Not only will you save tons of money, but you'll also make environmentally sustainable pieces that are solidly built, using real materials like metal, wood, concrete, and other recycled ready-mades. The projects in this book don't require special skills, prior experience, or even a garage full of tools. You'll be walked step-by-step through the process of making furniture, from where to buy the materials (or where to scavenge) to how to make the most of the tools you own.

Residential Planning and Design Jeannie Ireland,2015-07-09 This comprehensive text introduces the reader to the entire process of planning residential interiors. Extensive full-color photos and diagrams augment the text to explain what an interior designer should know to work with other professionals, such as architects, electricians, and plumbers, to meet clients' housing needs. The focus on contemporary American housing trends is enriched with references to interiors from the past and from other countries.

A Bunk Bed, a Banana Tree and a Dog Mary-Ellen Stroup,2021-03-16 Never intended for anyone's eyes except parents, these letters are now compiled by the author for her adult children to read and relive the life they loved growing up in Zaire, Africa (Democratic Republic of Congo). Stored by her mother-in-law in old film boxes for three decades, they serve as a record of daily life in a family learning to survive and thrive and do ministry in a developing country. Daily water and electricity and regular mail became luxuries to celebrate in prayer and praise. Often considered by others to be a unique life, in reading you may encounter the unique, but guaranteed are also some boring details that were not omitted in the copying process so the children would understand what life involved for their parents. Whether unique, boring or difficult, these were deemed a privilege by the author and her husband who regard themselves as simply obedient to a call to that life out of their deep love for Jesus, their Lord and Savior who loved them and gave his life for them.

Simple Matters Erin Boyle,2016-01-12 More than a decluttering guide, this book "speaks to the heart and soul of the minimalist lifestyle . . . a must-have manual for serenity in the modern world!" (Anne Sage, author of Sage Living). For anyone looking to declutter, organize, and simplify, author Erin Boyle shares practical guidance and personal insights on small-space living and conscious consumption. At once pragmatic and philosophical, Simple Matters is an essential manual for anyone who wants to bring more purpose and sustainability to their daily lives. Boyle demonstrates how the benefits of "living small" are accessible to us all—whether we're renting a tiny apartment or purchasing a three-story house. Filled with personal essays, projects, and helpful advice on how to be inventive and resourceful in a tight space, Simple Matters shows that living simply is about making do with less and ending up with more: more free time, more time with loved ones, more savings, and more things of beauty.

Life Unstyled Emily Henson,2021-04-13 We are bombarded by perfect interiors, images that aren't attainable because they have been styled to the point where they bear no resemblance to reality. These interiors may be stunning, but they aren't an honest reflection of how we really live. Life Unstyled is about taking inspiration from real homes that are beautiful, creative and inspiring but at the same time a little rough around the edges, with signs of everyday life evident throughout.

The first section, 'Homes Unstyled', sets out Emily's manifesto for creating a stylish home that is beautiful but lived in. A Home is Never Done advocates allowing your space to evolve gradually so it is an ever-changing expression of your tastes and interests. Work with What You've Got suggests ways to make the most of the home you have rather than yearning for unattainable perfection. Signs of Life offers ideas for wrangling papers, clutter and other stuff. Creative Clutter tackles collections and displays, while Break the Rules rejects style diktats and shows how individuality can bring a home to life. The second section, 'People Live Here', visits real-life homes that are definitely not perfect yet display incredible style and creativity and reflect their owners' needs, tastes and style. And throughout the book, quick fixes, DIY makes and 'Every Home Should Have...' boxes offer creative solutions with unique results.

Awareness Christophe Lamiot Enos, 2017 This book should be read as a viaticum, a guide, planting along the road of life what Henri Michaux called "corner posts." The author recalls "viaticum books" (from the Bible to Gertrude Stein, Jean Giono), and his vows—"gathering of provisions"—call for the publication of such books. (. . .) Thierry Roger

Housing, Homelessness, and Social Policy in the Urban North Julia Christensen, Sally Carraher, Travis Hedwig, Steven Arnfjord, 2024-01-31 Housing, Homelessness, and Social Policy in the Urban North brings together leading scholars on northern urban housing across the Canadian North, Alaska, and Greenland. Through various case studies, the contributors examine the ways in which housing insecurity and homelessness provide a critical lens on the social dimensions of northern urbanization. They also present key considerations in the development of effective and sustainable social policy for these areas. The book kickstarts a conversation between multiple stakeholders from different cultural and national regions across the North American north. It asks key questions including these: What are the common problems of, and responses to, housing

insecurity and homelessness across these northern regions? Is a single definition of “homelessness” even possible, or desirable? And if not, can a shared language around how to end the housing crisis and homelessness in our northern regions still occur? The contributors explore how experiences of northern towns and cities inform an overall understanding of urban forms and processes in the contemporary world, and speak directly to the emerging body of literature on cities. Highlighting key limitations to federal, state, and provincial policy, Housing, Homelessness, and Social Policy in the Urban North raises important implications for developing policy that is responsive to northern realities.

In This House, We Will Giggle Courtney DeFeo, 2014-10-07 What do indoor picnics and funny face contests have to do with loving Jesus? More than you realize! As a mom in the throes of parenting, Courtney DeFeo believes that instilling virtues in children starts with laughter, not lecture. That perspective propelled her to create this idea-packed book, in which she offers motivating reflections, real-life stories, and a sandbox full of inventive ways to help you turn your kids’ hearts toward God. Each chapter focuses on one virtue that is key for developing your child’s character. Along with insights into how this virtue plays out in the nitty-gritty of life, Courtney includes a memory verse, activity ideas, and discussion questions to reinforce that virtue throughout the month. Here you’ll find a full year of ways to draw your children closer to God through delightful antics like Family Olympics, One Fancy Feast, and Light ‘Em Up. In This House, We Will Giggle shows you how to capture the hearts of your children through fun—so that they experience the goodness of Christ, the joy of following Him, and the difference they can make in the lives of others. Head Case Cole Cohen, 2015-05-19 A spirited, wry, and utterly original memoir about one woman's struggle to make her way and set up a life after doctors discover a hole the size of a lemon in her brain. The summer before she was set to head out-of-state to pursue her MFA, twenty-six-year-old Cole Cohen submitted herself to a battery of tests. For as long as she could remember, she'd struggled with a series of learning disabilities that made it nearly impossible to judge time and space—standing at a cross walk, she couldn't tell you if an oncoming car would arrive in ten seconds or thirty; if you asked her to let you know when ten minutes had passed, she might notify you in a minute or an hour. These symptoms had always kept her from getting a driver's license, which she wanted to have for grad school. Instead of leaving the doctor's office with permission to drive, she left with a shocking diagnosis—doctors had found a large hole in her brain responsible for her life-long struggles. Because there aren't established tools to rely on in the wake of this unprecedented and mysterious diagnosis, Cole and her doctors and family create them, and discover firsthand how best to navigate the unique world that Cole lives in. Told without an ounce of self-pity and plenty of charm and wit, *Head Case* is ultimately a story of triumph, as we watch this passionate, loveable, and unsinkable young woman chart a path for herself.

Stepped Care 2.0: A Paradigm Shift in Mental Health Peter Cornish, 2020-06-13 This book is a primer on Stepped Care 2.0. It is the first book in a series of three. This primer addresses the increased demand for mental health care by supporting stakeholders (help-seekers, providers, and policy-makers) to collaborate in enhancing care outcomes through work that is both more meaningful and sustainable. Our current mental health system is organized to offer highly intensive psychiatric and psychological care. While undoubtedly effective, demand far exceeds the supply for such specialized programming. Many people seeking to improve their mental health do not need psychiatric medication or sophisticated psychotherapy. A typical help seeker needs basic support. For knee pain, a nurse or physician might first recommend icing and resting the knee, working to achieve a healthy weight, and introducing low impact exercise before considering specialist care. Unfortunately, there is no parallel continuum of care for mental health and wellness. As a result, a person seeking the most basic support must line up and wait for the specialist along with those who may have very severe and/or complex needs. Why are there no lower intensity options? One reason is fear and stigma. A thorough assessment by a specialist is considered best practice. After all, what if we miss signs of suicide or potential harm to others? A reasonable question on the surface; however, the premise is flawed. First, the risk of suicide, or threat to others, for those already seeking care, is low. Second, our technical capacity to predict on these threats is virtually nil. Finally, assessment in our current culture of fear tends to focus more on the identification of deficits (as opposed to functional capacities), leading to over-prescription of expensive remedies and lost opportunities for autonomy and self-management. Despite little evidence linking assessment to treatment outcomes, and no evidence supporting our capacity to detect risk for harm, we persist with lengthy intake assessments and automatic specialist referrals that delay care. Before providers and policy makers can feel comfortable letting go of risk assessment, however, they need to understand the forces underlying the risk paradigm that dominates our society and restricts creative solutions for supporting those in need.
