The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Blood in the Streets Austin Fisher,2019-02-20 Blood in the Streets investigates the various ways in which 1970s Italian crime films were embedded in their immediate cultural and political contexts. The book analyses the emergence, proliferation and distribution of a range of popular film cycles (or filoni) - from conspiracy thrillers and vigilante films, to mafia and serial killer narratives - and examines what these reveal about their time and place. With industrial conditions geared around rapid production schedules and concentrated release patterns, the engagement in these films with both the contemporary political turmoil of 1970s Italy and the traumas of the nation's recent past offers a range of fascinating insights into the wider anxieties of this decade concerning the Second World War and its ongoing political aftermath.

Mafia Life Federico Varese,2018-03-07 We see mafias as vast, powerful organizations, harvesting billions of dollars across the globe and wrapping their tentacles around everything from governance to finance. But is this the truth? Traveling from mafia initiation ceremonies in far-flung Russian cities to elite gambling clubs in downtown Macau, Federico Varese sets off in search of answers. Using wiretapped conversations, interviews, and previously unpublished police records, he builds up a picture of the real men and women caught up in mafia life, showing their loves and fears, ambitions and disappointments, as well as their crimes. Mafia Life takes us into the real world of organized crime, where henchmen worry about bad managers and have high blood pressure, assassinations are bungled as often as they come off, and increasing pressure from law enforcement means that a life of crime is no longer lived in the lap of luxury. As our world changes, so must mafias. Globalization, migration, and technology are disrupting their traditions and threatening their revenue streams, and the Mafiosi must evolve or die. Mafia Life is an intense and totally compelling look at these organizations and the daily life of their members, as they get to grips with the modern world.

The Killing Hands P.D. Martin,2009-11-01 Just as Aussie FBI profiler Sophie Anderson is settling into her job in the L.A. bureau, she's pulled into a case that's different from anything she's ever seen—the victim has had his throat ripped out. But what weapon could have caused such devastating injuries? And who is the John Doe? Sophie and her team are dealing with a skilled killer, someone who leaves virtually no forensic evidence. When the team links the body to an Asian criminal organization, things get even more mysterious. The victim has been missing for fifteen years, so where has he been and why has he returned? More important, who wanted him dead? As L.A.'s underworld rears its ugly head, Sophie will have to draw on her experience and her developing psychic skills to find a brilliant killer who's carved a trail of death in organized crime across the U.S. He leaves only one thing behind him—horrific murder scenes.

The Executioner's Men George W. Grayson,2017-09-08 Los Zetas represent a new generation of ruthless, sadistic pragmatists in Mexico and Central America who are impelling a tectonic shift among drug trafficking organizations in the Americas. Mexico's marines have taken down the cartel's top leaders; nevertheless, these capos and their desperados have forever altered how criminal business is conducted in the Western Hemisphere. This narrative brings an unprecedented level of detail in describing how Los Zetas became Mexico's most diabolical criminal organization before suffering severe losses. In their heyday, Los Zetas controlled networks of American police, politicians, judges, and businessmen. The Mexican government is losing its war on drugs, despite the military, technical, and intelligence resources provided by its northern neighbor. Subcontracted street gangs operate in hundreds of US cities, purchasing weapons, delivering product, executing targeted foes, and bribing the US Border Patrol. Despite crippling losses Los Zetas still dominate Nuevo Laredo, the major portal for legal and illegal bilateral commerce. They also work hand-in-glove with the underworld in Guatemala, El Salvador, and Honduras, as well as with gangs like the Maras Salvatruchas.

Syntactic Aspects of Topic and Comment André Meinunger,2000-01-01 The book focuses on the syntactic behavior of argument noun phrases depending on their discourse status. The main language of consideration is German, but it is shown that the observations can be carried over to other languages. The claim is that discourse-new arguments remain inside the VP where they are base generated. The hierarchy of argument projection is claimed to be fix within and across languages. With the major attention to direct objects it is then argued that discourse-old, here called topical noun phrases undergo raising to agreement projections. This movement can be realized differently: scrambling, object agreement, clitic-doubling, differences in morphological case and stress pattern turn out to be analyzable as one underlying phenomenon. It is furthermore shown that many so-called subject:object asymmetries boil down to topic:non-topic differences, for example with respect to extraction. Thus, irrespectively of the argumental status discourse-new constituents do not act as barriers whereas topical arguments create (weak) islands.
