Can We Avoid Another Financial Crisis? Steve Keen, 2017-05-09 The Great Financial Crash had cataclysmic effects on the global economy, and took conventional economists completely by surprise. Many leading commentators declared shortly before the crisis that the magical recipe for eternal stability had been

found. Less than a year later, the biggest economic crisis since the Great Depression erupted. In this explosive book, Steve Keen, one of the very few economists who anticipated the crash, shows why the self-declared experts were wrong and how ever-rising levels of private debt make another financial crisis almost inevitable unless politicians tackle the real dynamics causing financial instability. He also identifies the economies that have become 'The Walking Dead of Debt', and those that are next in line – including Australia, Belgium, China, Canada and South Korea. A major intervention by a fearlessly iconoclastic figure, this book is essential reading for anyone who wants to understand the true nature of the global economic system.

From Soup to Superstar Kartik Shanker, 2015-09-01
'This extraordinary book sets a new benchmark for science writing in India.' - RAMACHANDRA GUHA
Tigers, elephants, lions and other large mammals have so far been central to India's conservation story. In spite of the country's vast coastline and millions being dependent on marine resources for their livelihoods, such species and habitats have been largely neglected in writings on wildlife. From Soup to Superstar provides the first comprehensive account of marine conservation in India, focusing on sea turtles, which are at once a fishery resource, a religious symbol and a conservation icon. Worshipped as Kurma, the incarnation of Vishnu, by several communities, these creatures have been part of folklore and mythology for over 2,000 years. Until the 1970s, there were large- and small-scale turtle fisheries in

Odisha and the Gulf of Mannar, while eggs and meat were consumed along the rest of the coast. Since then, several conservation programmes have been led in these regions by naturalists, scientists, activists and concerned citizens with diverse, often conflicting, approaches. Globally, attention has centred on the mass-nesting beaches in Odisha, where over 1,00,000 turtles may nest simultaneously. New threats have emerged and elicited responses at local, national and international levels. Bringing together a range of issues and actors that have affected the world of sea turtles, filled with fascinating insights into scientific research and human-animal ecologies, this is a definitive chronicle of the efforts that have been made to protect these mysterious creatures in the last fifty years.

Consumer Debt Study Herman Thomas

LaCrosse, United States. Bureau of Foreign and Domestic Commerce, 1935

A Feast of Vultures Josy Joseph, 2016-07-10 'Every day, millions of people -- the rich, the poor and the many foreign visitors -- are hunting for ways to get their business done in modern India. If they search in the right places and offer the appropriate price, there is always a facilitator who can get the job done. This book is a sneak preview of those searches, the middlemen who do those jobs, and the many opportunities that the fast-growing economy offers.' Josy Joseph draws upon two decades as an investigative journalist to expose a problem so pervasive that we do not have the words to speak of it. The story is big: that of treacherous business rivalries, of how some industrial houses practically own the country, of the shadowy men who run the nation's politics. The story is small: a village needs a road and a hospital, a graveyard needs a wall, people need toilets. A Feast of Vultures is an

unprecedented, multiple-level inquiry into modern India, and the picture it reveals is both explosive and frightening. Within these covers is unimpeachable evidence against some of the country's biggest business houses and political figures, and the reopening of major scandals that have shaped its political narratives. Through hard-nosed investigations and the meticulous gathering of documentary evidence, Joseph clinically examines and irrefutably documents the non-reportable. It is a troubling narrative, but also a call to action and a cry for change. A tour de force through the wildly beating heart of post-socialist India, the book is a must-read for anyone interested in understanding the large, unwieldy truth about this nation.
