Law of Attraction - 30 Practical Exercises Louise Stapely,2015-07-16 Updated for 2015. Even though my Law of Attraction journey began 6 years ago, I only really started to consistently practice it at the beginning of 2013. There were always 2 areas in my life that I was never really happy about - money and career. I decided to put what I had learned over the last 6 years to the test. I compiled a selection of practical exercises for my own personal use and have regularly used a variety of them since January 2013. What has happened in my life in that short time is nothing short of a miracle. I am now financially free and have quit my full time job. My income continues to rise and I have never been happier. Consistently focusing on these practical exercises kept my attention on the end result and that is the real key to success. This book provides you with the practical know how to manifest whatever it is you choose in your life, whether that is financial freedom, better relationships, your dream home, better health, loving friendships, a successful business or a healthy, happy family. The power is in your hands. In this book, you now have the fuel to fire up that power.

**Total Law of Attraction** David Che,2013-03-12 Now available as an eBook, a simple step-by-step guide that allows you to realistically apply the Law of Attraction to improve your life and achieve the next level of practical understanding. The Law of Attraction is one of the most popular topics in

the area of self-help. At the same time, it is also one of the most misunderstood. Why is that? There are three main reasons: First, there are hundreds of Law of Attraction books available, and most either rehash the same information or completely differ on what they teach, which results in confusion. Second, the big-name experts on the Law of Attraction never teach the real secrets in their books, as they mainly try to convince you to enroll in their expensive courses, which supposedly teach the real secrets. And lastly, the majority of Law of Attraction books are either motivational and/or inspirational while lacking practicality. In this economic recession, people more than ever need the Law of Attraction to find a new job, earn more money, or simply to improve their lives. What exactly is the Law of Attraction? Plain and simple, it is the process of tapping into the hidden powers of our subconscious mind to manifest what we desire into our physical reality. Total Law Of Attraction explains in plain language that it's our emotions, not so much our thoughts, that play a greater role in attracting what we want. Total Law Of Attraction avoids the need to search through many different Law of Attraction books to get the most important information. In one book, Dr. David Che has made the most powerful secrets of the Law of Attraction accessible for any individual who seeks them.
