Emergency Response Guidebook U.S. Department of Transportation,2013-06-03 Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

Ecosystems and Human Well-being Joseph Alcamo,Millennium Ecosystem Assessment (Program),2003 Ecosystems and Human Well-Being is the first product of the Millennium Ecosystem Assessment, a four-year international work program designed to meet the needs of decisionmakers for scientific information on the links between ecosystem change and human well-being. The book offers an overview of the project, describing the conceptual framework that is being used, defining its scope, and providing a baseline of understanding that all participants need to move forward. The Millennium Assessment focuses on how humans have altered ecosystems, and how changes in ecosystem services have affected human well-being, how ecosystem changes may affect people in future decades, and what types of responses can be adopted at local, national, or global scales to improve ecosystem management and thereby contribute to human well-being and poverty alleviation. The program was launched by United National Secretary-General Kofi Annan in June 2001, and the primary assessment reports will be released by Island Press in 2005. Leading scientists from more than 100 nations are conducting the assessment, which can aid countries, regions, or companies by: providing a clear, scientific picture of the current sta

Play Your Best Golf Now Lynn Marriott,Pia Nilsson,2011-04-28 Two of golf's most revolutionary teachers share a personalized approach to accessing your peak performance. The VISION54 approach is far more than just pure golf technique, it allows an individual to unlock their true potential by opening their mind and believing anything is possible to achieve. - David Leadbetter, David Leadbetter Golf Academy Pia Nilsson and Lynn Marriott are Complete Game Coaches, leaders of a new kind of golf instruction that focuses on more than just the grip, the stance, and the swing. Their VISION54 method targets the complete golfer-the whole person-not just the technical aspects of the game. Their coaching philosophy focuses on possibilities, not limitations, with an end goal of MY54-the idea that any golfer can reach their own personalized version of peak performance, scoring nothing but birdies on a par-72 course. Building on the core concepts introduced in Every Shot Must Have a Purpose and the strategic thinking in The Game Within the Game, Play Your Best Golf Now takes the mystery out of the soft skills of golf and shows golfers how to add these skills to their game for peak performance. Players learn to master the 8 Essential Playing Skills: 1. LEAVE YOUR MIND BEHIND and enter the Play Box 2. DECIDE AND COMMIT to your shots 3. FIND YOUR BALANCE both physically and mentally 4. FEEL YOUR TEMPO on the course and dance to its rhythm 5. TAME TENSION to improve your swing 6. BUILD EMOTIONAL RESILIENCE 7. STORE MEMORIES and learn from the past to make a better present 8. DROWN SELF-TALK IN USEFUL THOUGHTS And the 2 Essential Practice Skills: 1. SIMULATE GOLF on the practice range to maximize your time and effort 2. INTEGRATE SKILLS and practice with a plan These Essentials complement the technical anchors of the game-the grip, the stance, the swing-and give players a foundation for achieving their peak performance. MY54 is the vision, and these are the building blocks for achieving a higher level of play.

School, Family, and Community Partnerships Joyce L. Epstein,Mavis G. Sanders,Steven B. Sheldon,Beth S. Simon,Karen Clark Salinas,Natalie Rodriguez Jansorn,Frances L. Van Voorhis,Cecelia S. Martin,Brenda G. Thomas,Marsha D. Greenfeld,Darcy J. Hutchins,Kenyatta J. Williams,2018-07-19 Strengthen programs of family and community engagement to promote equity and increase student success! When schools, families, and communities collaborate and share responsibility for students' education, more students succeed in school. Based on 30 years of research and fieldwork, the fourth edition of the bestseller School, Family, and Community Partnerships: Your Handbook for Action, presents tools and guidelines to help develop more effective and more equitable programs of family and community engagement. Written by a team of well-known experts, it provides a theory and framework of six types of involvement for action; up-to-date research on school, family, and community collaboration; and new materials for professional development and on-going technical assistance. Readers also will find: Examples of best practices on the six types of involvement from preschools, and elementary, middle, and high schools Checklists, templates, and evaluations to plan goal-linked partnership programs and assess progress CD-ROM with slides and notes for two presentations: A new awareness session to orient colleagues on the major components of a research-based partnership program, and a full One-Day Team Training Workshop to prepare school teams to develop their partnership programs. As a foundational text, this handbook demonstrates a proven approach to implement and sustain inclusive, goal-linked programs of partnership. It shows how a good partnership program is an essential component of good school organization and school improvement for student success. This book will help every district and all schools strengthen and continually improve their programs of family and community engagement.

The Way We Get By Seven Rue,2022-12-25 Growing up wasn't easy. Especially on the south side of Chicago with parents who did the bare minimum to keep my sister and me alive. We learned to never ask for anything, to accept what we had and appreciate life even if our upbringing was rough, and our futures not bright. But the south side was the place we called home, no matter how hard we had to work to pay our bills and get food on our table at the end of the day. My sister and my best friend were the ones who kept me going. We motivated each other and made sure none of us gave up after all the hard work and sacrifices we had to make in the past. They were all I needed to survive. Or that's what I believed. I made it out of the south side and came back to get my family out of their misery. The same misery I left behind after my brother died. After eight long years, I had forgotten how much I missed being around to support them, and I was glad I went back. Offering them jobs at my business would help them pay their bills and live a better life, but little did I know that Red would make things hard for me. Not because of her behavior, but because of the things she made me feel. We were family, but there didn't seem to be any boundaries that stopped us from getting closer. She pulled me in, and for once in her life, she didn't have to work hard for it. NOTE This is a slow burn age gap novel with a slight taboo twist. I advise you to not read TWWGB if you are sensitive when it comes to certain topics such as big age gaps, very detailed sex scenes, alcohol and drug addiction, and foul language.

Young Children and Families in the Information Age Kelly L. Heider,Mary Renck Jalongo,2014-12-05 This edited book presents the most recent theory, research and practice on information and technology literacy as it relates to the education of young children. Because computers have made it so easy to disseminate information, the amount of available information has grown at an exponential rate, making it impossible for educators to prepare students for the future without teaching them how to be effective information managers and technology users. Although much has been written about information literacy and technology literacy in secondary education, there is very little published research about these literacies in early childhood education. Recently, the National Association for the Education of Young Children and the Fred Rogers Center for Early Learning and Children's Media at Saint Vincent College published a position statement on using technology and interactive media as tools in early childhood programs. This statement recommends more research "to better understand how young children use and learn with technology and interactive media and also to better understand any short- and long-term effects." Many assume that today's young children are "digital natives" with a great understanding of technology. However, children may know how to operate digital technology but be unaware of its dangers or its value to extend their abilities. This book argues that information and technology literacy include more than just familiarity with the digital environment. They include using technology safely and ethically to demonstrate creativity and innovation; to communicate and collaborate; to conduct research and use information and to think critically, solve problems and make decisions.
