Against The Clock

Goodbye, Mr Hollywood John Escott,2008-01-01

Jazz Guitar Voicings Randy Vincent,2009

Prime Time Animation Carol Stabile,2013-09-13 In September 1960 a television show emerged from the mists of prehistoric time to take its place as the mother of all animated sitcoms. The Flintstones spawned dozens of imitations, just as, two decades later, The Simpsons sparked a renaissance of primetime animation. This fascinating book explores the landscape of television animation, from Bedrock to Springfield, and beyond. The contributors critically examine the key issues and questions, including: How do we explain the animation explosion of the 1960s? Why did it take nearly twenty years following the cancellation of The Flintstones for animation to find its feet again as primetime fare? In addressing these questions, as well as many others, essays examine the relation between earlier, made-for-cinema animated production (such as the Warner Looney Toons shorts) and television-based animation; the role of animation in the economies of broadcast and cable television; and the links between animation production and brand image. Contributors also examine specific programmes like The Powerpuff Girls, Daria, Ren and Stimpy and South Park from the perspective of fans, exploring fan cybercommunities, investigating how ideas of 'class' and 'taste' apply to recent TV animation, and addressing themes such as irony, alienation, and representations of the family.

Television and American Culture Jason Mittell, 2010 *Television and American Culture: An Overview* introduces students to the study of television by looking at American television from a cultural perspective. The book is written for intermediate undergraduate and beginning graduate students for a range of television studies courses. Specifically, Mittell discusses television within the following contexts: the economics of the television industry, television's role within American democracy, the formal attributes of a variety of television genres, television as a site of gender and racial identity formation, television's role in everyday life, and the medium's technological and social impacts. The topical arrangement and comprehensive scope of the book differs from other television textbooks, arguing that we must incorporate a range of economic, political, aesthetic, and sociological perspectives to fully comprehend the medium of television.
