The New Natural History of Madagascar Steven M.
Goodman,2022-11-15 A marvelously illustrated reference
to the natural wonders of one of the most spectacular
places on earth Separated from Africa's mainland for tens
of millions of years, Madagascar has evolved a
breathtaking wealth of biodiversity, becoming home to
thousands of species found nowhere else on the planet. The
New Natural History of Madagascar provides the most
comprehensive, up-to-date synthesis available of this island
nation's priceless biological treasures. Now fully revised
and expanded, this beautifully illustrated compendium
features contributions by more than 600 globally renowned
experts who cover the history of scientific exploration in
Madagascar, as well as the island's geology and soils,
climate, forest ecology, human ecology, marine and coastal
ecosystems, plants, invertebrates, fishes, amphibians,
reptiles, birds, and mammals. This invaluable two-volume

reference also includes detailed discussions of conservation efforts in Madagascar that showcase several successful protected area programs that can serve as models for threatened ecosystems throughout the world. Provides the most comprehensive overview of Madagascar's rich natural history Coedited by 18 different specialists Features hundreds of new contributions by world-class experts Includes hundreds of new illustrations Covers a broad array of topics, from geology and climate to animals, plants, and marine life Sheds light on newly discovered species and draws on the latest science An essential resource for anyone interested in Madagascar or tropical ecosystems in general, from biologists and conservationists to ecotourists and armchair naturalists

The Acts of Welsh Rulers, 1120-1283 Huw

Pryce,2010-10-15 Now republished with minor corrections, this volume provides the first comprehensive collection of charters, letters and other documents issued by native rulers of Wales from the early twelfth century to the Edwardian conquest of 1282-3 that extinguished independent rule. It thereby makes more accessible than ever before a key body of source material for the study of medieval Wales during 'the age of the princes' - an era of struggles for power by native rulers both among themselves and with Marcher lords and the English crown. The edition contains 618 documents, of which 444 survive as texts, while the remaining 174 are known only from

mentions in other sources. The texts, almost all in Latin, are edited to modern scholarly standards and provided with full English summaries as well as notes on individual points of detail such as persons and places mentioned. Coverage is intentionally broad. The term 'ruler' has been applied to members not only of the dominant dynasties of Deheubarth, Powys and, above all, Gwynedd but also of minor dynasties such as those of Arwystli or Senghennydd; and, in a world where political power was often contested and fragmented, to individuals within each dynasty who exercised some measure of authority, however limited geographically or temporally. Likewise, the edition includes all known documents issued as expressions of a ruler's will, including petitions and records of judgements as well as charters, letters patent and correspondence with other rulers, notably kings of England but also kings of France, popes and other churchmen. In addition, agreements with the English crown and other third parties are published irrespective of whether they survive in ratifications issued by the Welsh ruler concerned.
