Law of Attraction - 30 Practical Exercises Louise Stapely,2015-07-16 Updated for 2015. Even though my Law of Attraction journey began 6 years ago, I only really started to consistently practice it at the beginning of 2013. There were always 2 areas in my life that I was never really happy about - money and career. I decided to put what I had learned over the last 6 years to the test. I compiled a selection of practical exercises for my own personal use and have regularly used a variety of them since January 2013. What has happened in my life in that short time is nothing short of a miracle. I am now financially free and have quit my full time job. My income continues to rise and I have never been happier. Consistently focusing on these practical exercises kept my attention on the end result and that is the real to key to success. This book provides you with the practical know how to manifest whatever it is you choose in your life, whether that is financial freedom, better relationships, your dream home, better health, loving friendships, a successful business or a healthy, happy family. The power is in your hands. In this book, you now have the fuel to fire up that power.

Mastering the Law of Attraction J.D. Rockefeller,2016-06-28 You get what you think. Like attracts like. You attract what you focus on. You have probably been hearing these statements again and again in the last two decades. Is it true? Although it sounds interesting, some skeptics believe that the law of attraction really works. Why shouldn't it? We always tend to get what we focus on. When we focus on the fact that a job interview is going to be a disaster, it usually does turn into one. When we think about how we are going to panic when we enter the examination hall, the likelihood is that that's exactly what's going to happen. These are experiences that many of us have gone through. As usual, most of us find it easier to remember the negative events and not the positive events. If we focus on something negative and it happens, then we can surely focus on something positive and it will happen too. This is the general premise of the law of attraction. Made popular by the book The Secret

and the movie by the same name, the law of attraction is quite simple. It just says that like attracts like. So, if you focus on bad things, you will attract disaster. If you focus on good things, you will attract happiness. But this is easier said than done. It seems to sound easy, but many people find it difficult when they try to follow this principle. They want something, they focus on the lack of it, and that's what they get...lack of it. This is where most people tend to go wrong. The law of attraction is about focusing on abundance and not on lack. So, if you focus on the fact that you already have what you desire, you will get it. But if you focus on the fact that you don't have something and would like to have it, you never get it. In that case, how can you use the law of attraction to manifest your desires and your dreams into reality? Many people have been successful in manifesting their desire for money, a soul mate, a house, a great career, and so on and so forth. You can too. Just read this guide that aims to help you understand how you can manifest your desires into reality and where you may go wrong.

Total Law of Attraction David Che,2013-03-12 Now available as an eBook, a simple step-by-step guide that allows you to realistically apply the Law of Attraction to improve your life and achieve the next level of practical understanding. The Law of Attraction is one of the most popular topics in the area of self-help. At the same time, it is also one of the most misunderstood. Why is that? There are three main reasons: First, there are hundreds of Law of Attraction books available, and most either rehash the same information or completely differ on what they teach, which results in confusion. Second, the big-name experts on the Law of Attraction never teach the real secrets in their books, as they mainly try to convince you to enroll in their expensive courses, which supposedly teach the real secrets. And lastly, the majority of Law of Attraction books are either motivational and/or inspirational while lacking practicality. In this economic recession, people more than ever need the Law of Attraction to find a new job, earn more money, or simply to improve their lives. What exactly is the Law of Attraction? Plain and simple, it is the process of tapping into the hidden powers of our subconscious mind to manifest what we desire into our physical reality. Total Law Of Attraction explains in plain language that it's our emotions, not so much our thoughts, that play a greater role in attracting what we want. Total Law Of Attraction avoids the need to search through many different Law of Attraction books to get the most important information. In one book, Dr. David Che has made the most powerful secrets of the Law of Attraction accessible for any individual who seeks them.
