Edgar Rice Burroughs (September 1, 1875 – March 19, 1950) was an American author, best known for his prolific output in the adventure, science fiction, and fantasy genres. Best-known for creating the characters Tarzan and John Carter, he also wrote the Pellucidar series, the Amtor series, and the Caspak trilogy. Tarzan was immediately popular, and Burroughs capitalized on it in every way possible, including a syndicated Tarzan comic strip, movies, and merchandise. Tarzan remains one of the most successful fictional characters to this day and is a cultural icon. Burroughs's California ranch is now the center of the Tarzana neighborhood in Los Angeles, named after the character. Learning to Read, Learning Religion Britta Juska-Bacher,Matthew Grenby,Tuija Laine,Wendelin Sroka,2023-01-06
Catechism primers are inconspicuous but telling little books for children combining the teaching of reading skills and religious catechesis. From the 16th to the 19th centuries, they have been produced, disseminated and used in huge numbers in many regions of the world, in particular in Europe. Remarkably, similar texts appeared across the continent, spanning confessional traditions that were in other respects highly divergent. In different places, and across the whole period, different denominations used not only similar pedagogical and religious strategies, but also shared the same formats and iconography. This volume, edited by scholars from Finland, Germany, Switzerland, and the United Kingdom, is the result of a collaborative transnational and interdisciplinary effort including education, language teaching, children's literature, book history, and religious studies. With contributions on seventeen European countries and regions, it sheds new light on a fascinating but largely neglected part of European cultural heritage, and, by establishing a comprehensive and authoritative summary of the field, offers fresh impetus for further transnational research.

Second Language Learning and Language Teaching Vivian Cook,2016-05-05 Second Language Learning and Language Teaching provides an introduction to the application of second language acquisition research to language teaching. Assuming no previous background in second language acquisition or language teaching methods, this text starts by introducing readers to the basic issues of second language acquisition research. It then examines how people learn particular aspects of the second language, such as grammar, vocabulary, pronunciation and the writing system, and at the strategies they adopt in their learning and the differences between individuals. Final chapters look at second language learning in a broader context – the goals of language teaching and how teaching methods relate to SLA research. This newly updated fifth edition builds on the comprehensive scope of earlier editions while also addressing more recent developments in the field, particularly multilingual approaches to language teaching.
