Planes of Existence Kyle Lance Proudfoot,2013-09 ☐ Planes Of Existence is a Science Fiction/Fantasy Novel with a good dosage of Humor and Horror which I, Kyle Lance Proudfoot, have written. It combines the best elements of both science fiction and fantasy and is hyper modern and futuristic taking place on far distant planets in the Universe. Leading from The Black Dungeon Doorway which is published by AuthorHouse UK it expands upon Character Classes introduced in The Free Show giving life to their profiles. There is great adventure, plenty of magic and technological devices and absolutely phenomenal battles. There is also a strong portrayal of the theme of Light and Shadow. I maintain my highly descriptive and exciting style of writing. ☐ Planes Of Existence is Part 2, the sequel of The Black Dungeon Doorway. This will give me time to promote and try to make a bestseller of The Black Dungeon Doorway which is already published by AuthorHouse UK. There is also a Free Draft Promo of it. ☐ My plan is to write a trilogy; the third title is The Door Of Light or Door Of Light and is a progression towards the Light and Good which is standard in all stories and most Hollywood plot lines.

Soviet/Russian Laser Weapon Development: X-2 M & B-1 Kilo/A-60 Ladoga Alk/Peresvet Hugh Harkins, 2019-01-10 While there is a wealth of information available in regards to United States laser weapons program, including the application of such weapons in airborne laboratory testbeds, little is known about Soviet Union and later Russian Federation efforts to produce such weapons. This paper, which deals with the subject from a historical and scientific perspective, is intended to shed some light on the Soviet ground based KLO and A-60 Ladoga ALK laser weapon complex flying laboratory that first flew in the first half of the 1980's. The paper will also briefly detail Russian Federation continuation of A-60 ALK and KLO research work in the twenty first century, the former leading to the current generation Peresvet ground based combat laser complex unveiled in March 2018. All of the technical data and the majority of the graphic material has been furnished by official sources within the current Russian and past Soviet defence industry as well as the Ministry of Defence of the Russian Federation and United States intelligence agencies.

Baxter Moon John Zakour (BM), 2013-11-04 Two ambassador ships have gone missing, and it's up to Baxter Moon, Galactic Scout 2nd Class, to find them. After all, he is one of the best pilots at the Galactic Academy, and it's not like he's ever killed his whole crew in real life... only in simulations. But traveling through deep space with a large-but-dim mechanic, her genius twin, and a talking chimp isn't all it's cracked up to be. It will take all the good old fashioned instincts Baxter's got to navigate deep space, rescue the beautiful blue Aquarian princess, and save the world from a dangerous techno-race gone awry. It might be a lot to do in one day for the average teenager, but Baxter Moon isn't average.

Total War Dodge Merrin, 2020-10-27 The inevitable war between the champions of liberty and the architects of a better future has arrived. A coalition of nations calling itself the Galactic Confederacy confronted the Ordeon Empire in battle and turned back its invasion of yet another nation, but this is only the beginning. Defeat is a new experience for Primary Max Canza, but he will not allow it to define him. He now sees the true face of his enemy, and the Ordonian military remains the strongest of all the nations. There is no stopping his people's destiny to lead the human race to a new age where war, crime, and poverty will no longer exist. Their initial victory has brought hope to many, but Leon and Sam Tyquese know the struggle

ahead will be long and bloody. They also know this is their last chance to stop the Ordonians from destroying all vestiges of freedom. The rights of the individual must be protected, and they will not rest until those rights are safe.

Brink of Extinction Dodge Merrin, 2020-10-27 The Ordeon Empire saw the Galactic Confederacy as the greatest threat to humanity's future while the confederacy saw the empire as the greatest threat to life itself. They were both wrong, as now four alien races have returned from legend with a power unrivaled by any human nation. Their goal is the complete annihilation of the human race. Their only chance for survival is in mutual cooperation, but it is a small chance. Not only must Max Canza work with Leon and Sam Tyquese to overcome centuries of hatred for one another, but their enemy remains more powerful despite their combined might. Hope fades, but it never dies, and legend is still coming alive.
