The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Music Marketing for the DIY Musician Bobby Borg,2014-08-01 (Music Pro Guide Books & DVDs). There has never been a greater need for practical DIY marketing advice from a musician who has been there and succeeded than now at a time when new technologies make it more possible than ever for musicians to attract attention independently and leverage their own careers, and record industry professionals look exclusively for developed artists who are already successful. Written by a professional musician for other musicians, Music Marketing for the DIY Musician is a proactive, practical, step-by-step guide to producing a fully integrated, customized, low-budget plan of attack for artists marketing their own music. In a conversational tone, it reveals a systematic business approach employing the same tools and techniques used by innovative top companies, while always encouraging musicians to stay true to their artistic integrity. It's the perfect blend of left-brain and right-brain marketing. This book is the culmination of the author's 25 years in the trenches as a musician and entrepreneur, and over a decade in academic and practical research involving thousands of independent artists and marketing experts from around the world. The goal is to help musical artists take control of their own destiny, save money and time, and eventually draw the full attention of top music industry professionals. It's ultimately about making music that matters and music that gets heard!

Insights on Reporting Sports in the Digital Age Roger Domeneghetti,2021-07-19 This first book in the Journalism Insights series examines the major practical and ethical challenges confronting contemporary sports journalists which have emerged from, or been exacerbated by, the use of digital and social media. Combining both quantitative and qualitative research and contributions from industry experts in sports reporting across Europe, America and Australia, the collection offers a valuable look at the digital sports reporting industry today. Issues discussed in the text include the ethical questions created by social media abuse received by sports journalists, the impact of social media on narratives about gender and race, and the 'silencing' of journalists over the issue of trans athletes, as well as the impact on 'traditional' aspects of sports journalism, such as the match report. The book features first-hand accounts from leading sports reporters and scholars about how these changes have affected the industry and sets out what 'best practice' looks like in this field today. This book will be a useful resource for scholars and students working in the fields of journalism, media, sports and communication, as well as for current sports journalism practitioners interested in the future of a changing industry.

Group Identities on French and British Television Michael Scriven,Emily Roberts,2003-03-01 Advances in audiovisual technology, most notably the advent of the popular usage of digital technology in the last few years, have altered the face of popular television. Thanks to cable, satellite and now digital technology, television broadcasts can reach an international audience. The reaction from cultural critics has been mixed. As the debate concerning the effects of new telecommunications and audiovisual technology continues unabated, this book examines the underlying hypothesis that collective allegiances are moving away from the national paradigm towards the global/local model and provides a balanced appraisal of the depiction of a select number of group identities on television in Britain and France.

10% Happier Dan Harris,2014-03-11 #1 New York Times Bestseller REVISED WITH NEW MATERIAL Winner of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.

Popular Representations of America in Non-American Media Endong, Floribert Patrick C.,2019-06-28 Much of what the world knows about the United States of America is constructed and spread through global media. One can hardly find a country where news events involving the U.S.A. do not attract media attention, controversy, or at least invoke some level of critical thought. Popular Representations of America in Non-American Media provides emerging research exploring how non-American media covers and represents the U.S.A. through a critical review that demonstrates how foreign media representations of the country have varied according to periods in history, political leadership, and current ideological and socio-cultural affinities. The publication also conversely examines Americans' perceptions of foreign media representations of their country. Featuring coverage on a broad range of topics such as neocolonialism, political science, and popular culture, this book is ideally designed for students, scholars, media specialists, policymakers, international relation experts, politicians, and other professionals seeking current research on different perspectives on non-American media's representation of the U.S.A. and Americans.

Dying to Be Me Anita Moorjani,2022-03-08 THE NEW YORK TIMES BESTSELLER! I had the choice to come back ... or not. I chose to return when I realized that 'heaven' is a state, not a place In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within this enhanced e-book, Anita recounts—in words and on video—stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. In Dying to Be Me, Anita Freely shares all she has learned about illness, healing, fear, being love, and the true magnificence of each and every human being!

Ten-Minute Transformation Chris Altrrock,2013-10-30 The average American spends about ten minutes per day in religious or spiritual activities. Do you believe you can experience a personal transformation if all you have is ten minutes a day? Or could these ten minutes be part of a more comprehensive plan for personal and global revolution? Could ten minutes be a mustard seed that God grows into something amazing? Pastor and author Chris Altrrock believes it can! Rather than complain about ten minutes being too insignificant for spiritual growth, Altrrock teaches practices to maximize that time for personal transformation and real social change. In only ten minutes a day over forty days, you'll learn a dozen spiritual disciplines to deepen your relationship with God. You'll also learn and see how God can use even the smallest amounts of time to change you and the world through your actions. Are you ready for ten minutes to actually make a difference?
