Collared Lemming Dee Phillips,2020 It's winter, and the cold Arctic landscape is covered with snow. That's not a problem for a lemming, however. The tiny animal has dug a network of tunnels through the snow. Now the little creature leaves its cozy underground home and scurries along the snow tunnels, popping up here and there to find twigs and bark to eat. Filled with information perfectly suited to the abilities and interests of its primary-grade audience, this colorful, fact-filled book gives readers a chance not only to learn all about lemmings and how they are adapted to the extreme cold, but also to develop their powers of observation and critical thinking. Built-in activities, such as guessing how a lemming stays safe from its many predators and figuring out how many babies a female lemming has in a year, give readers a chance to gain, insights beyond the facts and figures.

Interesting Times Terry Pratchett,2009-10-13 “Discworld is more complicated and satisfactory than Oz . . . has the energy of The Hitchhiker’s Guide to the Galaxy and the inventiveness of Alice in Wonderland . . . brilliant.” —A. S. Byatt When war, magic, politics, and one deliciously inept wizard collide, zany mayhem ensues in this delightful satire in Sir Terry Pratchett’s internationally bestselling Discworld series. To the fine denizens of Discworld, the phrase “May you live in interesting times” is a curse. No one wishes to hear those words, especially not Rincewind. The distinctly unmagical sorcerer has barely survived more than a few “interesting times” and he isn’t looking to experience any more. But when a request for a “Great Wizzard” arrives in Ankh-Morpork via carrier albatross from the faraway Counterweight Continent, Rincewind is named emissary. The Agatean Empire’s current ruler is on the brink of downfall, and chaos is all but certain to arise in the wake. For some incomprehensible reason, someone believes Rincewind will have a mythic role in the war and the ensuing bloodletting. Cohen the Barbarian and his extremely elderly Silver Horde are already hard at work planning for the looting and pillaging. Anyone can be a hero, but there’s only one Rincewind—and he believes he owes it to the world to keep that one alive for as long as possible. The Discworld novels can be read in any order but *Interesting Times* is the fifth installment in the Wizards collection (and the 18th Discworld book). The other books in the Wizards collection include: *The Color of Magic* *The Light Fantastic* *Sourcery* *Eric* *The Last Continent* *Unseen Academicals*

Who Lost Russia? Peter Conradi,2018-02-13 The collapse of the Soviet Union in 1991 was hailed as the beginning of a new era of peace and co-operation between East and West. But in the years since, Russia has made incursions into Georgia, Ukraine and Syria, leaving the Western powers at a loss. What went wrong? Drawing on exclusive interviews with key players, Peter Conradi examines the pivotal moments of the past quarter of a century and outlines how we might get relations back on track before it’s too late. *Who Lost Russia?* provides the essential background to understanding the bizarre and shifting relationship between Trump’s America and Putin’s Russia. If the Universe Is Teeming with Aliens ... WHERE IS EVERYBODY? Stephen Webb,2002-10-04 In a 1950 conversation at Los Alamos, four world-class scientists generally agreed, given the size of the Universe, that advanced extraterrestrial civilizations must be present. But one of the four, Enrico Fermi, asked, If these civilizations do exist, where is everybody? Given the fact that there are perhaps 400 million stars in our Galaxy alone, and perhaps 400 million galaxies in the Universe, it stands to reason that somewhere out there, in the 14 billion-year-old cosmos, there is or once was a civilization at least as advanced as our own. Webb discusses in detail the 50 most cogent and intriguing solutions to Fermi's famous paradox.
