*Icons of Dissent* Jeremy Prestholdt, 2019-07-01 The global icon is an omnipresent but poorly understood element of mass culture. This book asks why audiences around the world have embraced particular iconic figures, how perceptions of these figures have changed, and what this tells us about transnational relations since the Cold War era. Prestholdt addresses these questions by examining one type of icon: the anti-establishment figure. As symbols that represent sentiments, ideals, or something else recognizable to a wide audience, icons of dissent have been integrated into diverse political and consumer cultures, and global audiences have reinterpreted them over time. To illustrate these points the book examines four of the most evocative and controversial figures of the past fifty years: Che Guevara, Bob Marley, Tupac Shakur, and Osama bin Laden. Each has embodied a convergence of dissent, cultural politics, and consumerism, yet popular perceptions of each reveal the dissonance between shared, global references and locally contingent interpretations. By examining four very different figures, *Icons of Dissent* offers new insights into global symbolic idioms, the mutability of common references, and the commodification of political sentiment in the contemporary world.

Olesen, 2015-04-09 *Global Injustice Symbols and Social Movements* examines our collective moral and political maps, dotted with symbols shaped by political dynamics beyond their local or national origin and offers the first systematic sociological treatment of this important phenomenon.

**Icons of the Left** Otto Karl Werckmeister, 1999-04 In this book the author offers a critique of Marxist culture in capitalist society. Focusing on some of the most celebrated instances of traditional Western Marxism, the author shows how such icons of the Left have been progressively detached from their political roots in communist activism to the safe distance of utopian or revolutionary speculations.--Publisher's description.

*In the Shadow of a Giant* Steven E. J. Daly, 2023-11-17 "David"—a name mentioned nearly a thousand times in the Bible! Shepherd boy, musician, singer-songwriter, prophet and king (and part-time priest!), husband and father, and a God-gifted genius at close, hand-to-hand combat. An extraordinary man. This close reading of the life of David—all the way from where teenage David is first introduced (1 Sam 16) to his death (1 Kgs 2)—gives an opportunity to see the wonderful, the awful, and the (shockingly) ugly elements of his life. There are some difficult texts and difficult lessons. Significant matters arise, such as the nature of prayer, the importance of forgiveness, abuse, the nature of leadership, death and enemies, understanding patriarchy in biblical texts, spiritual gifts, and evil spirits. Readers will discover that these texts speak loudly and clearly to the issues of our day. Beginning with the Former Prophets (1 and 2 Samuel, 1 Kings) for the narrator's point of view, this book also examines the Psalms to give an understanding of what was happening for David on the inside. Undertaken as a devotional exercise, the aim of these studies is always that of seeing Jesus more clearly and living more securely in the shadow of his wing.

The heavily illustrated text is rigorous yet readable and offers a single, must-have, reference to anyone interested in information design or any of its related disciplines such as interaction design and information architecture, information graphics, document design, universal design, service design, map-making and wayfinding.

*Unrivalled Influence* Judith Herrin, 2013-03-13  
Unrivalled Influence explores the exceptional roles that women played in the vibrant cultural and political life of medieval Byzantium. Written by one of the world's foremost historians of the Byzantine millennium, this landmark book evokes the complex and exotic world of Byzantium's women, from empresses and saints to uneducated rural widows. Drawing on a diverse range of sources, Judith Herrin sheds light on the importance of marriage in imperial statecraft, the tense coexistence of empresses in the imperial court, and the critical relationships of mothers and daughters. She looks at women's interactions with eunuchs, the in-between gender in Byzantine society, and shows how women defended their rights to hold land. Herrin describes how they controlled their inheritances, participated in urban crowds demanding the dismissal of corrupt officials, followed the processions of holy icons and relics, and marked religious feasts with liturgical celebrations, market activity, and holiday pleasures. The vivid portraits that emerge here reveal how women exerted an unrivalled influence on the patriarchal society of Byzantium, and remained active participants in the many changes that occurred throughout the empire's millennial history. Unrivalled Influence brings together Herrin's finest essays on women and gender written throughout the long span of her esteemed career.

This volume includes three new essays published here for the very first time and a new general introduction by Herrin. She also provides a concise introduction to each essay that describes how it came to be written and how it fits into her broader views about women and Byzantium.

Nico: Life And Lies Of An Icon Richard

Witts,2017-03-02 Nico was revered as 'the most beautiful creature who ever lived'. She was Andy Warhol's femme fatale and the High Priestess of Weird, yet few knew her real name or her wretched origins. When she called herself 'a Nazi anarchist junkie', they thought she was joking. Bob Dylan wrote a song about her, Jim Morrison a poem, Jean Baudrillard an essay, Andy Warhol a film, Ernest Hemingway a story - yet she fought against the idolatry of men to assert her independence as a composer of dissident songs. Nico's contribution as an artist (17 films and 7 LPs) was smothered by gossip of her alleged affairs with men and women, whether Jimi Hendrix or Jeanne Moreau, Brian Jones of the Rolling Stones or Coco Chanel. She drifted through society like a phantom. Each era celebrated a different Nico - the top covergirl of the Fifties, the Siren of the Sixties (as The Times acclaimed her), the Moon Goddess of the Seventies, and the High Priestess of Punk when rock stars like Siouxsie Sioux and Pattie Smith acknowledged her pre-eminence. Ironically, they did so at the lowest point in her life. For behind the Garbo-esque veneer lived a lonely woman trying to stand autonomous in a fast-changing world, seeking to survive her heroin addiction and to cope with her tormented mother and her troubled son, his existence denied by his film-star father. In this pioneer biography, which Nico asked the author to write shortly before her outlandish death in 1988, Richard Witts uncovers the reasons for her subterfuge, and examines the facts surrounding her encounters with terrorist Andreas Baader, the Black Panthers, and the Society for Cutting Up Men. Exclusive contributions from artists such as Jackson Browne, Iggy Pop, Viva, John Cale, David Bailey, Siouxsie Sioux - and many others including her relatives, friends and enemies - make this the definitive biography of an icon who was not only a testament to an era but

hitherto unrecognised influence on popular music and style.

### **Culture, Politics and Television in Hong Kong**

Eric Kit-wai Ma, 2005-07-28 Ma looks at the ways in which the identity of Hong Kong citizens has changed in the 1990s especially since the handover to China in 1997. This is the first analysis which focuses on the role, in this process, of popular media in general and television in particular. The author specifically analyses at the relationship between television ideologies and cultural identities and explores the role of television in the process of identity formation and maintenance.

Icon Moshe Barasch, 1992 Over the centuries, European debate about the nature and status of images of God and sacred figures has often upset the established order and shaken societies to their core. Out of this debate, an identifiable doctrine has emerged of the image in general and of the divine image in particular. This fascinating work concentrates on these historical arguments, from the period of Late Antiquity up to the great and classic defenses of images by St. John of Damascus and Theodore of Studion. Icon extends beyond the immediate concerns of religion, philosophy, aesthetics, history, and art, to engage them all.

Heavy Lettuce Johnny T. Flynn, 2006-03

The Psychology of Graphic Images Manfredo Massironi, Translated by N Bruno, 2001-08 This book explores the nature of one of the most ancient tools for nonverbal communication: drawings. They are naturally adaptable enough to meet an incredibly wide range of communication needs. But how exactly do they do their job so well? Avoiding the kinds of aesthetic rankings of different graphic domains so often made by art historians and critics, Manfredo Massironi considers an extensive and representative sample of graphic applications with an open mind. He finds a deep

mutuality between the material components of images and the activation of the perceptual and cognitive processes that create and decipher them. Massironi first examines the material components themselves: the mark or line, the plane of representation (the angle formed by the actual drawing surface and the depicted objects), and the position of the viewpoint relative to the depicted objects. The roles played by these three components are independent of the content of the drawing; they function in the same way in concrete and abstract representations. He then closely scrutinizes the choices made by the person planning and executing the drawings. Given that any object can be depicted in an infinite number of different ways, the drawer performs continuous work emphasizing and excluding different features. The choices are typically unconscious and guided by his or her communicative goals. A successful graph, be it simple or complex, is always successful precisely because the emphasized features are far fewer in number than the excluded ones. Finally, he analyzes the perceptual and cognitive integrations made by the viewer. Drawings are not simply tools for communication but important instruments for investigating reality and its structure. Richly illustrated, the book includes a series of graphic exercises that enable readers to get a sense of their own perceptual and cognitive activity when inspecting images. Massironi's pathbreaking taxonomy of graphic productions will illuminate all the processes involved in producing and understanding graphic images for a wide audience, in fields ranging from perceptual and cognitive psychology through human factors and graphic design to architecture and art history.
