Tartine Bread Chad Robertson, 2013-10-29 The Tartine Way – Not all bread is created equal The Bread Book ...the most beautiful bread book yet published... -- The New York Times, December 7, 2010 Tartine – A bread bible for the home or professional bread-maker, this is the book! It comes from Chad Robertson, a man many consider to be the best bread baker in the United States, and co-owner of San Francisco's Tartine Bakery. At 5 P.M., Chad Robertson's rugged, magnificent Tartine loaves are drawn from the oven. The bread at San Francisco's legendary Tartine Bakery sells out within an hour almost every day. Only a handful of bakers have learned the techniques Chad Robertson has developed: To Chad Robertson, bread is the foundation of a meal, the center of daily life, and each loaf tells the story of the baker who shaped it. Chad Robertson developed his unique bread over two decades of apprenticeship with the finest artisan bakers in France and the United States, as well as experimentation in his own ovens. Readers will be astonished at how elemental it is. Bread making the Tartine Way: Now it's your turn to make this bread with your own hands. Clear instructions and hundreds of step-by-step photos put you by Chad's side as he shows you how to make exceptional and elemental bread using just flour, water, and salt. If you liked Tartine All Day by Elisabeth Prueitt and Flour Water Salt Yeast by Ken Forkish, you'll love Tartine Bread!

Keto-Adapted Maria Emmerich, 2013-12-09 A ketogenic diet isn't something new that has been recently formulated; people have been on a ketogenic diet for virtually three million years in which our brains were nurtured and evolved. Now the human brain is not only shrinking, but brain atrophy is the norm as we age and get plagued with diseases such as dementia, Alzheimer's disease and Parkinson's disease. People mistakenly think that

they need to eat less and exercise more to create a calorie deficit in order to lose weight. This is not how diet and exercise helps with weight loss. A well-formulated keto-adapted diet along with proper exercise builds muscle and muscle builds mitochondria. It is in the mitochondria where fat is oxidized so you can keep your cells and liver insulin sensitized. Weight loss and health is about healthy mitochondria and about controlling hormones and specifically insulin. This is not a diet, it is a lifestyle. By eating this way, you will begin to heal your cells and will keep evolving your body into the happy and healthy person you want to be. This book is filled with the most impeccable nutrition information to fuel your cells. Maria's passion goes beyond explaining the 'why', she is a master in the kitchen and loves food. Her keto-adapted recipes at the end of the book tie all the nutrition together so you can become keto-adapted faster than ever.
