International Financial Statistics, January 2007 International
Monetary Fund. Statistics Dept., 2007-01-05 International Financial
Statistics provides a complete library of continuously updated
international statistics on all aspects of international and domestic
finance. The monthly print edition contains over 1,000 pages of
statistical data in each issue. It reports, for most countries of the
world, current data needed in the analysis of problems of
international payments and of inflation and deflation, i.e., data on
exchange rates, international liquidity, money and banking, interest
rates, prices, production, international transactions, government

accounts, and national accounts. Information is presented in country tables and in tables of area and world aggregates.
