The Hidden Places of England Peter Long, 2004 England's landscape is as diverse as its culture. It is a country with magnificent landscapes. This guide looks at the more established places of interest throughout the country, but it also focuses on the more secluded and little known visitor attractions and places to stay, eat and drink.

The Lighthouse Function of Social Law Yves Jorens, 2023-07-30 This is the conference book for the XIV European Regional Congress of the International Society for Labour and Social Security Law, dedicated to the interactions between social law and other areas of law. In recent years, labour law and social security law have been subject to various reforms and developments. Social law is however not an isolated domain but rather interacts with other fields, often even functioning as a guide or giving direction to those lost at sea. In other words: serving as a lighthouse. The key aspect addressed in this book is the existence of a connection between social law *sensu stricto* (labour law and social security law) and other areas of law. Pursuing an inter- and multidisciplinary approach, it gathers contributions on topical and challenging issues in four broad areas: 1. Basic and fundamental principles of European social law 2. The future in the light of the past 3. The impact of regionalisation 4. Enforcement in social law In turn, various developments can be identified in connection with these topics: the emergence of social criminal law is creating new overlaps between social and criminal law; the growing number of administrative law sanctions offers new insights into and connections between social security law and administrative law; the increasing similarity of employment in the public and private sectors raises questions about the applicability of administrative law in labour law relations; the relation between the ECHR and the articles of the Constitution opens up new perspectives on the constitutional interpretation of freedoms and on the interaction between human rights, constitutional law and social law; and lastly, there is a growing influence of EU law and international treaty law (concerning trade) on social law. Can we, by looking at these developments, draw certain conclusions at a different and innovative level? The contributions were selected by an international working group of distinguished scholars from across Europe.

Land of the Ilich Steven Mithen,2021-11-04 As an archaeologist, Steven Mithen has worked on the Hebridean island of Islay over a period of many years. In this book he introduces the sites and monuments and tells the story of the island's people from the earliest stone age hunter-gatherers to those who lived in townships and in the grandeur of Islay House. He visits the tombs of Neolithic farmers, forts of Iron Age chiefs and castles of medieval warlords, discovers where Bronze Age gold was found, treacherous plots were made against the Scottish crown, and explores the island of today, which was forged more recently by those who mined for lead, grew flax, fished for herring and distilled whisky – the industry for which the island is best known today. Although an island history, this is far from an insular story: Islay has always been at a cultural crossroads, receiving a constant influx of new people and new ideas, making it a microcosm for the story of Scotland, Britain and beyond.
