

League Manager 144

Pedersen, Paul M.,Thibault, Lucie

The Football Manager Neil Carter,2006-04-18 This clear and accessible book is the first in-depth history of the role of the football manager in British football, tracing a path from Victorian-era amateurism to the highly paid motivational specialists and media personalities of the twenty-first century. Using original source materials, the book traces the changing character and function of the football manager, covering: the origins of football management – club secretaries and early pioneers the impact of post-war social change – the advent of the football business television and the new commercialism contemporary football – specialisation and the influence of foreign managers and management practices the future of football management. The Football Manager fully explores the historical context of these changes. It examines the influence of Britain's traditionally pragmatic and hierarchical business management culture on British football, and in doing so provides a new and broader perspective on a unique management role and a unique way of life.

Fans of the World, Unite! Stephen F. Ross,Stefan Szymanski,2008-08-19 Fans of baseball, football, basketball, and hockey have long been exploited and oppressed by the monopolistic practices of team owners. The time has come for a revolution in the organization of major U.S. sports! Fans of the World, Unite! is a clarion call to sports fans. Appealing to anyone who is in despair due to the greed and incompetence of team owners, this book proposes a significant restructuring of sports leagues. It sets out a rational program for a revolution that will serve the best interests of the fans and of the sport itself. But Stephen F. Ross and Stefan Szymanski are no Marxists: they show how a revolution in the organization of sports might even benefit the owners. By harnessing the power of markets, sports leagues can be made both more responsive to the needs of the fans, and more efficient. Ross and Szymanski have spent many years evaluating the ways in which leagues work across the globe. Drawing on their extensive study of leagues, the authors boil down their plan to two major reforms. Borrowing from NASCAR, they propose that team owners should not own sports leagues as well. Rather, league ownership should be separate. Their second proposal is drawn from soccer: introduce competition through a promotion and relegation system. In this type of system, the worst teams in the league are kicked out at the end of the season and replaced by the best performing teams in the next division down. This gives poor performing teams incentive to step up their game, and allows fresh blood to enter the leagues if the poor performers fail to do so. The main goal of these reforms is to align the financial interest of those who own the league with the best interests of the fans and the sport. Having laid out the problem and the solution, the authors skillfully address practical implications of introducing their scheme, suggesting how leagues might at least make some changes, if not all of those suggested. The time for change has come! Armed with this book, and with fairness on their side, fans can set forth to begin a revolution.

Digital Football Cultures Stefan Lawrence,Garry Crawford,2018-09-04 As the digital revolution continues apace, emergent technologies and means of communication present new challenges and opportunities for the football industry. This is the first book to bring together key contemporary debates at the intersection of football studies, leisure studies, and digital cultural studies. It presents cutting edge theoretical and empirical work based around four key themes: theorizing digital football cultures; digital football fandom; football and social media; and football (sub)cybercultures. Covering topics such as transnational digital fandom, online abuse, and gender, Digital Football Cultures argues that we are witnessing the hyperdigitalization of the world's most popular sport. This book is a valuable resource for students and researchers working in leisure studies, sports studies, football studies, and critical media studies, as well as geography, anthropology, criminology, and sociology. It is also fascinating reading for anybody working in sport, media, and culture.

The Man in the Dugout Leonard Koppet,2000 A study of the strategies of baseball managers and speculation about their styles of managing. Leonard Koppet's analysis is based on personal interaction with all of the managers active since 1950 and their descriptions and judgements of the generation of men who preceded them.

The Integration of Major League Baseball Rick Swaine,2009-06-08 This book is a record of the men and events, team by team, during Major League Baseball's integration. It focuses especially on the owners, executives and managers who were the heroes, villains or spectators of integration, and it sheds new light on the unheralded champions of integration and on those whose culpability has so far been overlooked. Individual chapters cover each of baseball's integration-era teams, and a final chapter covers expansion teams of the 1960s. Each team's responsible individuals are examined, its acquisition, deployment and treatment of black players documented, and the effect of its integration actions on team performance analyzed. Appendices provide populations of integration-era Major League cities, first black players by team, first black players in various minor leagues, rosters of black players by team, a timeline of black player milestones, and a list of black All-Star selections through 1969.

Contemporary Sport Management, 5E Pedersen, Paul M.,Thibault, Lucie,2014-06-18 Contemporary Sport Management, Fifth, provides students with an overview of sport management by presenting extensive discussions of the foundational aspects of the profession and current topics from the field. The fifth edition continues to engage students with a full-color format and an integrated web study guide. The text also discusses the role of social media in revolutionizing the industry and the significance of sport as an international institution. Students will learn the relevance of legal, sociocultural, historical, political, and psychological concepts to the management of sport; the professional skills and attitudes of successful sport managers; and ways in which the globalization of sport continues to affect sport management professions.

The New England League Charlie Bevis,2007-11-30 This book delves deep into the history of the New England League, whose years of operation spanned six decades during the pivotal early years of minor league baseball. Author Charlie Bevis, an expert on New England's baseball past, explores the complex ties to the regional economy, especially to the textile industry, and discusses the pioneering experiments with playoffs, night baseball, and integration.

Hall of Fame Baseball Cards Bert Randolph Sugar,1978 Full-color, detachable facsimile reproductions, both front and back, of 92 authentic baseball cards. Among the players are Hornsby, Young, McGraw, Stengel, Rickey, Gehrig, Williams, Mantle, Spahn, Robinson, Musial, Koufax, Clemente, and many more. There is no duplication of cards with Sugar's Classic Baseball Cards.

Baseball Steven P. Gietschier,2023 A history of baseball as a sport and business during the middle of the twentieth century, examining the game on and off the field and tracing its development within the broader contours of American history.

Carrying Jackie's Torch Steve Jacobson,2009 The real and painful struggles of the black players who followed Jackie Robinson into major and minor league baseball from 1947 to 1968 are chronicled in this compelling volume. Players share their personal and often heart-wrenching stories of intense racism, both on and off the field, mixed with a sometimes begrudged appreciation for their tremendous talents. Stories include incidents of white players who gave up promising careers in baseball because they wouldn't play with a black teammate, the Georgia law that forbade a black player from dressing in the same clubhouse as the white players, the quotas for the number of blacks on a team, and how salary negotiations without agents or free agency were akin to a plantation system for both black and white players. The 20 players profiled include Ernie Banks, Alvin Jackson, Charlie Murray, Chuck Harmon, Frank Robinson, Bob Gibson, Hank Aaron, Curt Flood, Lou Brock, and Bob Watson.

Hal Chase Martin Donell Kohout,2017-07-06 Hal Chase is considered by many to be one of the best first basemen ever to play the game of baseball. He was able to make the routine look spectacular, the spectacular look routine. But Chase will never have his plaque in Cooperstown because he has gone down in history as the biggest crook in baseball. Chase was repeatedly accused of throwing games, bribing players, betting against his own team, and various other crimes, yet with his relaxed nature he always managed to get off the hook for his misdeeds by working his charm. His major league career lasted from 1905 to 1919, and by the mid-1930s he was a destitute alcoholic living off friends. The last fifteen years of Chase's life saw him hospitalized repeatedly for a variety of ailments, living off a sister and brother-in-law who loathed him. This work traces the turbulent life and times of Hal Chase from his humble beginnings to his sad end.

A Fine Team Man Joe Cox,2019-02-01 Jackie Robinson famously said that a life is not important except for the impact it has on other lives. As we celebrate Robinson's 100th birthday in January 2019, *Stealing Home* profiles nine figures whose lives were altered by the "great experiment," as the integration of baseball was called then. Profiled here are Rachel Robinson, the stoic but thoughtful wife; Branch Rickey, the mercurial but far-sighted manager/owner of the Dodgers; Baseball Commissioner "Happy" Chandler, who quietly paved the way for integration; Clyde Sukeforth, the scout whose assessment of Robinson was crucial to the player's success; Red Barber, whose own views on integration were altered by Robinson's example of grace under pressure; Wendell Smith, the prominent black journalist who helped Robinson navigate through the trappings of a racist society; Burt Shotton, who managed Robinson during Robinson's majestic MVP season in 1949; Pee Wee Reese, the Dodgers captain who united the team behind Robinson; and finally, Dixie Walker, the veteran Dodgers star who vowed never to play alongside Robinson, but who was eventually so moved by Robinson's courage that he spent his last years working to improve the skills of such African-American players as Maury Wills, Jim Wynn, and Dusty Baker. As Joe Cox concludes, "Perhaps the ultimate measure of the glory of Robinson's quest is that it converted those inclined against it to see all men as equal, at least on the great field of baseball."

Football: From England to the World Dolores Martinez,Projit B. Mukharji,2013-10-31 This book is a fascinating journey through a series of scholarly articles. The journey begins by tracing one of the most significant stories in the popularization of Association Football. In the next leg of the journey it charts the diverse and changing face of the modern British game. It then moves on to the global spread of the game from England and its domestication and appropriation in its new homes across the planet. It also investigates the exchanges which are increasingly taking place between these new homes of football. In the concluding pieces football's global experience is compared with the attempts at globalizing baseball and drawing out the larger patterns that inform football's global experience. This book was published as a special issue in *Soccer and Society*.

National League Baseball Card Classics Bert Randolph Sugar,1982-08-01 83 Big Leaguers from 1909-69, on facsimile baseball cards. Hubbell, Dean, Spahn, Brock, many others; also advertising, info. No duplications.

A Sociology of Football in a Global Context Jamie Cleland,2015-03-24 Association football is now the global sport, consumed in various ways by millions of people across the world. Throughout its history, football has been a catalyst as much for social cohesion, unity, excitement and integration as it can be for division, exclusion and discrimination. A Sociology of Football in a Global Context examines the historical, political, economic, social and cultural complexities of the game across Europe, Africa, Asia and North and South America. It analyses the key developments and sociological debates within football through a topic-based approach that concentrates on the history of football and its global diffusion; the role of violence; the global governance of the game by FIFA; race, racism and whiteness; gender and homophobia; the changing nature of fans; the media and football's financial revolution; the transformation of players into global celebrities; and the growth of football leagues across the world. Using a range of examples from all over the world, each chapter highlights the different social and cultural changes football has seen, most notably since the 1990s, when its relationship with the mass media and other transnational networks became more important and financially lucrative.

Football – Bloody Hell! Patrick Barclay,2010-10-31 SHORTLISTED FOR THE BRITISH SPORTS BOOK AWARDS Sir Alex Ferguson is the most controversial and compelling figure in football. For many he ranks as the greatest manager of all time. He is certainly the most successful. It's been more than ten years since Ferguson's Manchester United triumphed over Bayern Munich in the dying seconds of the Champions League final. Since then he has presided over the rise and fall and rise again of José Mourinho; the arrival and departure of the world's best player, Ronaldo; the removal of one English talisman - Beckham - and the irresistible instalment of another - Rooney. Ferguson has been instrumental in making the Premier League the most successful competition in football, and he has endured while the mountains of cash have turned to valleys of debt. Throughout, award-winning journalist Patrick Barclay has been pitch-side and spoken to all those who know Ferguson best - fellow managers, former players, colleagues and commentators. The result is Football - Bloody Hell!: the definitive work on the game's greatest living legend.

Music Business Handbook and Career Guide David Baskerville,Tim Baskerville,2018-12-31 The Twelfth Edition of this powerhouse best-selling text maintains its tradition as the most comprehensive, up-to-date guide to the music industry in all of its diversity. Readers new to the music business and seasoned professionals alike will find David Baskerville and Tim Baskerville's handbook the go-to source, regardless of their specialty within the music field. Music Business Handbook and Career Guide is ideal for introductory courses such as Introduction to the Music Business, Music and Media, and other survey courses as well as more specialized courses such as the record industry, music careers, artist management, and more. The fully updated Twelfth Edition includes a comprehensive discussion of the streaming revolution and its impact on all parts of the value chain, including composers, performing artists, publishers, and labels. The book also analyzes shifts in the competing platforms of consumption ranging from fast-shrinking physical formats and broadcasting to downloads and subscription services. This edition offers more vignettes than ever, illustrating how individuals in different industry roles advanced their careers, as well as how they've adjusted to the intertwining influences of technology, law, and culture.
