A Famous Indian Regiment, the Kali Panchwin, 2/5th, Formerly the 105th, Mahratta Light Infantry, 1768-1923 Sir Reginald Hennell, 1927

Looking through the Speculum Judith A. Houck, 2024-01-19 Highlights local history to tell a national story about the evolution of the women's health movement, illuminating the struggles and successes of bringing feminist dreams into clinical spaces. The women's health movement in the United States, beginning in 1969 and taking hold in the 1970s, was a broad-based movement seeking to increase women's bodily knowledge, reproductive control, and well-being. It was a political movement that insisted that bodily autonomy provided the key to women's liberation. It was also an institution-building movement that sought to transform women's relationships with medicine; it was dedicated to increasing women's access to affordable health care without the barriers of homophobia, racism, and sexism. But the movement did not only focus on women's bodies. It also encouraged activists to reimagine their relationships with one another, to develop their relationships in the name of personal and political change, and, eventually, to discover and confront the limitations of the bonds of womanhood. This book examines historically the emergence, development, travails, and triumphs of the women's health movement in the United States. By bringing medical history and the history of women's bodies into our emerging understandings of second-wave feminism, the author sheds light on the understudied efforts to shape health care and reproductive control beyond the hospital and the doctor's office—in the home, the women's center, the church basement, the bookshop, and the clinic. Lesbians, straight women, and women of color all play crucial roles in this history. At its center are the politics, institutions, and relationships created by and within the women's health movement, depicted primarily from the perspective of the

activists who shaped its priorities, fought its battles, and grappled with its shortcomings.

Look Andrew L. Yarrow, 2021-11 Andrew L. Yarrow tells the story of Look magazine, one of the greatest mass-circulation publications in American history, and the very different United States in which it existed. The all-but-forgotten magazine had an extraordinary influence on mid-twentieth-century America, not only by telling powerful, thoughtful stories and printing outstanding photographs but also by helping to create a national conversation around a common set of ideas and ideals. Yarrow describes how the magazine covered the United States and the world, telling stories of people and trends, injustices and triumphs, and included essays by prominent Americans such as Martin Luther King Jr. and Margaret Mead. It did not shy away from exposing the country's problems, but it always believed that those problems could be solved. Look, which was published from 1937 to 1971 and had about 35 million readers at its peak, was an astute observer with a distinctive take on one of the greatest eras in U.S. history—from winning World War II and building immense, increasingly inclusive prosperity to celebrating grand achievements and advancing the rights of Black and female citizens. Because the magazine shaped Americans' beliefs while guiding the country through a period of profound social and cultural change, this is also a story about how a long-gone form of journalism helped make America better and assured readers it could be better still.

In Looking Back One Learns to See: Marcel Proust and Photography Mary

Bergstein,2014-03-01 Marcel Proust offered the twentieth century a new psychology of memory and seeing. His novel *In Search of Lost Time* was written in the modern age of photography and art history. In *Looking Back One Learns to See: Marcel Proust and Photography* is an intellectual adventure that brings to light Proust's visual imagination, his visual metaphors, and his photographic resources and imaginings. The book features over 90 illustrations. Mary Bergstein highlights various kinds of photography: daguerreotypes, stereoscopic cards, cartes-de-visite, postcards, book illustrations, and other photographic mediums. Portraiture, medical photography, spirit photography, architectural photography, Orientalism, ethnographic photography, and fin-de-siècle studies of Botticelli, Leonardo, and Vermeer, are considered in terms of Proust's life and work. The net is cast wide, and each image under discussion has been researched with subtle attention to art, literature, and cultural history. This scholarly study in literature and visual culture will be a delight, too, for general readers who love photography or Proust. Mary Bergstein is professor of History of Art and Visual Culture at the Rhode Island School of Design. She won the 2012 "Courage to Dream" book prize from the American Psychoanalytic Association for, *Mirrors of Memory: Freud, Photography, and the History of Art* (Cornell 2010). She has published numerous books and articles on art and visual culture from Italian Renaissance sculpture to contemporary photography.

Image, Eye and Art in Calvino Birgitte Grundtvig, Martin L. McLaughlin, Lene Waage Petersen, 2007 Few recent writers have been as interested in the cross-over between texts and visual art as Italo Calvino (1923-85). Involved for most of his life in the publishing industry, he took as much interest in the visual as in the textual aspects of his own and other writers' books. In this volume twenty international Calvino experts, including Barengi, Battistini, Belpoliti, Hofstadter, Ricci, Scarpa and others, consider the many facets of the interplay between the visual and textual in Calvino's works, from the use of colours in his fiction to the influence of cartoons, from the graphic qualities of the book covers themselves to the significance of photography and landscape in his fiction and non-fiction. The volume is appropriately illustrated with images evoked by Calvino's major texts.

Letters for Micah Les T. Hardin, 2008-02-01 What does it take for a young minister in his first pastorate to thrive (not simply survive) in the local church? What personal, emotional, psychological, and spiritual issues must young ministers attend to in order to be successful in ministry? What role do character issues play in a successful ministry? These are just a few of the questions raised by Letters for Micah. Drawing on his ministry experience and study in the area of spiritual formation, Les Hardin blends practical, field-tested wisdom with sound, biblical advice to help ministry novices navigate the turbulent waters they often face in their first ministries. Letters for Micah allows the

reader to enter into the conversation between a seasoned pastoral veteran and an apprentice who leans on him for guidance in the difficulties of his first days in ministry. Compiling letters written specifically for this project and actual correspondence with ministry novices, Hardin bridges the worlds of practical ministry training and spiritual formation to help novices grasp the responsibilities pastoral ministry entails. Rather than peddling contemporary, pop-leadership techniques to get the work done, this book encourages young ministers to form lifelong character habits and spiritual formation practices as the biblically ordained foundation for ministry.
