Reminiscences of the Nehru Age M. O. Mathai, 1978 Reminiscences of the author, special assistant, 1946 to 1959, to Jawaharlal Nehru, 1889-1964, former Prime Minister of India.

India Shashtra Shashi Tharoor, 2015 This has been a time of unprecedented change in the country. The transformation of India's politics, economy, foreign policy, media, civil rights, governance and a myriad other aspects of our society and government has been swift and disruptive, sometimes brutally so. Narendra Modi, the nation's new Prime Minister, and his Bharatiya Janata Party, dominate the political scene, as the Congress once did, and are attempting to change the way we work, think, pray and conduct ourselves as citizens of the planet's most populous democracy. There are signs that the

nation is moving in directions that will benefit its people-the economy has begun to revive, its foreign policy appears to be purposefully pursuing a visible place in the world, polls show that a significant percentage of the nation's youth are optimistic about the future; at the same time, there are serious concerns about the rise of majoritarianism and religious fundamentalism (often, this is one and the same thing), a disquieting intolerance of free speech, dissent and religious freedom; moreover, there appears to be no end to corruption, hate speech, criminals in politics, terrorism, violence against women, bureaucratic lethargy, governmental incompetence, endemic poverty, environmental degradation, and a host of other problems that India has been struggling to overcome for decades. What does the future hold? Is the promise of good times a mere illusion? Have we forgotten the democratic, humane, secular and liberal values that our founding fathers endowed us with? Are high-speed trains and missions to Mars eclipsing the vital need to achieve universal literacy, eradicate poverty, and provide food, shelter and health-care for all? Shashi Tharoor, one of our most distinguished and insightful writers, attempts to answer these and other important questions and demystify the complex issues that have been thrown up by the ongoing transformation of the nation. After chronicling India's transformation over the years in several previous books, he brings his insights into Indian society, economics and politics up to date in wide-ranging short essays that extend the narrative right up to the present time.

Lucid, brilliantly argued, balanced and illuminating, India Shastra is required reading for anyone who wishes to understand today's India

Swami and Friends R. K. Narayan, 2012-07-25 R. K. Narayan (1906–2001) witnessed nearly a century of change in his native India and captured it in fiction of uncommon warmth and vibrancy. Swami and Friends introduces us to Narayan's beloved fictional town of Malgudi, where ten-year-old Swaminathan's excitement about his country's initial stirrings for independence competes with his ardor for cricket and all other things British. Written during

British rule, this novel brings colonial India into intimate focus through the narrative gifts of this master of literary realism.

The Accidental Prime Minister Sanjaya Baru,2015-07-05 When The Accidental Prime Minister was published in 2014, it created a storm and became the publishing sensation of the year. The Prime Minister's Office called the book a work of 'fiction', the press hailed it as a revelatory account of Prime Minister Manmohan Singh's first term in UPA. Written by Singh's media adviser and trusted aide, the book describes Singh's often troubled relations with his ministers, his cautious equation with Sonia Gandhi and how he handled the big crises from managing the Left to pushing through the nuclear deal. Insightful, acute and packed with political anecdotes, The Accidental Prime Minister is one of the great insider accounts of Indian political life.

US-China Global Maritime Relations Nong Hong,2023-12-01 This book explores the U.S.-China maritime relationship, examining the development and implementation of the maritime strategies of both the United States and China. Delving into the U.S.-China maritime relationship within the global context, the book investigates six key maritime regions: the South China Sea, the Northeast Asia waters (the East China Sea, the Yellow Sea), the Indian Ocean, the South Pacific Ocean, as well as the Arctic and Antarctic regions. Its observations form a comprehensive exploration of these regions and their significance in shaping the dynamics between the two nations, and this

analysis reveals that an expanded view is necessary to discover and clearly display the role that these maritime regions currently—and could potentially—play in overarching U.S.-China relations. Examining both the ongoing conflicts and opportunities for cooperation in the global maritime domain between the United States and China, this book will be a valuable resource to students and scholars of international relations, Chinese and U.S. politics, strategic studies, and maritime studies.

Big Billion Startup: The Untold Flipkart Story Mihir Dalal, 2019-10-06 The definitive account of India's biggest startup that redefined e-commerce, entrepreneurship and the way we shop and live. IIT graduates Sachin Bansal

and Binny Bansal founded out of a Bangalore apartment what would become India's biggest e-commerce startup. Established in October 2007, Flipkart began as an online bookstore and soon came to be known for its 'customer obsession'. As the startup's reputation grew, so did its value, with venture capitalists in India and abroad lining up to invest heavily in the company that stood for bold ambition, unabashed consumerism and the virtues of technology. Investigative journalist Mihir Dalal recounts the astounding story of how the Bansals built Flipkart into a multi-billion-dollar powerhouse in the span of a few years and made internet entrepreneurship a desirable occupation. But it is also a story of big money, power and hubris, as both business and interpersonal complexities weakened the founders' control over their creation and forced them to sell out to a retailer whose dominance they had once dreamt of emulating. Flipkart's auction involved some of the corporate world's biggest names, from Jeff Bezos, Satya Nadella, Sundar Pichai to Masayoshi Son and Doug McMillon, an ironic testimony to the strength of what the Bansals had forged. Based on extraordinary research, extensive interviews and deep access to key characters in the Flipkart story, *Big Billion Startup* is the riveting and revealing account of how Sachin and Binny Bansal built and sold India's largest internet company.

India-US Relations in the Age of Uncertainty B.M. Jain, 2016-04-20 In the initial phase of the Obama administration, India's ruling class and strategic community formed a perception that the spirit of strategic partnership between the two countries might be diluted on account of China looming large in the priorities of this administration. Despite occasional hiccups in their relationship, this perception was overshadowed by the administration's recognition of India's role as counterweight to China in the Asia-Pacific region. This book addresses and re-evaluates the perceptions, policies and perspectives of public policy makers and bureaucratic elites in both India

and the US in setting and articulating the tone, tenor and substance of the multi-faceted ties between the two countries. The scope of the book is not exclusively limited to the bilateral relationship in the critical areas such as the Indo-US nuclear deal, defence, security and strategic partnership. Its concerns and ramifications are much wider in global and regional contexts, covering/involving security architecture in the Asia-Pacific region, the interface between terrorism and weapons of mass destruction (WMDs), China as a factor in India-US relations, and the fallout of the New Delhi-Washington partnership on South Asia.
