israeli Hebrew* G. Zuckermann, 2003-11-04 Israeli Hebrew is a spoken language, 'reinvented' over the last century. It has responded to the new social and technological demands of globalization with a vigorously developing multisourced lexicon, enriched by foreign language contact. In this detailed and rigorous study, the author provides a principled classification of neologisms, their semantic fields and the roles of source languages, along with a sociolinguistic study of the attitudes of 'purists' and ordinary

native speakers in the tension between linguistic creativity and the preservation of a distinct language identity.
