*Overcoming Animal and Insect Phobias* Martin Antony,Randi E. McCabe,2005-06-01 As the makers of blockbuster movies like The Birds, Jaws and Arachnophobia well know, animal fears are the most commonly reported phobias. Some 6 percent of Americans suffer from diagnosable animal phobia at any given time, and 11 percent will experience an episode at some time in their lives. Nearly three quarters of animal phobia sufferers are women, and most symptoms of animal phobia come on in childhood. Since most people with animal phobias experience panic attacks when they encounter certain animals, these fears can cause victims to lose significant quality of life. Fortunately, specific phobias are among the most responsive of anxiety disorders to behavior therapy, the research-proven treatment adapted for self-help readers in this book. Readers first learn about their phobia, where it comes from, what factors influence it, and how best to prepare for treatment. Then they learn to confront and overcome their animal and insect phobia. These techniques are effective and fast. The book includes information about avoiding relapse and helping someone else who suffers from an animal phobia.

**The Fear Project** Jaimal Yogis, 2013-01-08 An epic adventure full of incredible characters, death-defying athletic achievement, and bleeding edge science, The Fear Project began with one question: how can we overcome our fears to reach our full potential? Who among us has not been paralyzed by fear? In The Fear Project, award-winning journalist and surfer Jaimal Yogis sets out to better understand fear-why does it so often dominate our lives, what makes it tick, and is there even a way to use it to our advantage? In this entertaining, often laugh-out-loud narrative, Yogis also treats himself like a guinea pig for all of his research, pushing his own fears repeatedly to the limits-in his sport, in his life, and in love. Ultimately, Yogis shares with his readers the best strategies to emerge triumphant from even the most paralyzing of fears. The Fear Project gives you insight into: - How fear evolved in the human brain - How to tell the difference between good fear and bad fear - How to use the latest neuroscience to transform fear memories - Why fear spreads between us and how to counteract fearful group think - How to turn fear into a performance enhancer - athletically and at work In pursuing this terrifying-and often thrilling-journey with Yogis, we learn how to move through fear and unlock a sense of renewed possibility and a more rewarding life.

*All Our Waves Are Water* Jaimal Yogis, 2017-07-04 In this meditative memoir—a compelling fusion of *Barbarian Days* and the journals of Thomas Merton—the author of *Saltwater Buddha* reflects on his failing toward enlightenment, his continued search to find meaning and a greater understanding of grace in the world's oceans as well as everyday life. Born to a family of seekers, Jaimal Yogis left home at sixteen to surf in Hawaii and join a monastery—an adventure he chronicled in *Saltwater Buddha*. Now, in his early twenties, his heart is broken and he's lost his way. Hitting the road again, he lands in a monastery in Dharamsala, where he meets Sonam, a displaced Tibetan. To help his friend, Jaimal makes a cockamamie attempt to reunite him with his family in Tibet by way of America. Though he does not succeed, witnessing Sonam's spirit in the face of failure offers Jaimal a deeper understanding of faith. When the two friends part, he cannot fathom the unlikely circumstances that will reunite them. *All Our Waves Are Water* follows Jaimal's trek from the Himalayas to Indonesia; to a Franciscan Friary in New York City to the dusty streets of Jerusalem; and finally to San Francisco's Ocean Beach. Along his journey, Jaimal prays and surfs; mourning a lost love and seeking something that keeps eluding him. The poet Rumi wrote, We are not a drop in the ocean. We are the ocean in a drop. *All Our Waves Are Water* is Jaimal's attempt to understand the ocean in a drop, to find that one moon shining in the water everywhere—to find the mystery that unites us.

**Gunfight** Ryan Busse, 2023-04-25 A former firearms executive pulls back the curtain on America's multibillion-dollar gun industry, exposing how it fostered extremism and racism, radicalizing the nation and bringing cultural division to a boiling point. As an avid hunter, outdoorsman, and conservationist—all things that the firearms industry was built on—Ryan Busse chased a childhood dream and built a successful career selling millions of firearms for one of America's most popular gun companies. But blinded by the promise of massive profits, the gun industry abandoned its self-imposed decency in favor of hardline conservatism and McCarthyesque internal policing, sowing irreparable division in our politics and society. That drove Busse to do something few other gun executives have done: he's ending his 30-year career in the industry to show us how and why we got here. *Gunfight* is an insider's call-out of a wild, secretive, and critically important industry. It shows us how America's gun industry shifted from prioritizing safety and ethics to one that is addicted to fear, conspiracy, intolerance, and secrecy. It recounts Busse's personal transformation and shows how authoritarianism spreads in the guise of freedom, how voicing one's conscience becomes an act of treason in a culture that demands sameness and loyalty. *Gunfight* offers a valuable perspective as the nation struggles to choose between armed violence or healing.

**Girl, 20** Kingsley Amis, 2013-09-17 Kingsley Amis, along with being the funniest English writer of his generation was a great chronicler of the fads and absurdities of his age, and *Girl, 20* is a delightfully incisive dissection of the flower-power phase of the 1960s. Amis's antihero, Sir Roy Vandervane, a conductor and composer who bears more than a passing resemblance to Leonard Bernstein, is a pillar of the establishment who has fallen hard for protest, bellbottoms, and the electric guitar. And since vain Sir Vandervane is a great success, he is also free to pursue his greatest failing: a taste for younger and younger women. Highborn hippie Sylvia (not,

in fact, twenty) is his latest infatuation and a threat to his whole family, from his drama-queen wife, Kitty, to Penny, his long-suffering daughter. All this is recounted by Douglas Yandell, a music critic with his own love problems, who finds that he too has a part in this story of botched artistry, bumbling celebrity, and scheming family, in a time that for all its high-minded talk is as low and dishonest as any other.
