Students at Risk of School Failure José Jesús Gázquez, José Carlos Núñez, 2018-10-18 The main objective of this Research Topic is to determine the conditions that place students at risk of school failure, identifying student and context variables. In spite of the fact that there is currently little doubt about how one learns and how to teach, in some countries of the "developed world," there is still there is a high rate of school failure. Although the term "school failure" is a very complex construct, insofar as its causes, consequences, and development, from the field of educational psychology, the construct "student engagement" has recently gained special interest in an attempt to deal with the serious problem of school failure. School engagement builds on the anatomy of the students' involvement in school and describes their feelings, behaviors, and thoughts about their school experiences. So, engagement is an important component of students' school experience, with a close relationship to achievement and school failure. Children who self-set academic goals, attend school regularly and on time, behave well in class, complete their homework, and study at home are likely to interact adequately with the school social and physical environments and perform well in school. In contrast, children who miss school are more likely to display disruptive behaviors in class, miss homework frequently, exhibit violent behaviors on the playground, fail subjects, be retained and, if the behaviors persist, quit school. Moreover, engagement should also be considered as an important school outcome, eliciting more or less supportive reactions from educators. For example, children who display school-engaged behaviors are likely to receive motivational and instructional support from their teachers. The opposite may also be true. But what makes student engage more or less? The relevant literature indicates that personal variables (e.g., sensory, motor, neurodevelopmental, cognitive, motivational, emotional, behavior problems, learning difficulties, addictions), social and/or cultural variables (e.g., negative family conditions, child abuse, cultural deprivation, ethnic conditions, immigration), or school variables (e.g., coexistence at school, bullying, cyberbullying) may concurrently hinder engagement, preventing the student from acquiring the learnings in the same conditions as the rest of the classmates.

The 10 Principles of Wealth for Black People and Other Folks Too! Al Perkins,2004-09 A story told: From the streets of one of the toughest places in America to the halls of the Pentagon, and Wall Street, a story of one man's journey to wealth. Along the way the author learned life lessons and powerful principles that took him from rags to riches. A riveting insight into how people like Thomas Edison, Nelson Mandela, Anthony Robins, Bill Gates, P. Diddy, T.D. Jakes, and Oprah Winfrey all have drawn upon Universal Wealth Principles to overcome obstacles taking them to amazing heights of success and unmatched wealth. The author tells how he used these same principles to achieve wealth, and happiness. In less than one year he acquired 46 single family homes. Working with these principles he landed millions of dollars in contracts, partnered with Fortune 100 companies, and founded several businesses. Most importantly, he gives easy steps that you can follow to achieve the same results. The book is an easy read and provides techniques that are simple to learn and provide results - fast! Before reading the book, you're asked to check your stuff at the door. Your age, race, religion, creed, sex, color, and economic status aren't important here. Anyone can use The Principles to take them where they want to go. So can you. It doesn't matter, if you make \$1.50 an hour or \$1,000,000 plus a year, these principles apply. The 10 Principles of Wealth for Black Folks and Other People Too! - Gives time tested techniques on how to make money, save money, invest money, overcome fear, and get what you really want. - Gives two very special gifts that we all possess, yet rarely use. - Shows how success leaves

clues. They're all around. Find them, and you unlock the doors to riches and happiness. - Gives a compelling alternative for change within the minority community or any community. - Takes an insightful look at the debate within the Black Community spearheaded by Bill Cosby over education, personal and community responsibility. - Challenges the prevalent thought within the community to grow up and get an education, and then a good job, and asks is that enough. - Provides clear steps and an action plan to get what you really want and desire. - Challenges you to find your life's purpose. - Shows you how to give great value so that in return you can receive great value. - Shows you how much money you really have left in Life's Bank. The 10 Principles of Wealth are simple. You can use them to immediately turn your situation around. If you are sick and tired of being sick and tired because you can't make this month's car payment or your bills are stacking up like Mount Everest, keep reading. People with money have used these rules and techniques virtually throughout time to create wealth, passing it on for generations. You can do the same - not someday - but today. The book goes far beyond, just how to make money. Here's the author's take on: Reverend Al Sharpton Armstrong On the media On Justice Clarence Thomas Reverend T. D. Jakes On people of the cloth On love, faith, and sex On prayer About trying, Bill Cosby, Johnny Cochran, Bill Gates, Warren Buffet, Frederick Price, and Aretha Franklin don't try Is it luck or just a coincidence that these folks don't try - they just are? Could it be that by either design or accident they've found out why they're here? On Wynton Marsalis On Magic Johnson and Earl Graves On P.Diddy On building a better place Find out three reasons why people like Denzel Washington, Montel Williams, Bryant Gumble, Mike Wilborn, Judge Glenda Hatchett, Angela Bassett, Tom Joiner, Hank Aaron, Maya Angelou and many others make it to the top. The 10 Principles of Wealth for Black Folks and Other People Too! is powerful. It's packed with clear illustrations and examples on how to make money and create wealth. But it's much more than a book about making money, it's a wake-up call to the community and it speaks directly to your soul.

Multilingual Routes in Translation Maria Sidiropoulou, Tatiana Borisova, 2022-04-07 This book tackles the interface between translation and pragmatics. It comprises case studies in English, Greek, Russian and Chinese translation practice, which highlight the potential of translation to interact with pragmatics and reshape meaning making in a target language in various pragmatically relevant ways. Fiction and non-fiction genres merge to suggest a rich inventory of interlingual transfer instances which can broaden our perception of what may be shifting in translation transfer. Authors use an emic approach (in addition to an etic one) to confirm results which they often present graphically. The book has a didactic perspective in that it shows how pragmatic awareness can regulate translator behaviour and is also useful in foreign language teaching, because it shows how important implicit knowledge can be, in shaping the message in a foreign language.
