The Bird in the Waterfall Jerry Dennis, 2014-09-23 There is nothing in the universe like water. It is unique and beautiful and without it there could be no life on earth. Little wonder, then, that people have always expressed such awe, delight, and reverence for it. The Bird in the Waterfall is a celebration of the wonders of water and the creatures that live in it. While exploring waterfalls and artesian springs, ocean waves and tidal bores, whirligig beetles and torrent ducks, author Jerry Dennis and artist Glenn Wolff address age-old aquatic mysteries: Why do rivers meander? What are the sources of hot springs and geysers? What causes tsunamis and rogue waves? Why is water blue—and sometimes green, black, yellow, or red? Why do we gather to watch falling water and crashing surf? Why do we toss coins into fountains? At the heart of The Bird in the Waterfall is a profound appreciation for the magic, music, and poetry of water—and a passionate appeal for the protection of this most precious of the earth's resources. PRAISE: "A passionate appreciation for the magic, music, and poetry of water, and an appeal for the protection of this most precious of the earth's resources." —Natural Resources and Wildlife Magazine "Jerry Dennis is one of today's most readable and informative nature essayists, and his latest book, The Bird in the Waterfall, is a marvelous look at the natural history of oceans, rivers, and lakes. It ought to be required reading for anyone who loves the outdoors, angling, surfing, beachcombing, or birding." —Buffalo News "The Bird in the Waterfall is truly science for everyone. When you have finished reading it, you will not only know more, but you may become as charmed with water as Dennis is." —Earth Magazine "I can't think of anyone I know—angler, conservationist, scientific reader, curious kid—who wouldn't enjoy, and learn from, this unusual book. And from endpaper to endpaper, it's a visual delight, too." —Fly Rod and Reel Magazine "Nature writer Dennis conveys his deep feelings for all aspects of the aquatic realm...and parlays his fascination with the dynamics of bodies of water into a richly informative description of how lakes and rivers support myriad lifeforms." —Booklist

The Canadian Encyclopedia James H. Marsh, 1999 This edition of The Canadian Encyclopedia is the largest, most comprehensive book ever published in Canada for the general reader. It is COMPLETE: every aspect of Canada, from its rock formations to its rock bands, is represented here. It is UNABRIDGED: all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume. It has been EXPANDED: since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones; as a result, the text from 1988 has grown by 50% to over 4,000,000 words. It has been UPDATED: the researchers and contributors worked hard to make the information as current as possible. Other words apply to this extraordinary work of scholarship: AUTHORITATIVE, RELIABLE and READABLE. Every entry is compiled by an expert. Equally important, every entry is written for a Canadian reader, from the Canadian point of view. The finished work - many years in the making, and the equivalent of forty average-sized books - is an extraordinary storehouse of information about our country. This book deserves pride of place on the bookshelf in every Canadian Home. It is no accident that the cover of this book is based on the Canadian flag. For the proud truth is that this volume represents a great national achievement. From its formal inception in 1979, this encyclopedia has always represented a vote of faith in Canada; in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated. At the start of a new century and a new millennium, in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations, this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future. The statistics behind this volume are staggering. The opening sixty pages list the 250 Consultants, the roughly 4,000 Contributors (all experts in the field they describe) and the scores of researchers, editors, typesetters, proofreaders and others who contributed their skills to this massive project. The 2,640 pages incorporate over 10,000 articles and over 4,000,000 words, making it the largest - some might say the greatest - Canadian book ever published. There are, of course, many special features. These include a map of Canada, a special page comparing the key statistics of the 23 major Canadian cities, maps of our cities, a variety of tables and photographs, and finely detailed illustrations of our wildlife, not to mention the colourful, informative endpapers. But above all the book is encyclopedic - which the Canadian Oxford Dictionary describes as embracing all branches of learning. This means that (with rare exceptions) there is satisfaction for the reader who seeks information on any Canadian subject. From the first entry A mari usque ad mare - from sea to sea (which is Canada's motto, and a good description of this volume's range) to the Zouaves (who mustered in Quebec to fight for the beleaguered Papacy) there is the required summary of information, clearly and accurately presented. For the browser the constant variety of entries and the lure of regular cross-references will provide hours of fascination. The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge. Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known. Yet now Canada's finest scientists, academics and specialists have distilled their knowledge of our country between the covers of one volume. The result is a book for every Canadian who values learning, and values Canada.

World as Lover, World as Self: 30th Anniversary Edition Joanna Macy,2021-06-22 This overview of Joanna Macy's innovative work combines deep ecology, general systems theory, and the Buddha's teachings on interdependent co-arising. A blueprint for social change, World as Lover, World as Self shows how we can reverse the destructive attitudes that threaten our world, with concrete suggestions on how to address An Inconvenient Truth. The essays are based on the Buddha's teachings of Paticca samuppada (interdependent co-arising). Reduced to deceptively simple terms this says that everything in the world- every object, feeling, emotion, and action is influenced by a huge, all-inclusive web of factors. Any change in the condition of any one thing in this web affects everything else by virtue of interconnectedness. It makes World as Lover World as Self a quintessential guide for those readers who want to integrate their Buddhist practice with concerns for social issues like global warming. It also breaches the dualities that have haunted much of both Eastern and Western thought, namely the dichotomies between mind/body, humanity/nature, reason/emotion, self/world, science/spirituality. The premise is that self-centeredness, and modern individualisms are ultimately destructive for the environment. We are not individuals separate from the world. Instead we are always co-arising or co-creating the world, and we cannot escape the consequence of what we do to the environment. Joanna Macy presents a re-focusing on the beauty of the natural world as personally nourishing and replenishment as one way to move away from our self-centeredness. For this revised edition the author will be adding some chapters as well as removing others. The new ones will deal largely with her new work around the Great Turning that will add a somewhat more visionary, future-oriented, and strategic dimension to the book. World as Lover, World as Self shows us how to realize that the earth is an extension of ourselves and how to discover the knowledge, authority and courage to respond creatively to the crises of our time. Foreword Thich Nhat Hanh

Chinook Resilience Jon D. Daehnke,2017-11-01 The Chinook Indian Nation—whose ancestors lived along both shores of the lower Columbia River, as well as north and south along the Pacific coast at the river’s mouth—continue to reside near traditional lands. Because of its nonrecognized status, the Chinook Indian Nation often faces challenges in its efforts to claim and control cultural heritage and its own history and to assert a right to place on the Columbia River. Chinook Resilience is a collaborative ethnography of how the Chinook Indian Nation, whose land and heritage are under assault, continues to move forward and remain culturally strong and resilient. Jon Daehnke focuses on Chinook participation in archaeological projects and sites of public history as well as the tribe’s role in the revitalization of canoe culture in the Pacific Northwest. This lived and embodied enactment of heritage, one steeped in reciprocity and protocol rather than documentation and preservation of material objects, offers a tribally relevant, forward-looking, and decolonized approach for the cultural resilience and survival of the Chinook Indian Nation, even in the face of federal nonrecognition.
