Electronic Access Control Thomas L. Norman,2011-09-26 Electronic Access Control introduces the fundamentals of electronic access control through clear, well-illustrated explanations. Access Control Systems are difficult to learn and even harder to master due to the different ways in which manufacturers approach the subject and the myriad complications associated with doors, door frames, hardware, and electrified locks. This book consolidates this information, covering a comprehensive yet easy-to-read list of subjects that every Access Control System Designer, Installer, Maintenance Tech or Project Manager needs to know in order to develop quality and profitable Alarm/Access Control System installations. Within these pages, Thomas L. Norman – a master at electronic security and risk management consulting and author of the industry reference manual for the design of Integrated Security Systems – describes the full range of EAC devices (credentials, readers, locks, sensors, wiring, and computers), showing how they work, and how they are installed. A comprehensive introduction to all aspects of electronic access control Provides information in short bursts with ample illustrations Each chapter begins with outline of chapter contents and ends with a quiz May be used for self-study, or as a professional reference guide

Configuring Internal Controls for Software as a Service Chong Ee,2018-09-12 This book taps into an inherent paradox: with the ease of reliance on external, cloud providers to provide robust functionality and regular enhancements comes, as their very own audited service organization control (SOC) reports are quick to point out, the need for client organizations to devise and sustain a system of effective internal controls. By addressing the practitioner in the field, it provides tangible, cost effective and thus pragmatic means to mitigate key risks whilst leveraging built-in cloud capabilities and overarching principles of effective system design.

How to Account for Sustainability Laura Musikanski,2017-09-08 Learn how to measure, manage and account for sustainability in your business in clear, simple and feasible steps.This book takes you from concept to innovation and back to action items for all aspects of sustainability. Each chapter has four sections: (1) a specific description of sustainability challenges, (2) an example of a business making a profit by sustainability problem, (3) an exercise challenging the reader to identify business solutions and (4) clear, simple takeaways.The book is structured around the world's most accepted guidelines for sustainability reporting, the Global Reporting Initiative.

The CIA's Greatest Covert Operation David H. Sharp,2012-04-04 March 1968: three miles below the stormy surface of the North Pacific, a Soviet submarine lay silent as a tomb-its crew dead, its payload of nuclear missiles, once directed toward strategic targets in Hawaii, inoperable. No longer a real threat, the sub still presented an alluring target and it was not long before the CIA answered its siren call—even at the risk of igniting World War III. Project AZORIAN—the monumentally audacious six-year mission to recover the sub and learn its secrets—has been celebrated within the CIA as its greatest covert operation and hailed by the American Society of Mechanical Engineers as the twentieth century's greatest marine engineering feat. While previous accounts have offered beguiling glimpses, none have had significant access to CIA personnel or documents. Now David Sharp, the mission's Director of Recovery Systems, draws upon his own recollections and personal records, ship's logs, declassified documents, and conversations with team members to shine a bright light on this remarkable but still little understood enterprise. Sharp reveals how the CIA conceived, organized, and conducted AZORIAN, including recruiting the legendary Howard Hughes to provide the ocean mining cover story. He takes readers onto and beneath the high seas to show the problems faced by the crew during the operation, including potential Soviet intervention and tense moments when the recovery ship itself was in danger of breaking up. He also puts a human face on key players like Carl Duckett, the head of the CIA's Science and Technology Directorate; John Parangosky, AZORIAN's program manager; John Graham, designer of the Hughes Glomar Explorer; Curtis Crooke of Global Marine Development, co-creator of the grunt lift recovery concept; and Oscar Ott Schick, manager of the Lockheed-built capture vehicle and submersible barge. A mammoth undertaking worthy of the most dramatic and spell-binding espionage fiction, Project AZORIAN harnessed American imagination and ingenuity at their highest levels. Featuring dozens of

previously classified photos, Sharp's chronicle of that amazing operation plunges readers deep into the darkest shadows of the Cold War to produce the definitive account of an amazing mission.

The Palgrave Encyclopedia of Interest Groups, Lobbying and Public Affairs Phil Harris,Alberto Bitonti,Craig S. Fleisher,Anne Skorkjær Binderkrantz,2022-06-20 The growing need for a concise and comprehensive overview of the world of interest groups, lobbying, and public affairs called for a compendium of existing research, key theories, concepts, and case studies. This project is the first transnational encyclopedia to offer such an interdisciplinary and wide overview of these topics, including perspectives on public relations, crisis management, communication studies, as well as political science, political marketing, and policy studies. It is an interdisciplinary work, which involved an extraordinary pool of contributors made up of leading scholars and practitioners from all around the globe; it is a live and evolving project focused on drawing together grounded international knowledge for our diverse and developing world. The 200+ entries of the Palgrave Encyclopedia of Interest Groups, Lobbying and Public Affairs (to be found as a live reference work online here, and in two print volumes in 2022) address these research avenues, tackling a growing demand for a comprehensive international reference work regarding key global sectors and policymaking structures, looking beyond the traditional markets of Europe and North America to incorporate practice and research from Asia, Africa, Oceania, and Latin America. This encyclopedia acts as a synthesis of existing research, and aims to aid academics, students, and practitioners navigate their relevant fields around the globe.

Rabin and Israel's National Security Efraim Inbar,1999-06-17 For more than forty years Yitzhak Rabin played a critical role in shaping Israeli national security policy and military doctrine. He began as a soldier in the Palmach, the elite underground unit of the Jewish community in Palestine, served in the 1948 War of Independence, and ultimately became chief of staff of the Israel Defense Force (IDF), defense minister in several governments, ambassador to the United States, and, twice, prime minister. As chief of staff, Rabin led the IDF to its triumph in the 1967 Six Day War. He was assassinated in 1995 as prime minister as he left a peace rally. Drawing on unpublished materials and interviews with important sources, including Rabin himself, Efraim Inbar's work offers a systematic study of Rabin's strategic thinking and his policies. Topics include the evolution of Rabin's thinking, his contributions to IDF military buildup, his stress on Israel's relationship to the United States, his attitudes toward the use of force, and his approach to Israel's nuclear status in the Middle East. Inbar's conclusion evaluates Rabin's contribution to Israel's national security and assesses Rabin's personal transition from warrior to peace maker. Because of Rabin's crucial role in Israel's defense establishment at important junctures in its history, this book provides an important view into the security challenges Israel has faced and how the country has responded over four decades.
