*Communicating Process Architectures 2001* World Occam and Transputer User Group. Technical Meeting, World Occam and Transputer User Group, Technical Meeting, 2001 Concurrency is an integral part of everyday life. The concept is so ingrained in our existence that we benefit from it without realizing. When faced with a taxing problem, we automatically involve others to solve it more easily. Such concurrent solutions to a complex problem may, however, not be quite straightforward and communication becomes crucial to ensure the successful solution of the problem.

*Angels and Demons in Art* Rosa Giorgi, 2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

**Underwater Dogs** Seth Casteel,2012-10-23 The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In *Underwater Dogs*, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.

So, whenever she would fall sick, she would ask her Daddy to tell her a story about himself 'when he was a little boy', and, each time her Daddy would tell her a new story of funny things that ever happened to actual little boys like him or to other little daddies that he knew. After all, all daddies were 'little boys' once. When Daddy was a little boy is a timeless collection of tales that happened to a Daddy when he was a 'little boy'.
