Swahili Culture Jan Knappert, 2005 This two-volume book is a series of essays on the culture of the people who live on the east coast of Africa between the border of Somalia in the north and the Mozambique border in the south. The term 'culture' is to be taken in the widest sense. It includes ways of earning a livelihood, pastimes, sailing and other occupations as well as religion. Obviously not all aspects of culture could be represented in this work, which is the fruit of a lifetime of study. Every chapter in this work is the fruit of the author's own investigation of the East African coastal culture. Students of African Studies and advanced anthropology who read these essays will benefit from this work

The Fair Fight Anna Freeman, 2015-04-14 NAMED A BEST BOOK OF THE YEAR BY BOOKPAGE AND LIBRARY JOURNAL *The Crimson Petal and the White* meets *Fight Club*: A page-turning novel set in the world of female pugilists and their patrons in late eighteenth-century England. Moving from a filthy brothel to a fine manor house, from the world of street fighters to

the world of champions, *The Fair Fight* is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn't expect much for herself beyond abuse. While her sister's beauty affords a certain degree of comfort, Ruth's harsh looks set her on a path of drudgery. That is until she meets pugilist patron George Dryer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. When Charlotte presents Ruth with an extraordinary proposition, Ruth pushes dainty Charlotte to enter the ring herself and learn the power of her own strength. A gripping, page-turning story about people struggling to transcend the circumstances into which they were born and fighting for their own places in society, *The Fair Fight* is a raucous, intoxicating tale of courage, reinvention, and fighting one's way to the top.

*Oudry's Painted Menagerie* Mary Morton,2007-06-25 In the 1720s and 1730s, Jean-Baptiste Oudry established himself as the preeminent painter in France of hunts, animals, still lifes, and landscapes. Oudry's *Painted Menagerie* focuses on a suite of eleven life-size portraits of exotic animals from the royal menagerie at Versailles, painted by Oudry between 1739 and 1752. These paintings eventually found their way into the ducal collection in Schwerin, Germany. Among them is the magnificent portrait of Clara, an Indian rhinoceros who became a celebrity in mid-eighteenth-century Europe. Her portrait has been out of public view for more than a century, and it is presented here in its newly conserved state.

*Principles of Direct, Database and Digital Marketing* Alan

Tapp,Ian Whitten,Matthew Housden,2014-01-14 The growth of digital marketing is the most important yet unpredictable trend in marketing today. How can the online world be harnessed by the companies of today and tomorrow to grow their marketing impact? What role do information and databases have to play in this system? And why do some non-digital means of direct marketing still remain so powerful? Alan Tapp's successful text has long been a leading authority on direct marketing, and for this edition he is joined by Ian Whitten and Matthew Housden. The authors all bring great expertise across direct, database and digital marketing to provide comprehensive, compelling coverage of the key theory and debates of the fields. The 5th edition includes comprehensive coverage of all recent developments in digital marketing, including analysis of the seemingly relentless rise of Facebook, Twitter and other forms of social media. It has a range of thoroughly updated case studies covering companies and organisations from sports teams to car manufacturers and non-profits and contains a new chapter on Data Protection legislation and its impact on marketers. **Cad** Rick Marin,2004-02-18 The Los Angeles Times bestseller, now in paperback -- tales of the notorious New York dating scene, told from the other side of the bed. Rick Marin offers himself up for an in-depth look at man's superficial nature. At 28, a brief, doomed first marriage thrusts Marin back into Bachelor Hell. A journalist as eager to make it in Manhattan as with its female

population, our emotionally myopic hero can never seem to tell if the woman in front of him is too crazy or too sane, until she gets too close. Falling out of love as often as he falls in, he vows more than once to clean up his act, only to relapse into another bender of beauties, blow-offs, and bad behavior -- all in desperate pursuit of the woman who can redeem him. In this rollicking, frequently insensitive and ultimately poignant memoir, Marin proves a master of the light touch even in his darkest hours. It is one man's story, but many men will read it as their own. And for any woman who has ever wondered, What was he thinking This is what he was thinking.

*Athena Unbound* Henry Etzkowitz, Carol Kemelgor, Brian Uzzi, 2000-10-19 Why are there so few women scientists? Persisting differences between women s and men's experiences in science make this question as relevant today as it ever was. This book sets out to answer this question, and to propose solutions

for the future. Based on extensive research, it emphasizes that science is an intensely social activity. Despite the scientific ethos of universalism and inclusion, scientists and their institutions are not immune to the prejudices of society as a whole. By presenting women's experiences at all key career stages - from childhood to retirement - the authors reveal the hidden barriers, subtle exclusions and unwritten rules of the scientific workplace, and the effects, both professional and personal, that these have on the female scientist. This important book should be read by all scientists - both male and female - and sociologists, as well as women thinking of embarking on a scientific career.
