Beautiful and Terrible Things Christian M. M. Brady, 2020-09-01 Bible scholar Christian Brady, an expert on Old Testament lament, was as prepared as a person could be for the death of a child—which is to say, not nearly well enough. When his eight-year-old son died suddenly from a fast-moving blood infection, Brady heard the typical platitudes about accepting God's will and knew that quiet acceptance was not the only godly way to grieve. With deep faith, knowledge of Scripture, and the wisdom that comes only from experience, Brady guides readers grieving losses and setbacks of all kinds in voicing their lament to God, reflecting on the nature of human existence, and persevering in hope. Brady finds that rather than an image of God managing every event and action in our lives, the biblical account describes the very real world in which we all live, a world full of hardship and calamity that often comes unbidden and unmerited. Yet, it also is a world into which God lovingly intrudes to bring comfort, peace, and grace.

The Lost Art of Dying L.S. Dugdale, 2020-07-07 A Columbia University physician comes across a popular medieval text on dying well written after the horror of the Black Plague and discovers ancient wisdom for rethinking death and gaining insight today on how we can learn the lost art of dying well in this wise, clear-eyed book that is as compelling and soulful as *Being Mortal*, *When Breath Becomes Air*, and *Smoke Gets in Your Eyes*. As a specialist in both medical ethics and the treatment of older patients, Dr. L. S. Dugdale knows a great deal about the end of life. Far too many of us die poorly, she argues. Our culture has overly medicalized death: dying is often institutional and sterile, prolonged by unnecessary resuscitations and other intrusive interventions. We are not going gently into that good night—our reliance on modern medicine can actually prolong suffering and strip us of our dignity. Yet our lives do not have to end this way. Centuries ago, in the wake of the Black Plague, a text was published offering advice to help the living prepare for a good death. Written during the late Middle Ages, *ars moriendi*—The Art of Dying—made clear that to die well, one first had to live well and described what practices best help us prepare. When Dugdale discovered this Medieval book, it was a revelation. Inspired by its holistic approach to the final stage we must all one day face, she draws from this forgotten work, combining its wisdom with the knowledge she has gleaned from her long medical career. The *Lost Art of Dying* is a twenty-first century *ars moriendi*, filled with much-needed insight and thoughtful guidance that will change our perceptions. By recovering our sense of finitude, confronting our fears, accepting how our bodies age, developing meaningful rituals, and involving our communities in end-of-life care, we can discover what it means to both live and die well. And like the original *ars moriendi*, *The Lost Art of Dying* includes nine black-and-white drawings from artist Michael W. Dugger. Dr. Dugdale offers a hopeful perspective on death and dying as she shows us how to adapt the wisdom from the past to our lives today. *The Lost Art of Dying* is a vital, affecting book that reconsiders death, death culture, and how we can transform how we live each day, including our last.
