Helen Fry

MI9 Helen Fry,2020-10-27 A thrilling history of MI9—the WWII organization that engineered the escape of Allied forces from behind enemy lines When Allied fighters were trapped behind enemy lines, one branch of military intelligence helped them escape: MI9. The organization set up clandestine routes that zig-zagged across Nazi-occupied Europe, enabling soldiers and airmen to make their way home. Secret agents and resistance fighters risked their lives and those of their families to hide the men. Drawing on declassified files and eye-witness testimonies from across Europe and the United States, Helen Fry provides a significant reassessment of MI9's wartime role. Central to its success were figures such as Airey Neave, Jimmy Langley, Sam Derry, and Mary Lindell—one of only a few women parachuted into enemy territory for MI9. This astonishing account combines escape and evasion tales with the previously untold stories behind the establishment of MI9—and reveals how the organization saved thousands of lives.

Jigsaw Puzzle Politics in the Sunshine State Seth C. McKee,2015-08-11 Redrawing district lines is arguably the most polarizing of political activities in the United States today. As technological developments permit more and more sophisticated statistical analyses, those in charge of the process are more tempted to gerrymander districts for their own future benefit. At the same time, as this data is made available to the public, litigation and calls for transparency intensify. As a bellwether state, Florida offers a unique and fascinating case study to examine the various effects of redistricting. The contributors to this volume examine the issue from the perspectives of both politicians and voters, exploring the process of redistricting as well as the homogenization of districts. They examine new and ongoing controversies, including the creation of disparate pockets of opponents' voting blocs, by focusing on the massive 2012 boundary changes throughout the state--and the judicial review that called into question their legality on the eve of the 2014 elections.

Mortal Jigsaw Puzzle Grieving Patriot,2012-01-16 The Mortal Jigsaw puzzle follows the struggles of a heroic urban vice principal, as he attempts to control a large high school teetering on the verge of chaos. During the course of an infamous day known as Fat Lip Friday, the ghetto principal tries valiantly to keep control of his school in the midst of a full blown gang war. Immersed in an environment replete with urban music, violence, verbiage, and dress, the reader is bombarded with shocking images of life in the modern hood. As the visceral educational conflagration unfolds, the protagonist, Jose Perez, unexpectedly catches glimpses of a diabolical conspiracy of which street gangs are just a small part. Thanks to his keen senses, Mr. Perez slowly collects the pieces to a profoundly disturbing global puzzle comprised of codes, lyrics, art, and symbols of Egyptian, Masonic, and satanic origin. While attempting to place the gratuitous carnage and depravity of the inner city into perspective, Mr. Perez accidentally stumbles upon an interdisciplinary mind control plan which draws upon religion, politics, economics, psychology, marketing, history, and the occult. Alarmed by his findings, Mr. Perez warns his community of their pending doom, only to be hunted down by the very debt cattle whom he tries to save from oblivion. In the end, both his community and his nation are condemned to fall under this nefarious plot, as this educators quixotic mission abruptly ends with an ominous knock on his front door.

Biased Jennifer L. Eberhardt, PhD,2019-03-26 Poignant....important and illuminating.—The New York Times Book Review Groundbreaking.—Bryan Stevenson, New York Times bestselling author of Just Mercy From one of the world's leading experts on unconscious racial bias come stories, science, and strategies to address one of the central controversies of our time How do we talk about bias? How do we address racial disparities and inequities? What role do our institutions play in creating, maintaining, and magnifying those inequities? What role do we play? With a perspective that is at once scientific, investigative, and informed by personal experience, Dr. Jennifer Eberhardt offers us the language and courage we need to face one of the biggest and most troubling issues of our time. She exposes racial bias at all levels of society—in our neighborhoods, schools, workplaces, and criminal justice system. Yet she also offers us tools to address it. Eberhardt shows us how we can be vulnerable to bias but not doomed to live under its grip. Racial bias is a problem that we all have a role to play in solving.

Cain's Jawbone Edward Powys Mathers,2023-11 Six murders. One hundred pages. Millions of possible combinations... but only one is correct. Can you solve Torquemada's murder mystery? 'If James Joyce and Agatha Christie had a literary love child, this would be it.' The Daily Telegraph In 1934, the Observer's cryptic crossword compiler, Edward Powys Mathers (aka Torquemada), released a novel that was simultaneously a murder mystery and the most fiendishly difficult literary puzzle ever written. The pages have been printed in an entirely haphazard order, but it is possible - through logic and intelligent reading - to sort the pages into the only correct order, revealing six murder victims and their respective murderers. Only three puzzlers have ever solved the mystery of Cain's Jawbone: do you have what it takes to join their ranks? Please note: this puzzle is extremely difficult and not for the faint-hearted. 'A unique hybrid of word puzzle and whodunnit.' Literary Review
