Microbial Growth on C1 Compounds H.W. Verseveld,J.A. Duine,2012-12-06 The 5th International Symposium on Microbial Growth on C Compounds was held at the Biological 1 Center of the University of Groningen, Haren, The Netherlands, 11-16 August 1986. The meeting attracted well over 200 participants from 15 countries. This volume contains the formal presentations made at that time, which, because of the breadth of topics covered, were divided into seven sections of related papers. This meeting, under the chairmanship of Wim Harder, was both scientifically and socially very successful. This success cannot only be credited to the main presentations, but also to the well cared for 121 poster presentations, whereof the abstracts have been published separately. The series of Symposia will be continued in 1989, in the Federal Republic of Germany. We wish to acknowledge the invaluable help of Joke Daniels, Roberta Stroer-Schneider, Karin Uyldert, Hansje Bartelson and Josine van Verseveld-Stroer, who retyped the manuscripts resulting in a uniform presentation of these proceedings.

Cancer Chemoprevention Raymond C. Bergan,2012-10-24 This volume offers a broad overview of topics related to cancer chemoprevention. It provides a review of topics ranging from basic research arenas to clinical trial design, implementation, and interpretation. It covers all key areas necessary for understanding the field of cancer chemoprevention for the interested reader, for individuals wishing to enter this area of investigation, and for individuals seeking guidance in particular areas of research, relating to agent identification, basic science investigations and clinical trials. The genesis of this book is based on the fact that cancer chemoprevention is a relatively new and rapidly evolving field spanning a wide array of disciplines, and forces researchers to address difficult and complex questions whose answers are not readily available. Cancer Chemoprevention provides a ready resource whose importance and intent lie in its ability to gather and solidify disparate data to explicitly outline areas of difficulty and to highlight future areas of important development. It provides broad outlines for current, ongoing and future directions in this area with various target organ sites, written by experts in their respective fields, whose primary research focuses upon that individual field.

Developments in Psychiatry in India Savita Malhotra,Subho Chakrabarti,2015-02-02 The volume evaluates major developments in psychiatry in India from the 1950s, and highlights the areas where Indian psychiatry has contributed to the development of the subject worldwide. The chapters review international as well as Indian developments in psychiatry and its sub-specialities. A wide range of clinical, research and policy-related topics have been covered in the volume, which begins with an overview of the history of psychiatry in India, moving on to developments in various sub-specialities of psychiatry in the last 60 years or so. It then specifically discusses developments in psychology and psychodynamics, general adult and child psychiatry, substance use psychiatry, community psychiatry, liaison psychiatry, and other psychiatric sub-specialities. Developments in treatment, the status of training and service in psychiatry and legal issues related to the practice of psychiatry in India are also included. The contributors to this volume are nationally and internationally recognized experts in different areas of psychiatry. Most of them have had some association, or are currently associated, with the Department of Psychiatry at the Post Graduate Institute of Medical Education and Research, Chandigarh, India.
