*Twelve Years a Slave* Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Meaningful Flesh** Whitney A. Bauman, 2018 Religion is much queerer than we ever imagined. Nature is as well. These are the two basic insights that have led to this volume: the authors included here hope to queerly go where no thinkers have gone before. The combination of queer theory and religion has been happening for at least 25 years. People such as John Boswell began to examine the history of religious traditions with a queer eye, and soon after we had the indecent theology of Marcella Althaus Ried. Jay Johnston, one of the authors in this issue, is among those who have used the queer eye to interrogate authority within Christian theological traditions. At the same time, there have been many queer interrogations of nature, perhaps most notably in the works of Joan Roughgarden and Ann Fausto-Sterling, and more recently in the works of Catriona Sandilands and Timothy Morton (an author in this volume). However, the intersections of religion, nature, and queer theory have been largely left untouched. With the exception of Dan Spencer, who writes the introduction for this volume and is one of the early pioneers in this realm of thought with his book *Gay and Gaia* (Pilgrim Press, 1996), and the work of Greta Gaard in developing a queer ecofeminist thought, religion and nature, or religion and ecology, have largely ignored the realm of queer theory. In part, the blinders to queer theory on the part of eco-thinkers (religious or otherwise) are similar to the blinders eco-thinkers have when it comes to postmodern thought in general: namely, if there are no absolute foundations, how does one create an environmental ethic and a nature to save? For this reason and many others, this volume on religion, nature, and queer theory is groundbreaking. Though these essays span many different disciplines and themes, they are all held together by the triple focus on religion, nature, and queer theory. Each of these essays offers a unique contribution to the intersection of religion, nature, and queer theory, and all of them challenge strict boundaries proposed in religious rhetoric and many discourses surrounding nature. Carol Wayne White's essay draws from a queer reading of James Baldwin to develop an African American religious naturalism, which highlights humans as polyamorous bastards. Jacob Erickson's essay examines Isabella Rossellini's *Green Porno* and Martin Luther's work to develop an irreverent theology. Jay Johnston draws from personal relationships with his late dog, and Master/Pup fetish-play to blur the boundaries between humans and other animals, specifically within ethical and theological discourse. Whitney Bauman reflects on how the very processes of globalization and climate change queer our identities and call for a queer and versatile planetary ethic. Finally, Timothy Morton leads us through a reflection on queer green sex toys to challenge the ontology of agrologistics. Each of these essays in their own way is concerned with fleshing out more meaningful encounters with the planetary community. Without being too ambitious, we hope that these sets of essays will help to open up a new trajectory of conversations at the intersection of religion, nature, and queer theory.

*Pirates of Pensacola* Keith Thomson, 2005-04 The Cooke and Hood families have been at each other's throats since the Spanish Main days. The latest chapter in their piratic rivalry takes place in 2004, when an old treasure map turns up. None of this seems to matter to Morgan Cooke, a cowardly, landlubbing accountant entirely ignorant of his heritage until his estranged father, Isaac, in need of crewmen, kidnaps him and thrusts him into the fray. When Morgan wakes up on a boat in the middle of the Caribbean, he learns that piracy still flourishes, albeit with far more discretion than in the old days--pirates disguise their fast boats as shrimpers or tugs--but with no less

bloodshed. Judging even a shot at riches vastly preferable to a return to his lonely, fluorescent-lit work station existence, Morgan pierces his ear, dons the eye patch and peg leg, and set sail for glorious adventure.

Sissy Dreams: From Boyfriend to Girlfriend Paul Zante, Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

**Deleuze and Marx** Jain Dhruv Jain, 2019-07-31 Writings on Deleuze and Guattari's twin volumes, *Capitalism and Schizophrenia*, have often focused on questions about desire, body without organs, the schizophrenic etc. There have been a few notable exceptions that have attempted to articulate and expound upon the numerous political problems that Deleuze and Guattari attempt to resolve through analyses of concepts such as de-/re-territorialization, coding and re-coding etc, however a specter is haunting Deleuze and Guattari that has yet to be explained, articulated and debated; the specter of Karl Marx. This volume attempts to analyze the relationship between Deleuze (and Guattari) and Marx and their respective works. This volume is an intervention into the fields of Deleuze Studies, Marxist and Marxian philosophy and political economy, and critiques of capitalism through an examination of the relationship between Deleuze and Marx. Themes that will be covered in this volume include hegemony and theories of imperialism, the role of philosophy in changing the world, surplus, tensions between the virtual and the potential, ideology and noology, modes of production, and the very nature of anti-capitalist politics in Deleuze's work. This volume will be of interest to people interested in Deleuze Studies who are interested in questions of politics and critiques of capitalism, Marxist theory and philosophy and people interested in political economy. Key Features: \*offers new perspectives on Deleuze's early work \*illuminates new connections between Deleuze's and Marx's work \*includes a critical re-reading of Deleuze's work \*foregrounds a critique of Capitalism in Deleuze's work Contributors include: Bruno Bosteels, Alberto Toscano, Jason Read, Jeremy Gilbert Simon Choat and Aidan Tynan.

Redesigning Financial Regulation Justin O'Brien, 2007 At the height of the 1990s boom, Jack Grubman, one of the most successful analysts in Wall Street proclaimed 'what used to be conflicts of interest are now synergies'. This myopia contributed dramatically to the elevation of a culture in which greed was deified, oversight denigrated and misfeasance justified. Since the fall of the markets and the implosion of confidence in the American corporate business model, one man has proved instrumental in deconstructing the rhetoric of the 1990s: Eliot Spitzer, the combative Attorney General of New York. In the process, his innovative application of state law has reconfigured the governance of Wall Street. Over the past three years the pursuit of transparency and accountability in the structure of the markets has propelled Spitzer to the forefront of regulatory policy. His investigations into tainted analyst research, the mutual funds industry, the governance of the New York Stock Exchange and the insurance industry have focused attention not just on corrupted individuals but also the complicity of the financial structure itself. Spitzer exploited the inherent conflicts of interest to the full, forcing regulators to adopt a much more proactive approach and creating a national platform for his own wider political ambitions. Now holding the Democratic nomination for the Governorship of New York, Spitzer has begun a path for higher national office. This groundbreaking book features exclusive access with many of the key actors in these changes to the governance of Wall Street. It examines how Eliot Spitzer exploited gaps in the regulatory framework to capture the corporate reform agenda and explores the implications of his actions on policy formation and recalibration. Key incidents include: changing the terms of reference governing analyst research; the defenestration of Dick Grasso's tenure over the NYSE (which is now being heard in state court in New York); and the battles for control between the former Chairman of the Securities Exchange Commission, Harvey Pitt, and Spitzer. The book details not only the contested, contingent and interdependent connections between the American political and financial systems but reveals how Spitzer's manipulation of those connections have proved instrumental in enhancing his own wider political ambitions.
