Handbook of Methods in Leadership Research Birgit Schyns,Rosalie J. Hall,Pedro Neves,2017-12-29 This volume provides an overview of a variety of quantitative and qualitative methods for leadership research, authored by scholars in the areas of leadership and research methodology. Integrating insights from other research areas, it provides novel approaches and multiple techniques for leadership research in a straightforward fashion. Because the volume is designed to help leadership researchers get their first insights into specific methods and their potential application to leadership research, it is appropriate for multiple audiences. These include academics and practitioners wanting to try a new method, as well as advanced undergraduate and graduate students wanting an overview of a variety of techniques. It will also be helpful to readers and reviewers as they endeavour to better understand and assess the quality of existing leadership research.

The Audacity of Leadership Anton J. Gunn,2009-08 - Have you every wondered, what defines leadership in the 21st Century? - Do you know what it takes to become a revolutionary leader for change? - Do you possess the essential skills needed to be a transformative leader in your organization? - What are the things that separate extraordinary leaders from ordinary leaders? Look no further for these answers. Anton Gunn's amazing love of Hip Hop, community organizing and politics has uniquely prepared him to craft these leadership essentials that he calls The Audacity of Leadership. Anton's distinctive ability to turn small opportunities into bold leadership positions was the beginning of The Audacity of Leadership. Anton's leadership path has taken him from Hip Hop; to Division I College Football; to the youngest executive to lead a major non-profit organization in South Carolina; ultimately to making history in the South Carolina House of Representatives. Anton's career led him to a defining leadership experience working for future President, Barack Obama. This unique opportunity has given Anton profound insights into the essentials necessary to become the kind of bold leader that makes change possible in our world. The model of The Audacity of Leadership explains the essential qualities that today's leaders must posses in order to become a bold and transformative leader in the 21st Century. Anton learned these skills as a community organizer, advocate, and a political leader. Now you can learn them too. Start your leadership journey today by mastering these essentials and I promise you, you will enhance your ability to change the world.

Leadership Patterns for Software and Technology Professionals Matt McBride,2015-06-13 As a CIO, consultant, agile/scrum professor, and software and systems development expert, Matt McBride understands the frustration of today's technologists as they struggle to advance their careers and integrate the creative power they possess to deliver consistent business results. The sad truth is that the industry frequently delivers projects that fail to meet expectations, damaging careers in the process. There is no technical silver bullet that will allow the industry to achieve breakthrough results. What's needed is an entirely new approach. Leadership Patterns for Software and Technology Professionals uses patterns to simply state the problem and succinctly identify the outline of a solution. These leadership patterns are the basic building blocks for both successful software products and interactions with everyone affected by the project. They provide insights that will help you leverage leadership, influence, and relational skills to deliver impressive results. In short, this seminal work will help you advance your career and put you at the leading edge of the next big advance in the software and technology industry.

They explain how leading strategically will help managers strengthen their capacity to develop strategy and to lead its execution.

The Leader in Me Stephen R. Covey,2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Transformational Leadership Styles for Global Leaders: Management and Communication Strategies Roache, Darcia Ann Marie,2023-09-26 The impact of transformational leadership styles, management strategies, and communication for organizational effectiveness and employee performance within organizations cannot be overemphasized. Leadership as a concept has evolved over the years based on situations, practices, and change management approaches in organizations. The evolution of transformational leadership in organizations is imperative to examine in order to motivate and encourage others to collectively support and work to achieve organizational effectiveness, or vision and mission. Leadership needs a paradigm shift to influence opportunities and challenges in organizations such as organizational behavior, motivation, communication, and management functions. Transformational Leadership Styles, Management Strategies, and Communication for Global Leaders aims to provide relevant theoretical, conceptual, and procedural frameworks and the latest empirical research findings that critically examine the areas of leadership, leadership styles, management studies, and communication for leaders globally. It is ideal for multi-sectoral interests in business and educational organizations, chief executive officers, executive members, team leaders, industry leaders, human resource directors and personnel, leadership and management, and practitioners.

Visual Leaders David Sibbet,2012-12-26 What Visual Meetings did for meetings and Visual Teams did for teams, this book does for leaders Visual Leaders explores how leaders can support visioning and strategy formation, planning and management, and organization change through the application of visual meeting and visual team methodologies organization wide—literally transforming communications and people's sense of what is possible. It describes seven essential tools for visual leaders—mental models, visual meetings, graphic templates, decision theaters, roadmaps, Storymaps, and virtual visuals—and examples of methods for implementation throughout an organization. Written for all levels of leadership in organizations, from department heads through directors, heads of strategic business units, and C level executives Explores how communications has become interactive and graphic and how these tools can be used to shape direction and align people for implementation Brings tools, methods and frameworks to life with stories of real organizations modeling these practices Visual Leaders answers the question of how design thinking and visual literacy can help to orient leaders to the complexity of contemporary organizations in the private, non-profit, and public sectors.

Discovering the Leader in You Sara N. King, David Altman, Robert J. Lee, 2011-03-01 From the Center for Creative Leadership's most popular and best known leadership program Leadership Development Program comes a book for anyone who wants to have a competitive edge in today's complex marketplace. Discovering the Leader in You shows what it looks like to fit in a leadership role and provides a system of self-discovery that allows for exploration into the roles within an organization. The book includes illustrative cases examples and puts the spotlight on the transition from the decision to lead to how to implement the decision to lead.

Hidden Strengths Thuy Sindell, Milo Sindell, 2015-05-18 "For workers who are interested in developing skills to further their career goals . . . an eye-opening look at how we use and develop our skills." —IT Business Edge Books like StrengthsFinder 2.0 have helped leaders discover their strengths—but they stop there. The Sindells argue that focusing only on your best abilities neglects a vital development opportunity. They show how to identify hidden strengths that can be quickly elevated into full strengths with attention and focus. Working mainly on your strengths can ultimately make you weaker, they argue—you need to continually add new skills, not rely on what you're already good at. And while most people assume that means they should try to turn their weaknesses into usable skills, the Sindells say that it takes too much time and effort—the ROI just isn't there. It's in the neglected middle skills, neither strengths nor weaknesses, that the most potent development opportunities lie. They're close enough to being strengths that putting your energy there can offer a powerful payoff. Using assessments, exercises, and case studies, the Sindells help you identify your most promising middle skills and create a plan to turn them into strengths. In today's work environment, not growing and stretching yourself translates into lack of innovation, stagnation, and obsolescence. Relying upon strengths is like relying upon training wheels—at a certain point you need to take them off in order to improve and grow. "Tackl[es] the question of why it's so tempting to focus on extremes—our strengths and weaknesses—while overlooking our capacity in the middle: our hidden strengths." —Bill McLawhon, Head of Leadership Development, Facebook

Agile Processes in Software Engineering and Extreme Programming Juan Garbajosa, Xiaofeng Wang, Ademar Aguiar, 2018-05-16 This open access book constitutes the proceedings of the 19th International Conference on Agile Software Development, XP 2018, held in Porto, Portugal, in May 2018. They were organized in topical sections named: agile requirements; agile testing; agile transformation; scaling agile; human-centric agile; and continuous experimentation.

Learning Leadership James M. Kouzes, Barry Z. Posner, 2016-05-02 Uncover the extraordinary leader in you with straightforward exercises and advice from two of the world's foremost leadership experts. From the bestselling authors of *The Leadership Challenge* and over a dozen award-winning leadership books comes a new book that examines a question of fundamental importance: How do people learn to become leaders? *Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader* is a comprehensive guide to unleashing the inner leader in us all and to building a solid foundation for a lifetime of leadership growth and mastery. The book offers a concrete framework to help individuals of all levels, functions, and backgrounds take charge of their own leadership development and become the best leaders they can be. Arguing that all individuals are born with the capacity to lead, bestselling authors Kouzes and Posner provide readers with a practical series of actions and specific coaching tips for harnessing that capacity and creating a context in which they can excel. Supported by over 30 years of research, from over seventy countries, and with examples from real-world leaders, *Learning Leadership* is a clarion call to unleash the leadership potential that is already present in society today. *Learning Leadership* provides readers with evidence-based strategies to ignite the habit of continuous improvement and the mindset of becoming the best leaders they can be. Emerging leaders, as well as leadership developers, internal and external coaches and trainers, and other human resource professionals will learn from first-hand stories and practical examples so that they can deeply understand and apply the fundamentals for becoming the best leaders they can be. *Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader* is divided into digestible bite-sized chapters that encourage daily actions to becoming a better leader. Key takeaways from the book include: Believe in Yourself. Believing in oneself is the essential first step in developing leadership competencies. The best leaders are learners, and they can't achieve mastery until and unless they truly decide that inside them there is a person who can make a difference and learn to be a better leader than they are right now. Aspire to Excel. To become an exemplary leader, people must determine what they care most about and why they want to lead. Leaders with values-based motivations are the most likely to excel. They also must have a clear image of the kind of leader they want to be in the future—and the legacy they want to leave for others. Challenge Yourself. Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. Engage Support. One can't lead alone, and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family, managers at work, or professional coaches, leaders need the advice, feedback, care, and support of others. Practice Deliberately. No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily habit. Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately. *Learning Leadership* challenges readers to do the meaningful and disciplined work necessary to becoming the best they can, using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.

The Future of Leadership Development Susan E. Murphy, Ronald E. Riggio, 2003 First Published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

Learning by Choice in Secondary Physical Education Kevin Kaardal, 2001 Presents a step-by-step program designed to help physical education teachers create a curriculum that allows students to select their activities, organize themselves, plan personal objectives, follow through, and stay on course with little direction.

Systems Engineering of Software-Enabled Systems Richard E. Fairley, 2019-08-06 A comprehensive review of the life cycle processes, methods, and techniques used to develop and modify software-enabled systems. *Systems Engineering of Software-Enabled Systems* offers an authoritative review of the most current methods and techniques that can improve the links between systems engineering and software engineering. The author—a noted expert on the topic—offers an introduction to systems engineering and software engineering and presents the issues caused by the differences between the two during development process. The book reviews the traditional approaches used by systems engineers and software engineers and explores how they differ. The book presents an approach to developing software-enabled systems that integrates the incremental approach used by systems engineers and the iterative approach used by software engineers. This unique approach is based on developing system capabilities that will provide the features, behaviors, and quality attributes needed by stakeholders, based on model-based system architecture. In addition, the author covers the management activities that a systems engineer or software engineer must engage in to manage and lead the technical work to be done. This important book: Offers an approach to improving the process of working with systems engineers and software engineers Contains information on the planning and estimating, measuring and controlling, managing risk, and organizing and leading systems engineering teams Includes a discussion of the key points of each chapter and exercises for review Suggests numerous references that provide additional readings for development of software-enabled physical systems Provides two case studies as running examples throughout the text Written for advanced undergraduates, graduate students, and practitioners, *Systems Engineering of Software-Enabled Systems* offers a comprehensive resource to the traditional and current techniques that can improve the links between systems engineering and software engineering.

Leadership Makes the Difference but Leaders Matter Goski Alabi PhD, 2021-08-27 ABOUT LEADERSHIP MAKES THE DIFFERENCE BUT LEADERS MATTER The book "Leadership Makes the Difference but Leaders Matter" is a 367-page book written by Prof. Goski Alabi, one of Africa's leading Full Professor in total quality management, and a scholar in leadership who serves on several public, corporate and international boards and committees. Prof. Goski is President of the African Council Distance Education (ACDE), Chair of the African Network for Internationalization of Education (ANIE), Founder and Consulting President of Laweh University College, Founding Dean of the School of Graduate Studies University of the University of Professional Studies, Accra (UPSA), Member of the ISO Committee on Consumer Policy, four times national delegate to the World Health Assembly, Member of the National Codex Committee, a certified member of the Europe - Africa- Caribbean Liaison Committee (COLEACP) Inter Professional Association who served as a framework consultant to the EU-COLEACP for Good Company Practices on the Pesticides Initiative Program (PIP). She also consulted for the Ministry of Trade and Industry on the National Quality Awareness Project as a lead consultant. She has offered training and consultancy services on quality management and strategic planning to the Bank of Ghana, the Public Services Commission, the Architects Registration Council. of Ghana and the Ethiopian Institute of Architecture, Building Construction and City Development (EiABC). She also offered several other consultancy services to the Association of African Universities, (AAU), the African Union Commission, as well as the European Union Commission among a few to mention. Prof. Goski has also led and participated in several Work Bank, DFID and EU Commission Projects successfully. As a regulator, who worked with the Food and Drugs Administration (FDA) of Ghana she audited several organizations from micro-to multinational level and also audited several national and international public and private universities for the then National Accreditation Board and the African Union Commission's Quality Rating Mechanism. Prof Goski was "The Lecturer", Keynote speaker at the prestigious Oxford University's Sir David Watson Memorial Lecture at the Human Welfare Conference (<https://www.gtc.ox.ac.uk/news-and-events/events-series/human-welfare-conference/human-welfare-conference-2019/2019-david-watson-memorial-lecturer-professor-mrs-goski-alabi/>). She is also author of the seminal book "Managing for Excellence in the 21st Century, the Total Quality Approach" which appeared in the New York Times in August 2017. Prof Goski has taught leadership at the Graduate level (Masters level) for 12 years and has condensed the knowledge and experiences gathered into the book, "Leadership Makes the Difference but leaders Matter". The must-read book presents both practical and theoretical perspectives about how we can use leadership to create and deliver value for both the individual and common good in the twenty-first century. The book also challenges our thoughts about leadership to provide a key insight for today's leaders. The aim of Leadership Makes the Difference but Leaders Matter is to bring us to question our held assumptions about leadership to improve our leadership skills. It shows striking differences between the concept of leader and leadership and argues that though leaders' matter, leadership makes the difference in bringing about necessary and constructive change, which is the ultimate goal of leadership. Leadership Makes the Difference but Leaders Matter explains that being in a leader's position does not guarantee leadership, and that leadership itself is a concept of shared influence which begins not with influence but ideas and vision, and centers around communication and actions, with trust, power, influence, commitment and competence as core pillars. It also discusses trust and the sources of power as the main avenues for negotiating power in leadership. Are you driven to lead or driven to leadership? Leadership Makes the Difference but Leaders Matter is for Scholars, Practitioners, Governments and Trainers.
