David Yarrow Photography David Yarrow, 2019-10-01 The must-have photography monograph of the year, this lavish oversized volume celebrates David Yarrow's unparalleled wildlife imagery. For more than two decades, legendary British photographer David Yarrow has been putting himself in harm's way to capture immersive and evocative photography of the world's most revered and endangered species. With his images heightening awareness of those species and also raising huge sums for charity and conservation, he is one of the most relevant photographers in the world today. Featuring Yarrow's 150 most iconic photographs, this book offers a truly unmatched view of some of the world's most compelling animals. The collection of stunning images, paired with Yarrow's first-person contextual narrative, offers insight into a man who will not accept second best in his relentless pursuit of excellence. David Yarrow Photography offers a balanced retrospective of his spectacular work in the wild and his staged storytelling work, which has earned him wide acclaim in the fine-art market. Yarrow rarely just takes pictures--he almost always makes them. This approach sets him apart

from others in the field. Yarrow's work will awaken our collective conscience, and--true to form--he plans to donate all the royalties from this book to conservation

The Smithsonian's History of America in 101 Objects Richard Kurin, 2016-10-25 The Smithsonian Institution is America's largest, most important, and most beloved repository for the objects that define our common heritage. Now Under Secretary for Art, History, and Culture Richard Kurin, aided by a team of top Smithsonian curators and scholars, has assembled a literary exhibition of 101 objects from across the Smithsonian's museums that together offer a marvelous new perspective on the history of the United States. Ranging from the earliest years of the pre-Columbian continent to the digital age, and from the American Revolution to Vietnam, each entry pairs the fascinating history surrounding each object with the story of its creation or discovery and the place it has come to occupy in our national memory. Kurin sheds remarkable new light on objects we think we know well, from Lincoln's hat to Dorothy's ruby slippers and Julia Child's kitchen, including the often astonishing tales of how each made its way into the collections of the Smithsonian. Other objects will be eye-opening new

discoveries for many, but no less evocative of the most poignant and important moments of the American experience. Some objects, such as Harriet Tubman's hymnal, Sitting Bull's ledger, Cesar Chavez's union jacket, and the Enola Gay bomber, tell difficult stories from the nation's history, and inspire controversies when exhibited at the Smithsonian. Others, from George Washington's sword to the space shuttle Discovery, celebrate the richness and vitality of the American spirit. In Kurin's hands, each object comes to vivid life, providing a tactile connection to American history. Beautifully designed and illustrated with color photographs throughout, *The Smithsonian's History of America in 101 Objects* is a rich and fascinating journey through America's collective memory, and a beautiful object in its own right.

The Temporary European Cameron Hewitt, 2022-02 Write guidebooks, make travel TV, lead bus tours? Cameron Hewitt has been Rick Steves' right hand for more than 20 years, doing just that. *The Temporary European* is a collection of vivid, entertaining travel tales from across Europe. Cameron zips you into his backpack for engaging and inspiring experiences: sampling spleen sandwiches at a

Palermo street market; hiking alone with the cows high in the Swiss Alps; simmering in Budapest's thermal baths; trekking across an English moor to a stone circle; hand-rolling pasta at a Tuscan agriturismo; shivering through Highland games in a soggy Scottish village; and much more. Along the way, Cameron introduces us to his favorite Europeans. In Mostar, Alma demonstrates how Bosnian coffee isn't just a drink, but a social ritual. In France, Mathilde explains that the true mastery of a fromager isn't making cheese, but aging it. In Spain, Fran proudly eats acorns, but never corn on the cob. While personal, the stories also tap into the universal joy of travel. Cameron's travel motto (inspired by a globetrotting auntie) is Jams Are Fun--the fondest memories arrive when your best-laid plans go sideways. And he encourages travelers to stow their phones and guidebooks, slow down, and savor those magic moments that arrive between stops on a busy itinerary. The stories are packed with inspiration and insights for your next trip, including how to find the best gelato in Italy, how to select the best produce at a Provençal market, how to navigate Spain's confusing tapas scene, and how to survive the experience of driving in Sicily (hint: just go numb). And you'll get a reality check for

every traveler's dream job: researching and writing guidebooks; guiding busloads of Americans on tours around Europe; scouting and producing a travel TV show; and working with Rick Steves and his merry band of travelers. It's a candid account of how the sausage gets made in the travel business--told with warts-and-all honesty and a sense of humor. For Rick Steves fans, or anyone who loves Europe, *The Temporary European* is inspiring, insightful, and fun.

Il Bel Centro Michelle Damiani,2020-08-09 A witty and warm-hearted memoir of abandoning fast-paced American days in favor of discovering the Italian secrets of food, community, and life. Moving across the globe meant Michelle Damiani soon found herself untangling Italian customs, delighting in glorious regional cuisine (recipes included), and creating lasting friendships. From grandmothers eager to teach the ancient art of pasta making, to bakers tossing bread into fiery ovens with a song, to butchers extolling the benefits of pork fat, *Il Bel Centro* is rich with captivating characters and cultural insights. Throw in clinking glasses of Umbrian red with the local communists and a village all-nighter

decorating the cobblestone streets with flower petals; as well as embarrassing language minefields and a serious summons to the mayor's office, and you have all the ingredients for a spellbinding travel tale. Exquisitely observed, *Il Bel Centro* is an intimate celebration of small town Italy, as well as a thoughtful look at raising a family in a new culture and a fascinating story of finding a home. Ultimately though, this is a story about how travel can change you when you're ready to let it. With laugh-out-loud situations and wanderlust-inspiring storytelling, *Il Bel Centro* is a joyous and life-affirming read that will have readers rushing to renew their passports. "This is one of the most beautiful book I've ever read." "I absolutely couldn't get enough of this book." "This book made me want to pack my bags." "I loved, loved this book. Fabulously written, engaging, and entertaining." "A magical read."

Run Wild Boff Whalley, 2012-07-05 Boff Whalley just likes running - the places it takes him, the moments of exhilaration and snapshots of natural beauty that he adds to his mental album. This is not a man who signs up to big city marathons and pounds the pavements. With his down to earth voice and a great sense of humour, Boff writes about how running brings a real world of discovery and

adventure, from reaching the top of a mountain with the sun at your back and moon in front creating two shadows to running up Mt Fuji on a break from work. For Boff, running is about freedom, experiencing of the world, your place in it and generally just enjoying yourself. Running is a way to get back to that simplest of relationships - the one between our feet and the earth.

Current Ornithology Volume 17 Charles F. Thompson,2010-09-09 Current Ornithology publishes authoritative, up-to-date, scholarly reviews of topics selected from the full range of current research in avian biology. Topics cover the spectrum from the molecular level of organization to population biology and community ecology. The series seeks especially to review (1) fields in which an abundant recent literature will benefit from synthesis and organization, or (2) newly emerging fields that are gaining recognition as the result of recent discoveries or shifts in perspective, or (3) fields in which students of vertebrates may benefit from comparisons of birds with other classes. All chapters are invited, and authors are chosen for their leadership in the subjects under review.

Global Nomads Anthony D'Andrea,2007-01-24 Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony

D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, *Global Nomads* develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Introduction to Paleobiology and the Fossil Record Michael J. Benton, David A. T.

Harper,2013-04-25 This book presents a comprehensive overview of the science of the history of life. Paleobiologists bring many analytical tools to bear in interpreting the fossil record and the book introduces the latest techniques, from multivariate investigations of biogeography and biostratigraphy to engineering analysis of dinosaur skulls, and from homeobox genes to cladistics. All the well-known fossil groups are included, including microfossils and invertebrates, but an important feature is the thorough coverage of plants, vertebrates and trace fossils together with discussion of the origins of both life and the metazoans. All key related subjects are introduced, such as systematics, ecology, evolution and development, stratigraphy and their roles in understanding where life came from and how it evolved and diversified. Unique features of the book are the numerous case studies from current research that lead students to the primary literature, analytical and mathematical explanations and tools, together with associated problem sets and practical schedules for instructors and students. “..any serious student of geology who does not pick this book off the shelf will be putting themselves at a huge disadvantage. The material may be complex, but the text is extremely accessible and well

organized, and the book ought to be essential reading for palaeontologists at undergraduate, postgraduate and more advanced levels—both in Britain as well as in North America.” Falcon-Lang, H., Proc. Geol. Assoc. 2010 “...this is an excellent introduction to palaeontology in general. It is well structured, accessibly written and pleasantly informativeI would recommend this as a standard reference text to all my students without hesitation.” David Norman Geol Mag 2010 Companion website This book includes a companion website at: www.blackwellpublishing.com/paleobiology The website includes: · An ongoing database of additional Practical’s prepared by the authors · Figures from the text for downloading · Useful links for each chapter · Updates from the authors

The Brand Innovation Manifesto John Grant, 2006-05-12 The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the

vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of *The New Marketing Manifesto*, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In *The Brand Innovation Manifesto*, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.
