The Leadership Challenge James M. Kouzes, Barry Z. Posner, 1996-12-06 Completely revised and updated I not only enjoyed it...I found myself constantly nodding and saying to myself, 'That's right! That's how it's done! That's what it feels like!' You certainly captured the essence of what I've found is at the heart of transforming leadership. -- Robert D. Haas, chairman and CEO, Levi Strauss & Co. The leadership book that outshines them all, updated for today's new business realities. With an expanded research base of 60,000 leaders, this second edition captures the continuing interest in leadership as a critical aspect of human organizations. It offers a broader scope of leaders in every industry and walk of life, including the education and nonprofit fields, and examines the era's hottest issues -- the new cynicism, the electronic global village, evolving employee-employer relationships -- in keeping pace with our ever-changing world. The classic five-point guide to better leadership, however, remains as useful as ever.

Dialogic: Education for the Internet Age Rupert Wegerif, 2013-01-04 Dialogic: Education for the Internet Age argues that despite rapid advances in communications technology, most teaching still relies on traditional approaches to education, built upon the logic of print, and dependent on the notion that there is a single true representation of reality. In practice, the use of the Internet disrupts this traditional logic of education by offering an experience of knowledge as participatory and multiple. This new logic of education is dialogic and characterises education as learning to learn, think and thrive in the context of working with multiple perspectives and ultimate uncertainty. The book builds upon the simple contrast between observing dialogue from an outside point of view, and participating in a dialogue from the inside, before pinpointing an essential feature of dialogic: the gap or difference between voices in dialogue which is understood as an irreducible source of meaning. Each chapter of the book applies this dialogic thinking to a specific challenge facing education, re-thinking the challenge and revealing a new theory of education. Areas covered

in the book include: dialogical learning and cognition dialogical learning and emotional intelligence educational technology, dialogic 'spaces' and consciousness global dialogue and global citizenship dialogic theories of science and maths education The challenge identified in Wegerif's text is the growing need to develop a new understanding of education that holds the potential to transform educational policy and pedagogy in order to meet the realities of the digital age. Dialogic: Education for the Internet Age draws upon the latest research in dialogic theory, creativity and technology, and is essential reading for advanced students and researchers in educational psychology, technology and policy.

Mapping Digital Game Culture in China Marcella Szablewicz, 2020-02-18 In this book, Marcella Szablewicz traces what she calls the topography of digital game culture in urban China, drawing our attention to discourse and affect as they shape the popular imaginary surrounding digital games. Szablewicz argues that games are not mere sites of escape from Real Life, but rather locations around which dominant notions about failure, success, and socioeconomic mobility are actively processed and challenged. Covering a range of issues including nostalgia for Internet cafés as sites of youth sociality, the media-driven Internet addiction moral panic, the professionalization of e-sports, and the rise of the self-proclaimed loser (diaosi), Mapping Digital Game Culture in China uses games as a lens onto youth culture and the politics of everyday life in contemporary China. Based on ethnographic fieldwork conducted between 2009 and 2015 and first-hand observations spanning over two decades, the book is also a social history of urban China's shifting technological landscape.

Age Estimation in the Living Sue Black, Anil Aggrawal, Jason Payne-James, 2011-06-09 This book summarizes and explains the main approaches to age estimation in the living, defining when a parameter may be of use and raising awareness of its limitations. This text ensures that practitioners recognize when an assessment is beyond their area of expertise or beyond verification depending upon the clinical data available. Each key approach to age evaluation has been allotted a single chapter, written by an international leader in the particular field. The book also includes summary chapters that relay readily accessible data for use by the practitioner, and includes important "ageing milestones." This book is indispensable where problems of immigration and legal standing, juvenile vs. adult criminal status, and responsibilities of law enforcement to protect vulnerable persons are key issues on a daily basis. Medical practitioners, forensic practitioners such as pathology, odontology, anthropology and nursing, lawyers, and police would find this book incredibly useful.

Language Ideology and Order in Rising China Minglang Zhou, 2018-12-18 This text considers contemporary China's language ideology and how it supports China as a rising global power player. It examines the materialization of this ideology as China's language order unfolds on two front, promoting Putonghua domestically and globally, alongside its economic growth and military expansion. Within the conceptual framework of language ideology and language order and using PRC policy documents, education annals, and fieldwork, this book explores how China's language ideology is related to its growing global power as well as its domestic and global outreaches. It also addresses how this ideology has been materialized as a language order in terms of institutional development and support, and what impact these choices

are having on China and the world. Focusing on the relationship between language ideology and language order, the book highlights a closer and coherent linguistic association between China's domestic drive and global outreach since the turn of the century.

Still No Word From You Peter Orner, 2023-10-24 Longlisted for the PEN/Diamonstein-Spielvogel Award for the Art of the Essay A new collection of pieces on literature and life by the author of *Am I Alone Here?*, a finalist for the NBCC Award for Criticism Stationed in the South Pacific during World War II, Seymour Orner wrote a letter every day to his wife, Lorraine. She seldom responded, leading him to plead in 1945, "Another day and still no word from you." Seventy years later, Peter Orner writes in response to his grandfather's plea: "Maybe we read because we seek that word from someone, from anyone." From the acclaimed fiction writer about whom Dwight Garner of *The New York Times* wrote, "You know from the second you pick him up that he's the real deal," comes *Still No Word from You*, a unique chain of essays and intimate stories that meld the lived life and the reading life. For Orner, there is no separation. Covering such well-known writers as Lorraine Hansberry, Primo Levi, and Marilynne Robinson, as well as other greats like Maeve Brennan and James Alan McPherson, Orner's highly personal take on literature alternates with his own true stories of loss and love, hope and despair. In his mother's copy of *A Coney Island of the Mind*, he's stopped short by a single word in the margin, "YES!"—which leads him to conjure his mother at twenty-three. He stops reading Penelope Fitzgerald's *The Beginning of Spring* three quarters of the way through because he knows that finishing the novel will leave him bereft. Orner's solution is to start again from the beginning to slow the inevitable heartache. *Still No Word from You* is a book for anyone for whom reading is as essential as breathing.

Dialogic Education Neil Phillipson, Rupert Wegerif, 2016-12-01 Dialogue has long been used in primary classrooms to stimulate thinking, but it is not always easy to unite the creative thinking of good dialogue with the need for children to understand the core concepts behind knowledge-rich subjects. A sound understanding of key concepts is essential to progress through the national curriculum, and assessment of this understanding along with effective feedback is central to good practice. Dialogic Education builds upon decades of practical classroom research to offer a method of teaching that applies the power of dialogue to achieving conceptual mastery. Easy-to-follow template lesson plans and activity ideas are provided, each of which has been tried and tested in classrooms and is known to succeed. Providing a structure for engaging children and creating an environment in which dialogue can flourish, this book is separated into three parts: Establishing a classroom culture of learning; Core concepts across the curriculum; Wider dialogues: Educational adventures in the conversation of mankind. Written to support all those in the field of primary education, this book will be an essential resource for student, trainee and qualified primary teachers interested in the educational importance of dialogue.

Solutions for Sustainability Rafael Leal-Arcas, 2020-09-04 This book explores links and synergies between international trade and two of the most urgent challenges of the 21st century: achieving sustainable energy (i.e., energy that is affordable, secure, and clean) and mitigating climate change. It takes the unique approach of not only examining how international trade can help achieve energy and climate goals, but also the impact of emerging tools and technologies such as smart grids and demand response, and the potential role and impact of citizens and prosumers. The book analyzes energy- and trade-related regulations in a range of jurisdictions to assess how conducive the regulation is towards achieving sustainable energy, and identifies gaps and overlaps in the existing legal framework.

The Planets Within Thomas Moore,1990 *The Planets Within* asks us to return to antiquity with new eyes. It centers on one of the most psychological movements of the prescientific age -- Renaissance Italy, where a group of 'inner Columbuses' charted territories that still give us today a much-needed sense of who we are and where we have come from, and the right routes to take toward fertile and unexplored places. Chief among these masters of the interior life was Marsilio Ficino, presiding genius of the Florentine Academy, who taught that all things exist in soul and must be lived in its light. This study of Ficino broadens and deepens our understanding of psyche, for Ficino was a doctor of soul, and his insights teach us the care and nurture of soul. Moore takes as his guide Ficino's own fundamental tool -- imagination. Respecting the integrity and autonomy of images, *The Planets Within* unfolds a poetics of soul in a kind of dialogue between the laconic remarks of Ficino and the need to give these remarks a life and context for our day.
