The Dream of Lhasa Donald Rayfield, 2013-02-21 The great Russian explorer Nikolay Przhevalsky (1839-1888) made an indelible contribution to the world's atlases, and its store of zoological and botanical knowledge, as a consequence of his four arduous and dangerous expeditions through the Central Asia of Western Mongolia, Eastern Turkestan and Northern Tibet. Donald Rayfield's biography of Przhevalsky - first published in 1976 and drawing on the explorer's diaries, letters, and published works - tells the thrilling story of the explorer's groundbreaking journeys, undertaken in an age of extreme political sensitivity between Russia, China and Britain. A rich portrait emerges of an extraordinary Byronic character who was ill-suited to civilisation but much at home with the loneliness and hardship of the nomadic life. A rigorous army officer and a phenomenal shot, gifted also with a photographic memory, Przhevalsky became one of the most widely-admired men in Russia, and Rayfield adroitly explores the grounds of his reputation.

Never in My Wildest Dreams Vicki Haddock, Belva Davis, 2011-08-18 As the first black female television journalist in the western United States, Belva Davis overcame the obstacles of racism and sexism, and helped change the face and focus of television news. Now she is sharing the story of her extraordinary life in her poignantly honest memoir, *Never in My Wildest Dreams*. A reporter for almost five decades, Davis is no stranger to adversity. Born to a fifteen - year - old Louisiana laundress during the Great Depression, and raised in the overcrowded projects of Oakland, California, Davis suffered abuse, battled rejection, and persevered to achieve a career beyond her imagination. Davis has seen the world change in ways she never could have envisioned, from being verbally and physically attacked while reporting on the 1964 Republican National Convention in San Francisco to witnessing the historic election of Barack Obama in 2008. Davis worked her way up to reporting on many of the most explosive stories of recent times, including the Vietnam War protests, the rise and fall of the Black Panthers, the Peoples Temple cult mass suicides at Jonestown, the assassinations of San Francisco Mayor George Moscone and Supervisor Harvey Milk, the onset of the AIDS epidemic, and the aftermath of the terrorist attacks that first put Osama bin Laden on the FBI's Most Wanted List. She encountered a cavalcade of cultural icons: Malcolm X, Frank Sinatra, James Brown, Ronald Reagan, Huey Newton, Muhammad Ali, Alex Haley, Fidel Castro, Dianne Feinstein, Condoleezza Rice, and others. Throughout her career Davis soldiered in the trenches in the battle for racial equality and brought stories of black Americans out of the shadows and into the light of day. Still active in her seventies, Davis, the "Walter Cronkite of the Bay Area," now hosts a weekly news roundtable and special reports at KQED, one of the nation's leading PBS stations,. In this way she has remained relevant and engaged in the stories of today, while offering her anecdote - rich perspective on the decades that have shaped us. "No people can say they understand the times in which they have lived unless they have read this book." - Dr. Maya Angelou

The Dreams That Stuff Is Made Of Stephen Hawking, 2011-10-25 God does not play dice with the universe. So said Albert Einstein in response to the first discoveries that launched quantum physics, as they suggested a random universe that seemed to violate the laws of common sense. This 20th-century scientific revolution completely shattered Newtonian laws, inciting a crisis of thought that challenged scientists to think differently about matter and subatomic particles. *The Dreams That Stuff Is Made Of* compiles the essential works from the scientists who sparked the paradigm shift that changed the face of physics forever, pushing our understanding of the universe on to an entirely new level of comprehension. Gathered in this

anthology is the scholarship that shocked and befuddled the scientific world, including works by Niels Bohr, Max Planck, Werner Heisenberg, Max Born, Erwin Schrodinger, J. Robert Oppenheimer, Richard Feynman, as well as an introduction by today's most celebrated scientist, Stephen Hawking.

Democracy and Education John Dewey, 1916 John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Hittite Gilgamesh Gary M. Beckman, 2019-06-15 From the late third millennium BCE on, the adventures of the hero Gilgamesh were well known throughout Babylonia and Assyria, and the discovery of Akkadian-language fragments of versions of his tale at Boğazkoy, Ugarit, Emar, and Megiddo demonstrates that tales of the hero's exploits had reached the periphery of the cuneiform world already in the Late Bronze Age. A century of excavation at the Hittite capital of Hattusa (mod. Boğazkoy) has yielded more textual sources for Gilgamesh than are known from all other Late Bronze Age sites combined. The Gilgamesh tradition was imported to Hattusa for use in scribal instruction, and has been of particular importance to modern scholars in reconstructing the epic and analyzing its development, since it documents a period in the history of the narrative for which very few textual witnesses have yet been recovered from Mesopotamia itself. And it is this very Middle Babylonian period to which scholarly consensus assigns the composition of the final, canonical version of the epic. The Hittite Gilgamesh offers a full edition of the manuscripts from Hattusa in the Hittite, Akkadian, and Hurrian languages recounting Gilgamesh's adventures.
