Historian's Guide to Early British Maps Helen Wallis, Anita McConnell, 1995-04-06 Great Britain and Ireland enjoy a rich cartographic heritage, yet historians have not made full use of early maps in their writings and research. This is partly due to a lack of information about exactly which maps are available. With the publication of this volume from the Royal Historical Society, we now have a comprehensive guide to the early maps of Great Britain. The book is divided into two parts: part one describes the history and purpose of maps in a series of short essays on the early mapping of the British Isles; part two comprises a guide to the collections, national and regional. Now available from Cambridge University Press, this volume provides an essential reference tool for anyone requiring to access maps of the British Isles dating back to the medieval period and beyond.

Shakespeare's Globe Rebuilt J. R. Mulryne, Margaret Shewring, Andrew Gurr, 1997-06-12 The rebuilding of the Globe theatre (1599-1613) on London's Bankside, a few yards from the site of the playhouse in which many of Shakespeare's plays were first performed, must rank as one of the most imaginative enterprises of recent decades. It has aroused intense interest among scholars and the general public worldwide. This book offers a fully illustrated account of the research that has gone into the Globe reconstruction, drawing on the work of leading scholars, theatre people and craftsmen to provide an authoritative view of the twenty years of research and the hundreds of practical decisions entailed. Documents of the period are explored afresh; the techniques of timber-framed building and the decorative practices of Elizabethan craftsmen explained; and all of this reconciled with the requirements of the actors and restrictions of modern architectural design. The result is a book that will fascinate scholarly readers and laymen alike.

Nomadic and Indigenous Spaces Judith Miggelbrink, Joachim Otto Habeck, Nuccio Mazzullo, Peter Koch, 2016-05-06 This volume is devoted to aspects of space that have thus far been largely unexplored. How space is perceived and cognised has been discussed from different stances, but there are few analyses of nomadic approaches to spatiality. Nor is there a sufficient number of studies on indigenous interpretations of space, despite the importance of territory and place in definitions of indigeneity. At the intersection of geography and anthropology, the authors of this volume combine general reflections on spatiality with case studies from the Circumpolar North and other nomadic settings. Spatial perceptions and practices have been profoundly transformed by new technologies as well as by new modes of social and political interaction. How do these changes play out in the everyday lives, identifications and political projects of nomadic and indigenous people? This question has been broached from two seemingly divergent stances: spatial cognition, on the one hand, and production of space, on the other. Bringing these two approaches together, this volume re-aligns the different strings of scholarship on spatiality, making them applicable and relevant for indigenous and nomadic conceptualizations of space, place and territory.

An East End Legacy Colin Holmes, Anne J Kershner, 2017-08-15 An East End Legacy is a memorial volume for William J Fishman, whose seminal works on the East End of London in the late nineteenth century have served as a vital starting point for much of the later work on the various complex web of relations in that quarter of the capital. A variety of leading scholars utilise the insight of Fishman's work to present a wide range of insights into the historical characters and events of the East End. The book's themes include local politics; anti-alienism, anti-Semitism and war; and culture and society. In pursuing these topics, the volume examines in great depth the social, political, religious and cultural changes that have taken place in the area over the past 120 years, many of which remain both significant and relevant. In addition, it illustrates East London's links with other parts of the world including Europe and America and those territories beyond the oceans. This book will prove valuable reading for researchers and readers interested in Victorian and twentieth century British history, politics and culture.

Locating Localism Jane Wills, 2016-07-12 In the wake of many decades of increasing centralization, localism has been making a decided comeback in recent years. This book explores the development of localism as a new mode of statecraft and its implications for the everyday practice of citizenship. Jane Wills highlights the importance of civic infrastructure to effective engagement of citizens in local decision making, looks at the development of community organizing, neighborhood planning, and community councils, and positions this turn to the local in relationship to the longer geopolitical history of the British state.

Postcolonial London Michael Koehler, 2009-07 Seminar paper from the year 2006 in the subject English Language and Literature Studies - Literature, grade: 1, University of Marburg (Institut für Anglistik und Amerikanistik), course: Postmodern and/or Postcolonial: Contemporary Writing from Britain and the Commonwealth, language: English, abstract: Zadie Smith's novel *White Teeth* deals with families and generations from diverse ethnic backgrounds; and in the four main chapters Archie 1974, 1945, Samad 1984, 1857, Irie 1990, 1907, and Magid, Millat and Marcus 1992, 1999, she approaches them from several angles. As a result, there has been a discussion on who is to be treated as the central character in this novel. One possible answer to this is offered by Nina Shen Rastogi: The main character in *White Teeth* isn't a character in any traditional sense - it's the city of London itself. Smith's goal is less to paint a portrait of any particular character than it is to create a large-scale character sketch of a particular place and a particular time. *White Teeth* is about the foibles of a community of near-strangers and almost-friends as it collectively stumbles towards an uncertain future. The paper will investigate this approach by dealing with London as it is depicted in this postcolonial novel. After a working definition on the diversely discussed notion of postcolonialism (I.1), there will be a closer look on London, both as a physical location (I.2.a) and a literary region (I.2.b). The main issues will be the history of immigration, facts about multiculturalism today, and a brief look on how the colonial legacy has been depicted in postcolonial literature in London. A conclusion (I.3) will summarize the results and present some main questions for the analysis of *White Teeth* (II). Here, the paper will take a look on the role of the characters interacting with each other and on how they compromise between their cultural legacy and London's society (II.1). This will be the major part of the analysis. In two sho
