Don't Mind If I Do George Hamilton,William Stadiem,2008-10-14 Spend a few hours with George Hamilton? Don't Mind If I Do Don't let that tanned, handsome, charming surface fool you. Beneath the bronzed façade is a mischievous mind with a wicked wit. George Hamilton doesn't miss a thing. With a front row seat for classic Hollywood's biggest secrets and scandals, George has the intelligence, heart, and unflappable spirit to tell his story, and the story of Tinseltown's heyday, with great good humor and delicious candor -- as only he can. From Where the Boys Are to Dancing with the Stars; from Mary Pickford to Elizabeth Taylor; from smalltown Arkansas to the capitals of Europe -- it's all here, and George has lived to tell and to laugh about it. As the child of a Dartmouth-educated bandleader father and a glamorous Southern debutante mother whose marriage crumbled early on, George had a childhood filled with misadventures and challenges that his mother always seemed able to turn from tragedy to comedy. Her idea of changing the family's fortunes involved a trip cross-country with three sons and a poodle in a Lincoln Continental, making stops along the way to search for husband/father number three. And she was quick to recognize that George's potential success lay in Hollywood. George starved nobly for his art in the late 1950s, but was soon starring in major motion pictures directed by the likes of Vincente Minnelli and Louis Malle. He has forgotten more about Hollywood than most movie experts will ever know and shares intimate and hugely entertaining stories of his friendships with Cary Grant; Brigitte Bardot; Robert Mitchum; Merle Oberon; Mae West; Sammy Davis, Jr.; and Judy Garland -- not to mention Lyndon B. Johnson and Elvis's Colonel Tom Parker as well as the King himself -- among others. The world is Hamilton's oyster, and this ultimate insider is ready to share it with us. So fasten your seat belt. We'll tell you when it's safe to move about the cabin again.

Cigar Aficionado Marvin R. Shanken,1997-06 This primer includes information on tobacco production, cigar etiquette, humidor maintenance, and which drinks best complement a fine smoke. Feminists Say the Darndest Things Mike S. Adams,2007 In this book, Adams lampooned liberals, campus radicalism and the academic left. At the outset of his second jaunt across the campus, the highly opinionated professor of criminal justice at the University of North Carolina-Wilmington explains his reason for targeting feminists: I want to find out why they hate us. Unleashing salvos of sarcasm, he collects his correspondence addressed to feminist students, professors, activists and administrators, including some letters never mailed (probably for the best). Claiming that feminist scholar is an oxymoron, Adams asserts that feminists have no sense of humor, are the biggest censors on college campuses, lack the courage to act as individuals, engage in widespread academic and personal dishonesty and attempt to solve problems by changing society rather than their own behavior.--Publisher's description.

In the Time of the Butterflies Julia Alvarez,2010-01-12 Celebrating its 30th anniversary in 2024, internationally bestselling author and literary icon Julia Alvarez's In the Time of the Butterflies is beautiful, heartbreaking and alive ... a lyrical work of historical fiction based on the story of the Mirabal sisters, revolutionary heroes who had opposed and fought against Trujillo. (Concepción de León, New York Times) Alvarez’s new novel, The Cemetery of Untold Stories, is coming April 2, 2024. Pre-order now! It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo’s dictatorship. It doesn’t have to. Everybody knows of Las Mariposas—the Butterflies. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo’s rule. Through the art and magic of Julia Alvarez’s imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. Alvarez helped blaze the trail for Latina authors to break into the literary mainstream, with novels like In the Time of the Butterflies and How the García Girls Lost Their Accents winning praise from critics and gracing best-seller lists across the Americas.—Francisco Cantú, The New York Times Book Review This Julia Alvarez classic is a must-read for anyone of Latinx descent. —Popsugar.com A gorgeous and sensitive novel . . . A compelling story of courage, patriotism and familial devotion. —People Shimmering . . . Valuable and necessary. —Los Angeles Times A magnificent treasure for all cultures and all time.” —St. Petersburg Times Alvarez does a remarkable job illustrating the ruinous effect the 30-year dictatorship had on the Dominican Republic and the very real human cost it entailed.—Cosmopolitan.com

Homo Deus Yuval Noah Harari,2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon Sapiens, returns with an equally original, compelling, and provocative book, turning his focus toward humanity’s future, and our quest to upgrade humans into gods. Over the past century humankind has

managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

Doing Literary Criticism Tim Gillespie,2010 One of the greatest challenges for English language arts teachers today is the call to engage students in more complex texts. Tim Gillespie, who has taught in public schools for almost four decades, has found the lenses of literary criticism a powerful tool for helping students tackle challenging literary texts. Tim breaks down the dense language of critical theory into clear, lively, and thorough explanations of many schools of critical thought---reader response, biographical, historical, psychological, archetypal, genre based, moral, philosophical, feminist, political, formalist, and postmodern. Doing Literary Criticism gives each theory its own chapter with a brief, teacher-friendly overview and a history of the approach, along with an in-depth discussion of its benefits and limitations. Each chapter also includes ideas for classroom practices and activities. Using stories from his own English classes--from alternative programs to advance placement and everything in between--Tim provides a wealth of specific classroom-tested suggestions for discussion, essay and research paper topics, recommended texts, exam questions, and more. The accompanying CD offers abbreviated overviews of each theory (designed to be used as classroom handouts, examples of student work, collections of quotes to stimulate discussion and writing, an extended history of women writers, and much more. Ultimately, Doing Literary Criticism offers teachers a rich set of materials and tools to help their students become more confident and able readers, writers, and critical thinkers.

Acoustic Properties Tom McEnaney,2017-06-15 Acoustic Properties: Radio, Narrative, and the New Neighborhood of the Americas discovers the prehistory of wireless culture. It examines both the coevolution of radio and the novel in Argentina, Cuba, and the United States from the early 1930s to the late 1960s, and the various populist political climates in which the emerging medium of radio became the chosen means to produce the voice of the people. Based on original archival research in Buenos Aires, Havana, Paris, and the United States, the book develops a literary media theory that understands sound as a transmedial phenomenon and radio as a transnational medium. Analyzing the construction of new social and political relations in the wake of the United States' 1930s Good Neighbor Policy, Acoustic Properties challenges standard narratives of hemispheric influence through new readings of Richard Wright's cinematic work in Argentina, Severo Sarduy's radio plays in France, and novels by John Dos Passos, Manuel Puig, Raymond Chandler, and Carson McCullers. Alongside these writers, the book also explores Che Guevara and Fidel Castro's Radio Rebelde, FDR's fireside chats, Félix Caignet's invention of the radionovela in Cuba, Evita Perón's populist melodramas in Argentina, Orson Welles's experimental New Deal radio, Cuban and U.S. "radio wars," and the 1960s African American activist Robert F. Williams's proto-black power Radio Free Dixie. From the doldrums of the Great Depression to the tumult of the Cuban Revolution, Acoustic Properties illuminates how novelists in the radio age converted writing into a practice of listening, transforming realism as they struggled to channel and shape popular power.

Newtown Alive Rosalyn Howard Ph D,2017-03-15 This book chronicles the history of Sarasota, Florida's African American community - Newtown - that celebrated its 100-year anniversary in 2014. It answers questions about many aspects of community life: why the earliest African Americans who came to Sarasota, then a tiny fishing village, first settled in areas near downtown called -Black Bottom- and -over town;- their transition from there to Newtown; how they developed Newtown from swampland into a self-contained community to ensure their own survival during the Jim Crow era; the ways they earned a living, what self-help organizations they formed; their religious and educational traditions; residents' military service, the strong emphasis placed on education; how they succeeded in gaining political representation after filing a federal lawsuit; and much more. Newtown residents fought for civil rights, endured and triumphed over Jim Crow segregation, suffered KKK intimidation and violence, and currently are resisting the stealthy gentrification of their community. Whether you are new to the area, a frequent visitor, an educator, historian or a longtime resident trying to connect the dots in your family tree, you will find these stories of courage, dignity and determination enlightening and empowering!
