Izaryle's Will Levi Samuel,2018-08-01 It's not always the good guys who defeat evil! An ancient evil has awoken, unleashing a long-forgotten darkness upon the world. After a mysterious storm, Gareth returns home to find his family slaughtered. In his grief, he vows to destroy the foul creatures responsible. Gathering a band of misfits, they embark on a quest that will forever change their lives. A found relic calls to the wicked Dreualfar, the very creatures Gareth swore to destroy. But genocide is no easy feat, and the Dreualfar will stop at nothing to free their dark patron. Can Gareth and his mercenaries serve as the last defenders of a doomed land—or will they perish in the battle at their doorstep? Find out in *Izaryle's Will*, the epic first installment of the *Heroes of Order* trilogy!

Izaryle's Prison Levi Samuel,2018-08-15 The greatest victories do not come without sacrifice! War has ravaged the land. Powers shift. Corruption seeps into the hearts of men, while others are freed from its curse. But salvation is no easy task and the forces of darkness do not forgive easily. Deep in the bowels of Dalmoura a doorway is open. The one path into the prison realm is vulnerable. It's only a matter of time until the dark god discovers it. Can the Dreuslayers find the prison in time to stop Izaryle from escaping—or will they succumb to the darkness within themselves? Find out in *Izaryle's Prison*, the thrilling second installment of the *Heroes of Order* trilogy!

Lord of Druemarwin Helen C. Johannes,2019-12-18 Lady Raell can fight, ride, and argue politics as well as her brothers. Only being mistress of her father's household keeps her in skirts. In Naed, the new Lord of Druemarwin, she has found devotion, a kindred spirit, and a marriage promise. But when a forgotten and unwanted betrothal comes to light, she has no choice but to run. Amidst sweeping revolution, Naed must rally his people, fend off assassination attempts, and fight against claims he's a traitor. Then he discovers everything about his lineage and family is a lie. And his beloved belongs to another. With lives and a kingdom at stake, Raell and Naed must find a way to protect the innocent and save their love.

Jupiter Laughs Edmund Cooper,2011-09-29 What happened on Judgement Day? Do we have Martian ancestors? Will we blow up the world? In this collection of his best SF stories, Edmund Cooper gives his own inimitably entertaining answers to these and other such intriguing questions. From *The Death Watch* to *The Brain Child*, Cooper 'considers possible scenarios'. Sometimes he is serious, sometimes satirical. Sometimes he is uncomfortably close to the truth.

The Human Society and the Internet: Internet Related Socio-Economic Issues Won Kim,Tok-Wang Ling,Yoon-Joon Lee,Seung-Soo Park,2003-06-29 During the past several years, the world has entered the first phase of the Internet Revolution. Investors showed confidence and faith in the prospects of the Internet driven economy. In the US alone, some 30,000 dot com companies have sprung up to support electronic commerce with a wide variety of business models, technologies, and/or items or services to sell or even give away. Traditional businesses, so called brick and mortar, or offline, businesses, have started to respond to challenges by Internet based new competitors by augmenting their own businesses with Internet based, or online, businesses and/or filing lawsuits against them. The initial business to consumer orientation of electronic commerce is giving way to business to business commerce, with large corporations forming electronic exchanges or consortia to conduct commerce among members. Government, industry, and civic groups have started addressing social issues related to the Internet, such as taxation on electronic commerce, privacy, intellectual property rights, security, hacking, cyber crimes, digital divide, etc. Governments have started legitimizing electronic signatures and stepping up efforts to track down perpetrators of cyber crimes. The courts have started to wrestle with issues of privacy, intellectual property rights, crimes, and impediments to Internet driven economy.

Foundations of Quantization for Probability Distributions Siegfried Graf,Harald Luschgy,2000-05-16 Due to the rapidly increasing need for methods of data compression, quantization has become a flourishing field in signal and image processing and information theory. The same techniques are also used in statistics (cluster analysis), pattern recognition, and operations research (optimal location of service centers). The book gives the first mathematically rigorous account of the fundamental theory underlying these applications. The emphasis is on the asymptotics of quantization errors for absolutely continuous and special classes of singular probabilities (surface measures, self-similar measures) presenting some new results for the first time. Written for researchers and graduate students in probability theory the monograph is of potential interest to all people working in the disciplines mentioned above.

Not of This World Tracy St. John,2018-02-01 He was her savior, but she was his salvation. Jeannie Gardner escapes from her captors' clutches only to find herself trapped on a planet far from Earth. When she is discovered by a muscle-bound warrior, she must prove to him, and the Council of Elders, that she is not a creature set free from a lab, but a sentient being from another planet. If she succeeds, they will send her home. If she fails, she will be executed. Risnar warrior Kren Bolep is duty bound to protect his village from the Monsuda and their creations. But this small pink-skinned female is different, special. As the bond between them grows, Jeannie's vulnerability invokes Kren's protective instincts, and he vows to uncover the truth and secure her future. But there is a bigger threat looming. The Monsuda are coming to get Jeannie, and they'll use whatever means necessary. When Jeannie is taken, Kren is forced to choose—disobey the Elders and place his people in danger, or lose the only person who makes him feel whole. This book is approximately 86,000 words Carina Press acknowledges the editorial services of Alissa Davis

Tocharian and Indo-European Studies vol.14 Jens Elmegård Rasmussen,Michaël Peyrot,Georges-Jean Pinault,Thomas Olander,2013-10-14 *Tocharian and Indo-European Studies* (TIES) publishes central topics on the two closely related languages Tocharian A and B, attested in Central Asian Buddhist manuscripts dating from the second half of the

first millennium AD. It focuses on philological and linguistic aspects of Tocharian, and its relation with the other Indo-European languages

A Dictionary of Tocharian B. Douglas Q. Adams, 2013 The second edition of A Dictionary of Tocharian B includes substantially all Tocharian B words found in regularly published texts, as well as all those of the London and Paris collections published digitally (digital publication of the Paris collection is still incomplete), and a substantial number of the Berlin collection published digitally. The number of entries is more than twenty per cent greater than in the first edition. The overall approach is decidedly philological. All words except proper names are provided with example contexts. Each word is given in all its various attested morphological forms, in its variant spellings, and discussed semantically, syntactically (where appropriate), and etymologically. New to the second edition is the assignment, where possible, of the examples of the word's use to their exact chronological period (Archaic, Early, Classical, Late/Colloquial). This dating provides the beginning of the study of the Tocharian B vocabulary on a historical basis. Included are also a reverse English-Tocharian B index and, another innovation to this edition, a general index verborum of Indo-European cognates.

Исследования по этимологии и семантике. Том 2. Индоевропейские языки и индоевропеистика. Книга 2 Владимир Топоров, 2022-05-15 В настоящий том вошли работы по индоевропеистике и индоиранским языкам. Как и в предыдущих томах, объединяющей идеей исследования являются реконструкция и семантика, т. е. определение смысловой мотивации анализируемого слова. На основе анализа древнейших пластов индоевропейского праязыка и конкретных индо-иранских языков делаются широкие обобщения, относящиеся к ментальности носителей этих языков и процессам порождения смыслов и их эволюции в более поздние эпохи. Книга рассчитана на специалистов в области индоевропейских языков, типологии, культурной антропологии, мифологии и ритуала.
