Unpacking Duchamp Dalia Judovitz,1998-04-28 Transit, transitional, transition: Dalia Judovitz catches Marcel Duchamp on the run with his art in a suitcase and his thought all boxed and ready to go. . . . She demonstrates how the theme of transition, reappearing from work to work, makes each piece reproduce some other piece, while all continue to exemplify an original which can no longer be found and which has no creator.—Jean-François Lyotard

*Dharawal* Mary Jacobs, Les Bursill, 2007 Includes Dharawal translation of Australian National Anthem, c2001.

*Understanding Popular Culture and World Politics in the Digital Age* Laura J. Shepherd, Caitlin Hamilton, 2016-05-20 The practices of world politics are now scrutinised in a way that is unprecedented, with even those previously – or conventionally assumed to be – disengaged from international affairs being drawn into world politics by social media. Interactive websites allow users to follow election results in real-time from the other side of the world, and online mapping means that the world ‘out there’ is now available on your mobile phone. *Understanding Popular Culture and World Politics in the Digital Age* engages these themes in contemporary world politics, to better understand how digital communication through new media technologies changes our encounters with the world. Whether the focus is digital media, social networking or user-generated content, these sites of political activity and the artefacts they produce have much to tell

us about how we engage world politics in the contemporary age. This volume represents the starting point of a dialogue about how digital technologies are beginning to impact the research and practice of scholars and practitioners in the field of International Relations, with the collection of cutting-edge essays dealing specifically with the intertextuality of world politics and digital popular culture. This book will be of use to International Relations research academics (and critically engaged publics) interested in the core themes of global politics – subjectivity, militarism, humanitarianism, civil society organisation, and governance. The book also employs theories and techniques closely associated with other social science disciplines, including political theory, sociology, cultural studies and media studies.

**Coastal Conservation** Brooke Maslo, Julie L.

Lockwood, 2014-03-27 An exploration of the biodiversity status of coastal habitats worldwide, emphasising their importance to society, major threats and conservation challenges.

The Routledge Companion to Global Popular Culture Toby

Miller, 2014-12-05 Research on popular culture is a dynamic, fast-growing domain. In scholarly terms, it cuts across many areas, including communication studies, sociology, history, American studies, anthropology, literature, journalism, folklore, economics, and media and cultural studies. The Routledge Companion to Global Popular Culture provides an authoritative, up-to-date, intellectually broad, internationally-aware, and conceptually agile guide to the most important aspects of popular culture scholarship. Specifically, this Companion includes: interdisciplinary models and approaches for analyzing popular culture; wide-ranging case studies; discussions of economic and policy underpinnings; analysis of textual manifestations of popular culture; examinations of political, social, and cultural dynamics; and discussions of emerging issues such as ecological sustainability and labor. Featuring scholarly voices from across six continents, The Routledge Companion to Global Popular Culture

presents a nuanced and wide-ranging survey of popular culture research.

Re-reading Popular Culture Joke Hermes, 2008-04-15 Re-reading Popular Culture is an entertaining investigation of the meanings and value of popular culture today. It explores the theme of cultural citizenship by combining textual analysis and media reception theory to analyze popular culture. Includes such contemporary issues as the rewriting of masculinity after the success of feminism, and the layers of meaning in semi-public and private talk of multiculturalism and ethnicity. Traces its topics across a variety of media forms and texts, including sports; detective fiction and police series; and children's television and games. Clearly and accessibly written for the student, scholar, and general reader.

*Popular Culture in the Ancient World* Lucy Grig, 2017 This book adopts a new approach to the classical world by focusing on ancient popular culture.

Methods of Discovery Andrew Delano Abbott, Jeffrey C. Alexander, 2004 Abbott helps social science students discover what questions to ask. This exciting book is not about habits and the mechanics of doing social science research, but about habits of thinking that enable students to use those mechanics in new ways, by coming up with new ideas and combining them more effectively with old ones. Abbott organizes his book around general methodological moves, and uses examples from throughout the social sciences to show how these moves can open new lines of thinking. In each chapter, he covers several moves and their reverses (if these exist), discussing particular examples of the move as well as its logical and theoretical structure. Often he goes on to propose applications of the move in a wide variety of empirical settings. The basic aim of *Methods of Discovery* is to offer readers a new way of thinking about directions for their research and new ways to imagine information relevant to their research problems. *Methods of Discovery* is part of the

Contemporary Societies series.

*Aboriginal Sydney* Melinda Hinkson, Alana Harris, 2010-10-01  
The popular first edition established itself as both authoritative and informative; it is both a guide book and an alternative social history, told through precincts of significance to the city's Indigenous people. The sites within the precincts, and their accompanying stories and photographs, evoke Sydney's ancient past, and allow us all to celebrate the living Aboriginal culture of today. *Transmedial Narratology and Contemporary Media Culture* Jan-Noël Thon, 2016-06  
Narratives are everywhere--and since a significant part of contemporary media culture is defined by narrative forms, media studies need a genuinely transmedial narratology. Against this background, *Transmedial Narratology and Contemporary Media Culture* focuses on the intersubjective construction of storyworlds as well as on prototypical forms of narratorial and subjective representation. This book provides not

only a method for the analysis of salient transmedial strategies of narrative representation in contemporary films, comics, and video games but also a theoretical frame within which medium-specific approaches from literary and film narratology, from comics studies and game studies, and from various other strands of media and cultural studies may be applied to further our understanding of narratives across media.

**Virozone** Sarah Cole,2024-03-27 THE WORLD AS WE KNOW IT HAS BEEN RAVAGED BY VIOLENCE AND ENVIRONMENTAL DISASTER. Society has been split into exclusive zones, protecting these limited assets - Air, Water, Soil and Fire. Each zone trades what they can to survive. Life is difficult, particularly as a fifth zone, the Prestige Zone, takes what they like to ensure their privileged life may continue to thrive. But when sixteen-year-old Lawlie Pearce's mother is killed, it becomes clear that the tenuous peace between the zones is on the verge of unravelling. With a thirst for vengeance, Lawlie leaves AirZone to discover the truth and seek justice for her mother - even if she must bring down the biggest enemy of all, Sceptre, the leader of the Prestige Zone that dominates the world that is Virozone. I am congratulating the author, Sarah Cole, for such magnificent world building. To map out a believable living world out of nothing is something that shouldn't go unnoticed!! ... and wow, what an ending! Definitely giving this a 5 star rating and would suit readers who love YA dystopian books, and for those who have read The Hunger Games, there are elements there that will excite you. Pauline, Goodreads reviewer
